The actual make whole change of control stock price and make whole change of control effective date may not be set forth in the table above, in which case:

- If the actual make whole change of control stock price on the make whole change of control effective date is between two stock prices in the table or the actual effective date is between two effective dates in the table, the amount of the conversion rate adjustment will be determined by straight-line interpolation between the adjustment amounts set forth for the higher and lower make whole change of control stock prices and the earlier and later make whole change of control effective dates, as applicable, based on a 365-day year;
- If the actual make whole change of control stock price on the make whole change of control effective date exceeds \$40.00 per share of the Issuer's common stock (subject to adjustment as described above), no adjustment to the conversion rate will be made; and
- If the actual make whole change of control stock price on the make whole change of control effective date is less than \$8.25 per share of the Issuer's common stock (subject to adjustment as described above), no adjustment to the conversion rate will be made.

Notwithstanding the foregoing, the conversion rate shall not exceed 121.2120 shares of the Issuer's common stock per \$1,000 principal amount of the notes, subject to adjustment in the same manner as the conversion rate.
