AMR EAGLE EYE

December 28, 2004

Statements in this report contain various forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which represent the Company's expectations or beliefs concerning future events. When used in this document the words "expects", "plans," "anticipates," "indicates," "believes," "forecast," "guidance" and similar expressions are intended to identify forward-looking statements. Forward-looking statements include, without limitation, the Company's expectations concerning operations and financial conditions, including changes in capacity, revenues, and costs, future financing needs, overall economic conditions, plans and objectives for future operations, the impact on the Company of its results of operations for the past three years and the sufficiency of its financial resources to absorb that impact. Other forward-looking statements include statements which do not relate solely to historical facts, such as, without limitation, statements which discuss the possible future effects of current known trends or uncertainties, or which indicate that the future effects of known trends or uncertainties cannot be predicted, guaranteed or assured. All forward-looking statements in this report are based on information available to the Company on the date of this report. The Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. This document includes forecasts of unit cost and revenue performance, fuel prices, capacity estimates, liquidity expectations, other income/expense estimates, and statements regarding the Company's liquidity, each of which is a forward-looking statement. Forward-looking statements are subject to a number of factors that could cause the Company's actual results to differ materially from the Company's expectations. The following factors, in addition to other possible factors not listed, could cause the Company's actual results to differ materially from those expressed in forward-looking statements: changes in economic, business and financial conditions; the Company's substantial indebtedness; continued high fuel prices and the availability of fuel; the residual effects of the war in Iraq; conflicts in the Middle East or elsewhere; the highly competitive business environment faced by the Company, with increasing competition from low cost carriers and historically low fare levels (which could result in a deterioration of the revenue environment); the ability of the Company to implement its restructuring program and the effect of the program on operational performance and service levels; uncertainties with respect to the Company's international operations; changes in the Company's business strategy; actions by U.S. or foreign government agencies; the possible occurrence of additional terrorist attacks; another outbreak of a disease (such as SARS) that affects travel behavior; uncertainties with respect to the Company's relationships with unionized and other employee work groups; the inability of the Company to satisfy existing financial or other covenants in certain of its credit agreements; the availability of future financing; the ability of the Company to reach acceptable agreements with third parties; and increased insurance costs and potential reductions of available insurance coverage. Additional information concerning these and other factors is contained in the Company's Securities and Exchange Commission filings, including but not limited to the Company's Annual Report on Form 10-K for the year ended December 31, 2003.

This Eagle Eye provides updated guidance for the fourth quarter and the full year 2004.

Performance Update

Costs: For the fourth quarter, AMR and AA Mainline unit cost guidance is slightly lower than prior guidance at 10.66 cents and 10.21 cents respectively.

Revenue: Fourth quarter unit revenue is expected to decline between 2.0% to 3.0% year over year.

Liquidity: We expect to end the fourth quarter with a total cash and short-term investment balance well over \$3 billion, including \$477 million in restricted cash and short-term investments.
