AMR CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, these financial statements contain all adjustments, consisting of normal recurring accruals, necessary to present fairly the financial position, results of operations and cash flows for the periods indicated. Results of operations for the periods presented herein are not necessarily indicative of results of operations for the entire year. The condensed consolidated financial statements include the accounts of AMR Corporation (AMR or the Company) and its wholly owned subsidiaries, including (i) its principal subsidiary American Airlines, Inc. (American) and (ii) its regional airline subsidiary, AMR Eagle Holding Corporation and its primary subsidiaries, American Eagle Airlines, Inc. and Executive Airlines, Inc. (collectively, AMR Eagle). The condensed consolidated financial statements also include the accounts of variable interest entities for which the Company is the primary beneficiary. For further information, refer to the consolidated financial statements and footnotes thereto included in the AMR Annual Report on Form 10-K for the year ended December 31, 2007 (2007 Form 10-K).
 2. In the first quarter of 2008, AMR reclassified revenues associated with the marketing component of AAdvantage program mileage sales from Passenger revenue to Other revenue. As a result of this change, approximately \$150 million of revenue was reclassified from Passenger revenue to Other revenue in the quarter ended March 31, 2007 to conform to the current presentation.
 3. As of March 31, 2008, the Company had commitments to acquire 25 Boeing 737-800s in 2009, three Boeing 737-800s in 2010 and an aggregate of 26 Boeing 737 aircraft and seven Boeing 777 aircraft in 2013 through 2016. Payments will approximate \$239 million in the remainder of 2008, \$498 million in 2009, \$50 million in 2010, \$106 million in 2011, \$336 million in 2012, and \$1.5 billion for 2013 and beyond. These amounts are net of purchase deposits currently held by the manufacturer. However, if as anticipated, the Company commits to accelerating the delivery dates of a significant number of aircraft in the future, a significant portion of the \$1.9 billion commitment from 2011 and beyond will be accelerated into 2008, 2009 and 2010. In addition, any incremental aircraft orders will increase the Company's commitments.

On December 18, 2007, the European Commission issued a Statement of Objection ("SO") against 26 airlines, including the Company. The SO alleges that these carriers participated in a conspiracy to set surcharges on cargo shipments in violation of EU law. The SO states that, in the event that the allegations in the SO are affirmed, the Commission will impose fines against the Company. The Company intends to vigorously contest the allegations and findings in the SO under EU laws, and it intends to cooperate fully with all other pending investigations. In the event that the SO is affirmed or other investigations uncover violations of the U.S. antitrust laws or the competition laws of some other jurisdiction, or if the Company were named and found liable in any litigation based on these allegations, such findings and related legal proceedings could have a material adverse impact on the Company. The evaluation of this allegation is still in the early stages, but based on the information to date, the Company has not recorded any reserve for this exposure for the quarter ended March 31, 2008.
 4. Accumulated depreciation of owned equipment and property at March 31, 2008 and December 31, 2007 was \$12.0 billion and \$11.9 billion, respectively. Accumulated amortization of equipment and property under capital leases at March 31, 2008 and December 31, 2007 was \$1.1 billion and \$1.2 billion, respectively.

5. As discussed in Note 7 to the consolidated financial statements in the 2007 Form 10-K, the Company has a valuation allowance against the full amount of its net deferred tax asset. The Company currently provides a valuation allowance against deferred tax assets when it is more likely than not that some portion, or all of its deferred tax assets, will not be realized. The Company's deferred tax asset valuation allowance increased approximately \$50 million during the three months ended March 31, 2008 to \$675 million as of March 31, 2008, including the impact of comprehensive loss for the three months ended March 31, 2008 and changes from other adjustments.

6. As of March 31, 2008, AMR had issued guarantees covering approximately \$1.4 billion of American's tax-exempt bond debt and American had issued guarantees covering approximately \$1.1 billion of AMR's unsecured debt. In addition, as of March 31, 2008, AMR and American had issued guarantees covering approximately \$327 million of AMR Eagle's secured debt and AMR has issued guarantees covering an additional \$2.2 billion of AMR Eagle's secured debt.

As discussed in Note 6 to the consolidated financial statements in the 2007 Form 10-K, the Company has outstanding \$324 million principal amount of its 4.50 percent senior convertible notes due 2024 (the 4.50 Notes) and \$300 million principal amount of its 4.25 percent senior convertible notes due 2023 (the 4.25 Notes). On each of February 15, 2009 for the 4.50 Notes, and on September 23, 2008 for the 4.25 notes, and then again at certain later dates, the holders may require us to purchase all or a portion of their notes at a price equal to 100% of their principal amount plus unpaid interest which may be paid in cash, common stock or a combination of cash and common stock. Accordingly, the Company has classified both the \$324 million principal and the \$300 million principal amounts of the 4.50 Notes and the 4.25 Notes, respectively, into Current maturities of long term debt as of March 31, 2008 as a result of the existence of these put provisions.

7. In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157 "Fair Value Measurements" (SFAS 157). SFAS 157 introduces a framework for measuring fair value and expands required disclosure about fair value measurements of assets and liabilities. SFAS 157 for financial assets and liabilities is effective for fiscal years beginning after November 15, 2007, and the Company has adopted the standard for those assets and liabilities as of January 1, 2008 and the impact of adoption was not significant.

SFAS 157 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. SFAS 157 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. The Company's short-term investments primarily utilize broker quotes in a non-active market for valuation of these securities. The Company's fuel derivative contracts, which primarily consist of commodity options and collars, are valued using energy and commodity market data which is derived by combining raw inputs with quantitative models and processes to generate forward curves and volatilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Company utilizes the market approach to measure fair value for its financial assets and liabilities. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

8. The following table provides the components of net periodic benefit cost for the three months ended March 31, 2008 and 2007 (in millions):

The Company contributed \$25 million to its defined benefit pension plans during the three months ended March 31, 2008 and contributed \$50 million on April 15, 2008.

9. As a result of the revenue environment, high fuel prices and the Company's restructuring activities, the Company has recorded a number of charges during the last few years. The following table summarizes the components of these charges and the remaining accruals for these charges (in millions):

	Aircraft Charges	Facility Exit Costs	Total
Remaining accrual at December 31, 2007	\$ 126	\$ 18	\$ 144
Adjustments	-	(5)	(5)
Payments	(18)	-	(18)
Remaining accrual at March 31, 2008	\$ 108	\$ 13	\$ 121

Cash outlays related to the accruals for aircraft charges and facility exit costs will occur through 2017 and 2018, respectively.

10. The Company includes changes in the fair value of certain derivative financial instruments that qualify for hedge accounting and unrealized gains and losses on available-for-sale securities in comprehensive income. For the three months ended March 31, 2008 comprehensive loss was \$(175) million, as opposed to comprehensive income of \$153 million for the three months ended March 31, 2007. The difference between net income (loss) and comprehensive income (loss) for both of the three month periods ended March 31, 2008 and 2007 is due primarily to the accounting for the Company's derivative financial instruments. Due to the current value of the Company's derivative contracts, some agreements with counterparties require collateral to be deposited with the Company. As of March 31, 2008 the collateral held in Short-term investments by AMR from such counterparties was \$274 million, an increase of \$110 million from December 31, 2007.

Ineffectiveness is inherent in hedging jet fuel with derivative positions based in crude oil or other crude oil related commodities. As required by Statement of Financial Accounting Standard No. 133, "Accounting for Derivative Instruments and Hedging Activities", the Company assesses, both at the inception of each hedge and on an on-going basis, whether the derivatives that are used in its hedging transactions are highly effective in offsetting changes in cash flows of the hedged items. In doing so, the Company uses a regression model to determine the correlation of the change in prices of the commodities used to hedge jet fuel (NYMEX Heating oil) to the change in the price of jet fuel. The Company also monitors the actual dollar offset of the hedges' market values as compared to hypothetical jet fuel hedges. The fuel hedge contracts are generally deemed to be "highly effective" if the R-squared is greater than 80 percent and the dollar offset correlation is within 80 percent to 125 percent. The Company discontinues hedge accounting prospectively if it determines that a derivative is no longer expected to be highly effective as a hedge or if it decides to discontinue the hedging relationship.

In March of 2008, the FASB issued Statement of Financial Accounting Standards No. 161, "Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133" (SFAS 161). SFAS 161 requires entities to provide greater transparency about how and why the entity uses derivative instruments, how the instruments and related hedged items are accounted for under SFAS 133, and how the instruments and related hedged items affect the financial position, results of operations, and cash flows of the entity. SFAS 161 is effective for fiscal years beginning after November 15, 2008. The principal impact to the Company will be to require the Company to expand its disclosure regarding its derivative instruments.

Approximately 43 million shares related to employee stock options, performance share plans, convertible notes and deferred stock were not added to the denominator for the three months ended March 31, 2008 because inclusion of such shares would have been antidilutive. For the three months ended March 31, 2008 approximately 12 million shares related to employee stock options were not added to the denominator because the options' exercise prices were greater than the average market price of the common shares.

An insignificant amount of shares related to stock options were not added to the denominator because the options' exercise prices were greater than the average market price for the common shares for the three month period ended March 31, 2007.

12. On April 16, 2008, the Company announced that it has reached a definitive agreement with Lighthouse Holdings, Inc., which is owned by investment funds affiliated with TPG Capital, L.P. and Pharos Capital Group, LLC for the sale of American Beacon Advisors, Inc. (American Beacon), its wholly-owned asset management subsidiary. AMR expects to receive total consideration of approximately \$480 million, of which a substantial portion will result in a gain. While primarily a cash transaction, AMR will retain a minority equity stake in the business. The sale is expected to close in the summer of 2008 subject to customary closing conditions and the final approval of the Board of Trustees of the American Beacon family of mutual funds, shareholders of the American Beacon family of mutual funds, and consents from other American Beacon clients.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Information

Statements in this report contain various forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which represent the Company's expectations or beliefs concerning future events. When used in this document and in documents incorporated herein by reference, the words "expects," "plans," "anticipates," "indicates," "believes," "forecast," "guidance," "outlook," "may," "will," "should," "seeks," "targets" and similar expressions are intended to identify forward-looking statements. Similarly, statements that describe our objectives, plans or goals are forward-looking statements. Forward-looking statements include, without limitation, the Company's expectations concerning operations and financial conditions, including changes in capacity, revenues, and costs, future financing plans and needs, fleet plans, overall economic conditions, plans and objectives for future operations, and the impact on the Company of its results of operations in recent years and the sufficiency of its financial resources to absorb that impact. Other forward-looking statements include statements which do not relate solely to historical facts, such as, without limitation, statements which discuss the possible future effects of current known trends or uncertainties, or which indicate that the future effects of known trends or uncertainties cannot be predicted, guaranteed or assured. All forward-looking statements in this report are based upon information available to the Company on the date of this report. The Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise.

Forward-looking statements are subject to a number of factors that could cause the Company's actual results to differ materially from the Company's expectations. The following factors, in addition to other possible factors not listed, could cause the Company's actual results to differ materially from those expressed in forward-looking statements: the materially weakened financial condition of the Company, resulting from its significant losses in recent years; the ability of the Company to generate additional revenues and reduce its costs; changes in economic and other conditions beyond the Company's control, and the volatile results of the Company's operations; the Company's substantial indebtedness and other obligations; the ability of the Company to satisfy existing financial or other covenants in certain of its credit agreements; continued high and volatile fuel prices and further increases in the price of fuel, and the availability of fuel; the fiercely and increasingly competitive business environment faced by the Company; industry consolidation, competition with reorganized carriers; low fare levels by historical standards and the Company's reduced pricing power; the Company's need to raise additional funds and its ability to do so on acceptable terms; changes in the Company's corporate or business strategy; government regulation of the Company's business; conflicts overseas or terrorist attacks; uncertainties with respect to the Company's international operations; outbreaks of a disease (such as SARS or avian flu) that affects travel behavior; labor costs that are higher than those of the Company's competitors; uncertainties with respect to the Company's relationships with unionized and other employee work groups; increased insurance costs and potential reductions of available insurance coverage; the Company's ability to retain key management personnel; potential failures or disruptions of the Company's computer, communications or other technology systems; changes in the price of the Company's common stock; and the ability of the Company to reach acceptable agreements with third parties. Additional information concerning these and other factors is contained in the Company's Securities and Exchange Commission filings, including but not limited to the Company's 2007 Form 10-K (see in particular Item 1A "Risk Factors" in the 2007 Form 10-K).

Overview

The Company recorded a net loss of \$328 million in the first quarter of 2008 compared to net earnings of \$81 million in the same period last year. The Company's loss reflects a dramatic year-over-year increase in fuel prices from an average of \$1.85 per gallon in the first quarter 2007 to an average of \$2.74 per gallon in the first three months of 2008. Fuel expense is the Company's largest single expense category and the price increase resulted in \$665 million in incremental year-over-year fuel expense in the first quarter 2008 (based on the year-over-year increase in the average price per gallon multiplied by gallons consumed).

The significant rise in fuel price was partially offset by higher unit revenues (passenger revenue per available seat mile). Mainline passenger unit revenues increased 6.5 percent for the first quarter due to a one point load factor increase and a 5.1 percent increase in passenger yield (passenger revenue per passenger mile) compared to the same period in 2007. Although load factor performance and passenger yield showed year-over-year improvement, passenger yield remains low by historical standards and below the Company's peak yield set in the year 2000. The Company believes this is the result of a fragmented industry with numerous competitors and excess capacity, increased competition from low cost carriers and from carriers that have recently reorganized under the protection of Chapter 11, pricing transparency resulting from the use of the Internet, and other factors. We believe that our reduced pricing power could persist indefinitely.

As of March 31, 2008, the Company had commitments to acquire 25 Boeing 737-800s in 2009, three Boeing 737-800s in 2010 and an aggregate of 26 Boeing 737 aircraft and seven Boeing 777 aircraft in 2013 through 2016 as a part of its fleet replacement strategy. On April 1, 2008, AMR committed to acquire two incremental Boeing 737-800s to be delivered in 2009. See subsection entitled "Significant Indebtedness and Future Financing" under Item 2. Management's Discussion and Analysis and Note 3 to the condensed consolidated financial statements for more information.

On April 16, 2008, the Company announced that it has reached a definitive agreement for the sale of American Beacon. See Note 12 to the condensed consolidated financial statements for more information.

The Company's ability to become consistently profitable and its ability to continue to fund its obligations on an ongoing basis will depend on a number of factors, many of which are largely beyond the Company's control. Certain risk factors that affect the Company's business and financial results are referred to under "Forward-Looking Information" above and are discussed in the Risk Factors listed in Item 1A (on pages 11-17) in the 2007 Form 10-K. In addition, four of the Company's largest domestic competitors and several smaller carriers have filed for bankruptcy in the last several years and have used this process to significantly reduce contractual labor and other costs. In order to remain competitive and to improve its financial condition, the Company must continue to take steps to generate additional revenues and to reduce its costs. Although the Company has a number of initiatives underway to address its cost and revenue challenges, the ultimate success of these initiatives is not known at this time and cannot be assured.

LIQUIDITY AND CAPITAL RESOURCES

Significant Indebtedness and Future Financing

The Company remains heavily indebted and has significant obligations (including substantial pension funding obligations), as described more fully under Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the 2007 Form 10-K. As of the date of this Form 10-Q, the Company believes it should have sufficient liquidity to fund its operations for the foreseeable future, including repayment of debt and capital leases, capital expenditures and other contractual obligations. However, to maintain sufficient liquidity as the Company continues to implement its restructuring and cost reduction initiatives, and because the Company has significant debt, lease and other obligations in the next several years, including commitments to purchase aircraft, as well as substantial pension funding obligations, the Company will need access to additional funding.

The Company's possible financing sources primarily include: (i) a limited amount of additional secured aircraft debt (a very large majority of the Company's owned aircraft, including most of the Company's Section 1110-eligible aircraft, are encumbered) or sale-leaseback transactions involving owned aircraft; (ii) debt secured by new aircraft deliveries; (iii) debt secured by other assets; (iv) securitization of future operating receipts; (v) the sale or monetization of certain assets; (vi) unsecured debt; and (vii) issuance of equity and/or equity-like securities. However, the availability and level of these financing sources cannot be assured, particularly in light of the Company's and American's recent financial results, substantial indebtedness, reduced credit ratings, high fuel prices, revenues that are weak by historical standards and the financial difficulties being experienced in the airline industry. The inability of the Company to obtain necessary funding on acceptable terms would have a material adverse impact on the Company.

The Company's substantial indebtedness and other obligations could have important consequences. For example, they could: (i) limit the Company's ability to obtain additional financing for working capital, capital expenditures, acquisitions and general corporate purposes, or adversely affect the terms on which such financing could be obtained; (ii) require the Company to dedicate a substantial portion of its cash flow from operations to payments on its indebtedness and other obligations, thereby reducing the funds available for other purposes; (iii) make the Company more vulnerable to economic downturns; (iv) limit the Company's ability to withstand competitive pressures and reduce its flexibility in responding to changing business and economic conditions; and (v) limit the Company's flexibility in planning for, or reacting to, changes in its business and the industry in which it operates.

Future payments for all aircraft that the Company was committed to acquire as of March 31, 2008, including the estimated amounts for price escalation, are currently estimated to be approximately \$2.7 billion, with the majority currently scheduled to be made in 2011 through 2016. Payments are currently scheduled to be approximately \$239 million in the remainder of 2008, \$498 million in 2009, \$50 million in 2010, \$106 million in 2011, \$336 million in 2012, and \$1.5 billion for 2013 and beyond. These amounts are net of purchase deposits currently held by the manufacturer. However, the Company intends to accelerate the delivery of certain aircraft that it is committed to purchase and order additional aircraft, as described below.

As a part of the Company's efforts to improve the cost and fuel efficiency of its fleet, as well as lessen the Company's impact on the environment, AMR announced on April 16, 2008 its intention to further accelerate the replacement of its MD-80 aircraft fleet with Boeing 737-800 aircraft. The Company now intends to take delivery of a total of 34 Boeing 737-800 aircraft in 2009 and expects to take delivery of 36 Boeing 737-800s in 2010. These expected deliveries would be pursuant to both accelerated orders and incremental orders. If, as anticipated, the Company commits to accelerating the delivery dates of additional aircraft, the related capital expenditure commitments will be accelerated, and any incremental aircraft orders will increase the Company's obligation. This proposed fleet replacement plan would increase the Company's 2008-2010 commitments described above by an estimated \$1.3 billion. The Company's continued replacement strategy, and its execution of that strategy, will depend on such factors as future economic and industry conditions and the financial condition of the Company. The Company also continues to evaluate the economic benefits and other aspects of replacing some of the other aircraft in its fleet with new aircraft.

The Company currently has no committed financing for any aircraft that it is committed to purchase or that it may order. The Company will need additional financing to continue to execute its fleet replacement plan.

Credit Facility Covenants

American has a secured bank credit facility which consists of a \$255 million revolving credit facility, with a final maturity on June 17, 2009, and a fully drawn \$439 million term loan facility, with a final maturity on December 17, 2010 (the Revolving Facility and the Term Loan Facility, respectively, and collectively, the Credit Facility). In 2007, American paid in full the \$255 million principal balance of the Revolving Facility and as of March 31, 2008, it remained undrawn. American's obligations under the Credit Facility are guaranteed by AMR.

The Credit Facility contains a covenant (the Liquidity Covenant) requiring American to maintain, as defined, unrestricted cash, unencumbered short term investments and amounts available for drawing under committed revolving credit facilities of not less than \$1.25 billion for each quarterly period through the life of the Credit Facility. AMR and American were in compliance with the Liquidity Covenant as of March 31, 2008 and expect to be able to continue to comply with this covenant. In addition, the Credit Facility contains a covenant (the EBITDAR Covenant) requiring AMR to maintain a ratio of cash flow (defined as consolidated net income, before interest expense (less capitalized interest), income taxes, depreciation and amortization and rentals, adjusted for certain gains or losses and non-cash items) to fixed charges (comprising interest expense (less capitalized interest) and rentals). The required ratio was 1.40 to 1.00 for the four quarter period ending March 31, 2008, and will increase to 1.50 to 1.00 for the four quarter period ending June 30, 2009. AMR and American were in compliance with the EBITDAR covenant for the period ending March 31, 2008; however, given fuel prices that are high by historical standards and the volatility of fuel prices and revenues, it is difficult to assess whether AMR and American will be able to continue to comply with this covenant for subsequent periods, and there are no assurances that AMR and American will be able to do so. Failure to comply with these covenants would result in a default under the Credit Facility which - - if the Company did not take steps to obtain a waiver of, or otherwise mitigate, the default - - could result in a default under a significant amount of the Company's other debt and lease obligations and otherwise have a material adverse impact on the Company.

Credit Card Processing Agreement

Under American's credit card processing agreement, the card processor may require American to maintain with the processor a reserve from American's credit card receivables under certain circumstances. The amount of any such reserve would be based on, among other things, the amount of unrestricted cash held by American and American's debt service coverage ratio, as defined in the agreement. American is not currently required to maintain any reserve under the agreement. Given fuel prices that are high by historical standards and the volatility of fuel prices and revenues, it is difficult to assess whether American could be required to maintain such a reserve in the future and, if so, the amount of the reserve.

Pension Funding Obligation

The Company has contributed \$25 million to its defined benefit pension plans during the three months ended March 31, 2008 and contributed \$50 million on April 15, 2008.

Cash Flow Activity

At March 31, 2008, the Company had \$4.5 billion in unrestricted cash and short-term investments, comparable with the balance as of December 31, 2007, and \$255 million available under the Revolving Facility. Net cash provided by operating activities in the three-month period ended March 31, 2008 was \$449 million, a decrease of \$453 million over the same period in 2007 primarily due to a dramatic year-over-year increase in average fuel prices from \$1.85 per gallon in the first quarter 2007 to \$2.74 per gallon in the first three months of 2008. The fuel price increase resulted in \$665 million in incremental year-over-year expense in the first quarter 2008 (based on the year-over-year increase in the average price per gallon multiplied by gallons consumed). The Company contributed \$25 million to its defined benefit pension plans in the first quarter of 2008 compared to \$62 million during the first quarter of 2007.

Capital expenditures for the first three months of 2008 were \$217 million and primarily included aircraft purchase deposits and aircraft modifications.

In the past, the Company has from time to time refinanced, redeemed or repurchased its debt and taken other steps to reduce its debt or lease obligations or otherwise improve its balance sheet. Going forward, depending on market conditions, its cash positions and other considerations, the Company may continue to take such actions.

RESULTS OF OPERATIONS

For the Three Months Ended March 31, 2008 and 2007

REVENUES

The Company's revenues increased approximately \$270 million, or 5.0 percent, to \$5.7 billion in the first quarter of 2008 from the same period last year. American's passenger revenues increased by 4.9 percent, or \$203 million, on a 1.5 percent decrease in capacity (available seat mile) (ASM). American's passenger load factor increased 1.0 point to 79.1 percent while passenger yield increased by 5.1 percent to 13.48 cents. This resulted in an increase in passenger revenue per available seat mile (RASM) of 6.5 percent to 10.67 cents. Following is additional information regarding American's domestic and international RASM and capacity:

	Three Months Ended March 31, 2008			
	RASM (cents)	Y-O-Y Change	ASMs (billions)	Y-O-Y Change
DOT Domestic	10.5	6.9%	25.8	(3.6)%
International	10.9	5.6	15.2	2.2
DOT Latin America	12.1	8.0	8.1	3.5
DOT Atlantic	9.4	(0.5)	5.5	1.6
DOT Pacific	9.8	10.7	1.6	(2.5)

The Company's Regional Affiliates include two wholly owned subsidiaries, American Eagle Airlines, Inc. and Executive Airlines, Inc. (collectively, AMR Eagle), and two independent carriers with which American has capacity purchase agreements, Trans States Airlines, Inc. (Trans States) and Chautauqua Airlines, Inc. (Chautauqua).

Regional Affiliates' passenger revenues, which are based on industry standard proration agreements for flights connecting to American flights, increased \$23 million, or 4.1 percent, to \$581 million as a result of increased passenger yield. Regional Affiliates' traffic decreased 5.3 percent to 2.1 billion revenue passenger miles (RPMs), while capacity decreased 5.1 percent to 3.1 billion ASMs, resulting in a 0.1 point decrease in the passenger load factor to 69.0 percent.

In the first quarter of 2008, the Company began classifying certain mileage sales revenue to Other revenue, which was previously recognized as a component of Passenger revenue. See Note 2 to the condensed consolidated financial statements for additional information.

OPERATING EXPENSES

The Company's total operating expenses increased 13.6 percent, or \$705 million, to \$5.9 billion in the first quarter of 2008 compared to the first quarter of 2007. The Company's operating expenses per ASM in the first quarter of 2008 increased 15.7 percent to 13.32 cents compared to the first quarter of 2007. These increases are due primarily to a dramatic year-over-year increase in fuel prices from \$1.85 per gallon in the first quarter 2007 to \$2.74 per gallon in the first three months of 2008. Fuel expense is the Company's largest single expense category and the price increase resulted in \$665 million in incremental year-over-year fuel expense in the first quarter 2008 (based on the year-over-year increase in the average price per gallon multiplied by gallons consumed). Continuing high fuel prices, additional increases in the price of fuel and/or disruptions in the supply of fuel would further adversely affect the Company's financial condition and results of operations.

In addition, the Company's operating and financial results were significantly affected by a significant number of weather related cancellations that resulted in an approximately three percent decrease in the Company's scheduled mainline departures during the first quarter of 2008.

(in millions)

Operating Expenses	Three Months Ended March 31, 2008	Change from 2007	Percentage Change

Other operating expenses	734	30	4.3	
Total operating expenses	<u>\$ 5,884</u>	<u>\$ 705</u>	<u>13.6%</u>	

(a) Aircraft fuel expense increased primarily due to a 48.0% percent increase in the Company's price per gallon of fuel (net of the impact of fuel hedging) offset by a 1.8 percent decrease in the Company's fuel consumption.

(b) Maintenance, materials and repairs expense increased due to a heavier workscope of scheduled airframe maintenance overhauls, repair costs and volume, and contractual engine repair rates, which are driven by aircraft age.

OTHER INCOME (EXPENSE)

Interest income decreased \$24 million due to both a decrease in short-term investment balances and a decrease in interest rates. Interest expense decreased \$47 million as a result of a decrease in the Company's long-term debt balance.

INCOME TAX

The Company did not record a net tax provision (benefit) associated with its first quarter 2008 loss and first quarter 2007 earnings due to the Company providing a valuation allowance, as discussed in Note 5 to the condensed consolidated financial statements.

Outlook

The Company currently expects second quarter 2008 mainline unit costs to increase approximately 17.7 percent year over year and full year 2008 mainline unit cost to increase approximately 14.4 percent year over year primarily due to the increase in the price of fuel. The Company's results are significantly affected by the price of jet fuel, which is in turn affected by a number of factors beyond our control. Fuel prices are volatile and the Company expects full year fuel expense to increase significantly in 2008 versus 2007.

As a result of increased fuel prices and growing concerns about the economy, the Company is reducing full year capacity from the previous guidance given in its Annual Report on Form 10-K for the year ended December 31, 2007. Capacity for American's mainline jet operations is expected to decline 1.4 percent in the second quarter compared to the second quarter of 2007 and is expected to decline approximately 1.4 percent for the full year 2008 compared to 2007.

Critical Accounting Policies and Estimates

The preparation of the Company's financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. The Company believes its estimates and assumptions are reasonable; however, actual results and the timing of the recognition of such amounts could differ from those estimates. The Company has identified the following critical accounting policies and estimates used by management in the preparation of the Company's financial statements: accounting for long-lived assets, routes, passenger revenue, frequent flyer program, stock compensation, and retiree medical and other benefits, income taxes and derivatives accounting. These policies and estimates are described in the 2007 Form 10-K, except as updated below.

Fair value – The Company has adopted Financial Accounting Standard No. 157 "Fair Value Measurements" (SFAS 157) as it applies to financial assets and liabilities effective January 1, 2008. SFAS 157 defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles (GAAP) and enhances disclosures about fair value measurements. Fair value is defined under SFAS 157 as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. For additional information on the fair value of certain financial assets and liabilities, see Note 7 to the condensed consolidated financial statements for additional information.

Under SFAS 157, AMR utilizes several valuation techniques in order to assess the fair value of the Company's financial assets and liabilities. The Company's fuel derivative contracts, which primarily consist of commodity options and collars, are valued using energy and commodity market data which is derived by combining raw inputs with

quantitative models and processes to generate forward curves volatilities. The Company's short-term investments primarily utilize broker quotes in a non-active market for valuation of these securities.

Long-lived assets – The recorded value of our fixed assets is impacted by a number of estimates made by the Company, including estimated useful lives, salvage values and the Company's determination as to whether aircraft are temporarily or permanently grounded. In accordance with Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" (SFAS 144), the Company records impairment charges on long-lived assets used in operations when events and circumstances indicate that the assets may be impaired, the undiscounted cash flows estimated to be generated by those assets are less than the carrying amount of those assets and the net book value of the assets exceeds their estimated fair value. In making these determinations, the Company uses certain assumptions, including, but not limited to: (i) estimated fair value of the assets; and (ii) estimated future cash flows expected to be generated by the assets, generally evaluated at a fleet level, which are based on additional assumptions such as asset utilization, length of service and estimated salvage values. A change in the Company's fleet plan has been the primary indicator that has resulted in an impairment charge in the past.

All of American's fleet types are depreciated over 30 years except for the Airbus A300 and the Boeing 767-200. It is possible that the ultimate lives of the Company's aircraft will be significantly different than the current estimate due to unforeseen events in the future that impact the Company's fleet plan, including positive or negative developments in the areas described above. For example, operating the aircraft for a longer period will result in higher maintenance, fuel and other operating costs than if the Company replaced the aircraft. At some point in the future, higher operating costs and/or improvement in the Company's economic condition could change the Company's analysis of the impact of retaining aircraft versus replacing them with new aircraft.

On April 16, 2008, the Company announced its intention to further accelerate the replacement of certain of its MD-80 aircraft fleet with Boeing 737-800 aircraft. The Company now intends to take delivery of a total of 34 Boeing 737-800 aircraft in 2009 and expects to take delivery of 36 Boeing 737-800s in 2010. See further discussion of aircraft commitments and the fleet replacement plan in subsection entitled "Significant Indebtedness and Future Financing" under Item 2. Management's Discussion and Analysis and Note 3 to the condensed consolidated financial statements.

In addition to the acceleration of depreciation expense that will be recorded in future periods due to a change in the estimated useful life of certain MD-80 aircraft, the Company considered whether a triggering event had occurred upon the announcement of the accelerated replacement of a portion of the MD-80 fleet, and determined that estimated future cash flows expected to be generated by the fleet did not warrant any impairment. To the extent AMR continues to commit to additional aircraft to replace the MD-80 fleet, or makes a further reduction in the estimated useful life of the MD-80 fleet, or other events and circumstances cause a deterioration of the future cash flows expected to be generated by that fleet, an impairment of the MD-80 fleet may result.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There have been no material changes in market risk from the information provided in Item 7A. Quantitative and Qualitative Disclosures About Market Risk of the Company's 2007 Form 10-K. The change in market risk for aircraft fuel is discussed below for informational purposes.

The risk inherent in the Company's fuel related market risk sensitive instruments and positions is the potential loss arising from adverse changes in the price of fuel. The sensitivity analyses presented do not consider the effects that such adverse changes may have on overall economic activity, nor do they consider additional actions management may take to mitigate the Company's exposure to such changes. Therefore, actual results may differ. The Company does not hold or issue derivative financial instruments for trading purposes.

Aircraft Fuel The Company's earnings are affected by changes in the price and availability of aircraft fuel. In order to provide a measure of control over price and supply, the Company trades and ships fuel and maintains fuel storage facilities to support its flight operations. The Company also manages the price risk of fuel costs primarily by using jet fuel and heating oil hedging contracts. Market risk is estimated as a hypothetical 10 percent increase in the March 31, 2008 cost per gallon of fuel. Based on projected 2008 and 2009 fuel usage through March 31, 2009, such an increase would result in an increase to aircraft fuel expense of approximately \$790 million in the twelve months ended March 31, 2009, inclusive of the impact of effective fuel hedge instruments outstanding at March 31, 2008, and assumes the Company's fuel hedging program remains effective under Financial Accounting Standard No. 133, "Accounting for Derivative Instruments and Hedging Activities". Comparatively, based on projected 2008 fuel usage, such an increase would result in an increase to aircraft fuel expense of approximately \$649 million in the twelve months ended December 31, 2008, inclusive of the impact of fuel hedge instruments outstanding at December 31, 2007. The change in market risk is primarily due to the increase in fuel prices.

Ineffectiveness is inherent in hedging jet fuel with derivative positions based in crude oil or other crude oil related commodities. As required by Statement of Financial Accounting Standard No. 133, "Accounting for Derivative Instruments and Hedging Activities", the Company assesses, both at the inception of each hedge and on an on-going basis, whether the derivatives that are used in its hedging transactions are highly effective in offsetting changes in cash flows of the hedged items. In doing so, the Company uses a regression model to determine the correlation of the change in prices of the commodities used to hedge jet fuel (e.g. NYMEX Heating oil) to the change in the price of jet fuel. The Company also monitors the actual dollar offset of the hedges' market values as compared to hypothetical jet fuel hedges. The fuel hedge contracts are generally deemed to be "highly effective" if the R-squared is greater than 80 percent and the dollar offset correlation is within 80 percent to 125 percent. The Company discontinues hedge accounting prospectively if it determines that a derivative is no longer expected to be highly effective as a hedge or if it decides to discontinue the hedging relationship.

As of March 31, 2008, the Company had effective hedges, including option contracts and collars, covering approximately 27 percent of its estimated remaining 2008 fuel requirements. The consumption hedged for the remainder of 2008 is capped at an average price of approximately \$2.48 per gallon of jet fuel excluding taxes and transportation costs. A deterioration of the Company's financial position could negatively affect the Company's ability to hedge fuel in the future.

Item 4. Controls and Procedures

The term “disclosure controls and procedures” is defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, or the Exchange Act. This term refers to the controls and procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the Securities and Exchange Commission. An evaluation was performed under the supervision and with the participation of the Company’s management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the Company’s disclosure controls and procedures as of March 31, 2008. Based on that evaluation, the Company’s management, including the CEO and CFO, concluded that the Company’s disclosure controls and procedures were effective as of March 31, 2008. During the quarter ending on March 31, 2008, there was no change in the Company’s internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II: OTHER INFORMATION

Item 1. Legal Proceedings

Between April 3, 2003 and June 5, 2003, three lawsuits were filed by travel agents, some of whom opted out of a prior class action (now dismissed) to pursue their claims individually against American, other airline defendants, and in one case against certain airline defendants and Orbitz LLC. The cases, Tam Travel et. al., v. Delta Air Lines et. al., in the United States District Court for the Northern District of California, San Francisco (51 individual agencies), Paula Fausky d/b/a Timeless Travel v. American Airlines, et. al., in the United States District Court for the Northern District of Ohio, Eastern Division (29 agencies) and Swope Travel et al. v. Orbitz et. al. in the United States District Court for the Eastern District of Texas, Beaumont Division (71 agencies) were consolidated for pre-trial purposes in the United States District Court for the Northern District of Ohio, Eastern Division. Collectively, these lawsuits seek damages and injunctive relief alleging that the certain airline defendants and Orbitz LLC: (i) conspired to prevent travel agents from acting as effective competitors in the distribution of airline tickets to passengers in violation of Section 1 of the Sherman Act; (ii) conspired to monopolize the distribution of common carrier air travel between airports in the United States in violation of Section 2 of the Sherman Act; and that (iii) between 1995 and the present, the airline defendants conspired to reduce commissions paid to U.S.-based travel agents in violation of Section 1 of the Sherman Act. On September 23, 2005, the Fausky plaintiffs dismissed their claims with prejudice. On September 14, 2006, the court dismissed with prejudice 28 of the Swope plaintiffs. On October 29, 2007, the court dismissed all of the Swope plaintiffs' claims. The Swope plaintiffs have appealed the court's decision. American continues to vigorously defend these lawsuits. A final adverse court decision awarding substantial money damages or placing material restrictions on the Company's distribution practices would have a material adverse impact on the Company.

On July 12, 2004, a consolidated class action complaint that was subsequently amended on November 30, 2004, was filed against American and the Association of Professional Flight Attendants (APFA), the union which represents American's flight attendants (Ann M. Marcoux, et al., v. American Airlines Inc., et al. in the United States District Court for the Eastern District of New York). While a class has not yet been certified, the lawsuit seeks on behalf of all of American's flight attendants or various subclasses to set aside, and to obtain damages allegedly resulting from, the April 2003 Collective Bargaining Agreement referred to as the Restructuring Participation Agreement (RPA). The RPA was one of three labor agreements American successfully reached with its unions in order to avoid filing for bankruptcy in 2003. In a related case (Sherry Cooper, et al. v. TWA Airlines, LLC, et al., also in the United States District Court for the Eastern District of New York), the court denied a preliminary injunction against implementation of the RPA on June 30, 2003. The Marcoux suit alleges various claims against the APFA and American relating to the RPA and the ratification vote on the RPA by individual APFA members, including: violation of the Labor Management Reporting and Disclosure Act (LMRDA) and the APFA's Constitution and By-laws, violation by the APFA of its duty of fair representation to its members, violation by American of provisions of the Railway Labor Act (RLA) through improper coercion of flight attendants into voting or changing their vote for ratification, and violations of the Racketeer Influenced and Corrupt Organizations Act of 1970 (RICO). On March 28, 2006, the district court dismissed all of various state law claims against American, all but one of the LMRDA claims against the APFA, and the claimed violations of RICO. This leaves the claimed violations of the RLA and the duty of fair representation against American and the APFA (as well as one LMRDA claim and one claim against the APFA of a breach of its constitution). Although the Company believes the case against it is without merit and both American and the APFA are vigorously defending the lawsuit, a final adverse court decision invalidating the RPA and awarding substantial money damages would have a material adverse impact on the Company.

On February 14, 2006, the Antitrust Division of the United States Department of Justice (the "DOJ") served the Company with a grand jury subpoena as part of an ongoing investigation into possible criminal violations of the antitrust laws by certain domestic and foreign air cargo carriers. At this time, the Company does not believe it is a target of the DOJ investigation. The New Zealand Commerce Commission notified the Company on February 17, 2006 that it is also investigating whether the Company and certain other cargo carriers entered into agreements relating to fuel surcharges, security surcharges, war risk surcharges, and customs clearance surcharges. On February 22, 2006, the Company received a letter from the Swiss Competition Commission informing the Company that it too is investigating whether the Company and certain other cargo carriers entered into agreements relating to fuel surcharges, security surcharges, war risk surcharges, and customs clearance surcharges. On March 11, 2008, the Company received from the Swiss Competition Commission a request for information concerning, among other things, the scope and organization of the Company's activities in Switzerland. On December 19, 2006 and June 12, 2007, the Company received requests for information from the European Commission, seeking information regarding the Company's corporate structure, revenue and pricing announcements for air cargo shipments to and from the European Union. On January 23, 2007, the Brazilian competition authorities, as part of an ongoing investigation, conducted an unannounced search of the Company's cargo facilities in Sao Paulo, Brazil. The authorities are investigating whether the Company and certain other foreign and domestic air carriers violated Brazilian competition laws by illegally conspiring to set fuel surcharges on cargo shipments. On June 27, 2007 and October 31, 2007, the Company received requests for information from the Australian Competition and Consumer Commission seeking information regarding fuel surcharges imposed by the Company on cargo shipments to and from Australia and regarding the structure of the Company's cargo operations. On December 18, 2007, the European Commission issued a Statement of Objection ("SO") against 26 airlines, including the Company. The SO alleges that these carriers participated in a conspiracy to set surcharges on cargo shipments in violation of EU law. The SO states that, in the event that the allegations in the SO are affirmed, the Commission will impose fines against the Company. The Company intends to vigorously contest the allegations and findings in the SO under EU laws, and it intends to cooperate fully with all other pending investigations. In the event that the SO is affirmed or other investigations uncover violations of the U.S. antitrust laws or the competition laws of some other jurisdiction, or if the Company were named and found liable in any litigation based on these allegations, such findings and related legal proceedings could have a material adverse impact on the Company.

Approximately 44 purported class action lawsuits have been filed in the U.S. against the Company and certain foreign and domestic air carriers alleging that the defendants violated U.S. antitrust laws by illegally conspiring to set prices and surcharges on cargo shipments. These cases, along with other purported class action lawsuits in which the Company was not named, were consolidated in the United States District Court for the Eastern District of New York as In re Air Cargo Shipping Services Antitrust Litigation, 06-MD-1775 on June 20, 2006. Plaintiffs are seeking trebled money damages and injunctive relief. The Company has not been named as a defendant in the consolidated complaint filed by the plaintiffs. However, the plaintiffs have not released any claims that they may have against the Company, and the Company may later be added as a defendant in the litigation. If the Company is sued on these claims, it will vigorously defend the suit, but any adverse judgment could have a material adverse impact on the Company. Also, on January 23, 2007, the Company was served with a purported class action complaint filed against the Company, American, and certain foreign and domestic air carriers in the Supreme Court of British Columbia in Canada (McKay v. Ace Aviation Holdings, et al.). The plaintiff alleges that the defendants violated Canadian competition laws by illegally conspiring to set prices and surcharges on cargo shipments. The complaint seeks compensatory and punitive damages under Canadian law. On June 22, 2007, the plaintiffs agreed to dismiss their claims against the Company. The dismissal is without prejudice and the Company could be brought back into the litigation at a future date. If litigation is recommenced against the Company in the Canadian courts, the Company will vigorously defend itself; however, any adverse judgment could have a material adverse impact on the Company.

On June 20, 2006, the DOJ served the Company with a grand jury subpoena as part of an ongoing investigation into possible criminal violations of the antitrust laws by certain domestic and foreign passenger carriers. At this time, the Company does not believe it is a target of the DOJ investigation. The Company intends to cooperate fully with this investigation. On September 4, 2007, the Attorney General of the State of Florida served the Company with a Civil Investigative Demand as part of its investigation of possible violations of federal and Florida antitrust laws regarding the pricing of air passenger transportation. In the event that this or other investigations uncover violations of the U.S. antitrust laws or the competition laws of some other jurisdiction, such findings and related legal proceedings could have a material adverse impact on the Company.

Approximately 52 purported class action lawsuits have been filed in the U.S. against the Company and certain foreign and domestic air carriers alleging that the defendants violated U.S. antitrust laws by illegally conspiring to set prices and surcharges for passenger transportation. On October 25, 2006, these cases, along with other purported class action lawsuits in which the Company was not named, were consolidated in the United States District Court for the Northern District of California as In re International Air Transportation Surcharge Antitrust Litigation, Civ. No. 06-1793 (the "Passenger MDL"). On July 9, 2007, the Company was named as a defendant in the Passenger MDL. On March 13, 2008, and March 14, 2008, two additional purported class action complaints, Turner v. American Airlines, et al., Civ. No. 08-1444 (N.D. Cal.), and LaFlamme v. American Airlines, et al., Civ. No. 08-1079 (E.D.N.Y.), were filed against the Company, alleging that the Company violated U.S. antitrust laws by illegally conspiring to set prices and surcharges for passenger transportation in Japan and Germany, respectively. Plaintiffs in the Turner and LaFlamme cases are seeking trebled money damages and injunctive relief. The Company vigorously will defend these lawsuits, but any adverse judgment in these actions could have a material adverse impact on the Company.

American is defending a lawsuit (Love Terminal Partners, L.P. et al. v. The City of Dallas, Texas et al.) filed on July 17, 2006 in the United States District Court in Dallas. The suit was brought by two lessees of facilities at Dallas Love Field Airport against American, the cities of Fort Worth and Dallas, Southwest Airlines, Inc., and the Dallas/Fort Worth International Airport Board. The suit alleges that an agreement by and between the five defendants with respect to Dallas Love Field violates Sections 1 and 2 of the Sherman Act. Plaintiffs seek injunctive relief and compensatory and statutory damages. On October 31, 2007, the court entered an order dismissing all of the plaintiffs' claims. The plaintiffs have appealed. American will vigorously defend this lawsuit; however, any adverse judgment could have a material adverse impact on the Company.

On August 21, 2006, a patent infringement lawsuit was filed against American and American Beacon Advisors, Inc. (a wholly-owned subsidiary of the Company), in the United States District Court for the Eastern District of Texas (Ronald A. Katz Technology Licensing, L.P. v. American Airlines, Inc., et al.). This case has been consolidated in the Central District of California for pre-trial purposes with numerous other cases brought by the plaintiff against other defendants. The plaintiff alleges that American and American Beacon infringe a number of the plaintiff's patents, each of which relates to automated telephone call processing systems. The plaintiff is seeking past and future royalties, injunctive relief, costs and attorneys' fees. Although the Company believes that the plaintiff's claims are without merit and is vigorously defending the lawsuit, a final adverse court decision awarding substantial money damages or placing material restrictions on existing automated telephone call system operations would have a material adverse impact on the Company.

AMR CORPORATIONAMENDED AND RESTATED BYLAWS

(As amended and restated April 16, 2008)

ARTICLE IOffices

The registered office of the corporation in the State of Delaware is to be located in the City of Wilmington, County of New Castle. The corporation may have other offices within and without the State of Delaware.

ARTICLE IIMeetings of Stockholders

Section 1. Annual Meetings. An annual meeting of stockholders to elect directors and to take action upon such other matters as may properly come before the meeting shall be held on the third Wednesday in May of each year, or on such other day, and at such time and at such place, within or without the State of Delaware, as the board of directors or the chairman of the board may from time to time fix.

Any stockholder wishing to bring a matter before an annual meeting must notify the secretary of the corporation of such fact not less than sixty nor more than ninety days before the date of the meeting. Such notice shall be in writing and shall set forth the business proposed to be brought before the meeting, shall identify the stockholder and shall disclose the stockholder's interest in the proposed business.

Section 2. Special Meetings. (a) Special meetings of stockholders may be called by the board of directors, the chairman of the board, the president or, in accordance with subsection (b), by the secretary at such place (if any), date and time and for such purpose or purposes as shall be set forth in the notice of such meeting. At a special meeting of the stockholders, only such business shall be conducted as shall have been properly brought before the meeting pursuant to the corporation's notice of meeting.

(b) A special meeting of stockholders shall be called by the secretary upon the written request of the record holders of at least 25% percent of the outstanding common stock of the corporation (the "Requisite Percent"), subject to the following:

(1) In order for a special meeting upon stockholder request (a "Stockholder Requested Special Meeting") to be called, one or more requests for a special meeting (each, a "Special Meeting Request," and collectively, the "Special Meeting Requests") stating the purpose of the meeting and the matters proposed to be acted upon thereat must be signed by the Requisite Percent of record holders (or their duly authorized agents) and must be delivered to the secretary at the principal executive offices of the corporation by registered mail, return receipt requested. Any requesting stockholder may revoke his, her or its Special Meeting Request at any time by written revocation delivered to the secretary at the principal executive offices of the corporation.

(2) A Special Meeting Request shall not be valid and the secretary shall not be required to call a Stockholder Requested Special Meeting if (i) the Special Meeting Request relates to an item of business that is not a proper subject for stockholder action under applicable law; (ii) the Special Meeting Request is received by the corporation during the period commencing 90 days prior to the first anniversary of the date of the immediately preceding annual meeting and ending on the date of the next annual meeting; (iii) an identical or substantially similar item (a "Similar Item") was presented at any meeting of stockholders held within 120 days prior to receipt by the corporation of such Special Meeting Request (and for purposes of this clause (iii), the election of directors shall be deemed a "Similar Item" with respect to all items of business involving the election or removal of directors); (iv) a Similar Item is included in the corporation's notice as an item of business to be brought before a stockholder meeting that has been called but not yet held; or (v) such Special Meeting Request was made in a manner that involved a violation of Regulation 14A under the Securities Exchange Act of 1934, as amended, or other applicable law.

(3) The secretary shall not be required to call a Stockholder Requested Special Meeting if the board of directors presents a Similar Item for stockholder approval at an annual or special meeting of stockholders that is held within 120 days after the corporation receives such Special Meeting Request.

(4) Except as provided in the next sentence, any special meeting shall be held at such date and time as may be fixed by the board of directors in accordance with these bylaws and in compliance with Delaware law. In the case of a Stockholder Requested Special Meeting, and except as otherwise provided herein, such meeting shall be held at such date and time as may be fixed by the board of directors; provided, however, that the date of any Stockholder Requested Special Meeting shall be not more than sixty (60) days after the record date for such meeting (the "Meeting Record Date"), which shall be fixed in accordance with these bylaws; provided further that, if the board of directors fails to designate, within ten (10) days after the date on which valid Stockholder Meeting Requests signed by the Requisite Percent of record holders have been delivered to the secretary, a date and time for a Stockholder Requested Special Meeting, then such meeting shall be held at 9:00 a.m. local time on the 60th day after the Meeting Record Date (or, if that day shall not be a business day, then on the next preceding business day); and provided further that in the event that the board of directors fails to designate a place for a Stockholder Requested Special Meeting within ten (10) days after the Delivery Date, then such meeting shall be held at the corporation's principal executive offices. In fixing a date and time for any Stockholder Requested Special Meeting the board of directors may consider such factors as it deems relevant within the good faith exercise of business judgment, including, without limitation, the nature of the matters to be considered, the facts and circumstances surrounding any request for meeting and any plan of the board of directors to call an annual meeting or a special meeting.

(5) Business transacted at any Stockholder Requested Special Meeting shall be limited to the purpose(s) stated in the valid Special Meeting Request(s) signed by the Requisite Percent of record holders; provided, however that nothing herein shall prohibit the board of directors from submitting matters to the stockholders at any Stockholder Requested Special Meeting. If none of the stockholders who submitted the Special Meeting Request appears or sends a qualified representative to present the matters to be presented for consideration that were specified in the Stockholder Meeting Request, the corporation need not present such matters for a vote at such meeting.

Section 3. Nominees for Election as Director. Nominations for election as director, other than those made by or at the direction of the board of directors, must be made by timely notice to the secretary, setting forth as to each nominee the information required to be included in a proxy statement under the proxy rules of the Securities and Exchange Commission. If such election is to occur at an annual meeting of stockholders, notice shall be timely if it meets the requirements of such proxy rules for proposals of security holders to be presented at an annual meeting. If such election is to occur at a special meeting of stockholders, notice shall be timely if received not less than ninety days prior to such meeting.

Section 4. Notice of Meetings. Written notice of each meeting of stockholders shall be given which shall state the place, date and hour of the meeting, and, in the case of a special meeting, the purpose or purposes for which the meeting is called. Unless otherwise provided by law, such notice shall be mailed, postage prepaid, to each stockholder entitled to vote at such meeting, at his address as it appears on the records of the corporation, not less than ten nor more than sixty days before the date of the meeting. When a meeting is adjourned to another time or place, notice need not be given of the adjourned meeting if the time and place thereof are announced at the meeting at which the adjournment is taken, unless the adjournment is for more than thirty days or a new record date is fixed for the adjourned meeting, in which case a notice of the adjourned meeting shall be given to each stockholder of record entitled to vote at the meeting.

Section 5. Chairman and Secretary at Meetings. At any meeting of stockholders the chairman of the board, or in his absence, the president, or if neither such person is available, then a person designated by the board of directors, shall preside at and act as chairman of the meeting. The secretary, or in his absence a person designated by the chairman of the meeting, shall act as secretary of the meeting.

Section 6. Proxies. Each stockholder entitled to vote at a meeting of stockholders may authorize another person or persons to act for him by proxy, but no such proxy shall be voted or acted upon after three years from its date, unless the proxy provides for a longer period.

Section 7. Quorum. At all meetings of the stockholders the holders of one-third of the number of shares of the stock issued and outstanding and entitled to vote thereat, present in person or represented by proxy, shall constitute a quorum requisite for the election of directors and the transaction of other business, except as otherwise provided by law or by the certificate of incorporation or by any resolution of the board of directors creating any series of Preferred Stock.

If holders of the requisite number of shares to constitute a quorum shall not be present in person or represented by proxy at any meeting of stockholders, the stockholders entitled to vote thereat, present in person or represented by proxy, shall have the power to adjourn the meeting from time to time until a quorum shall be present or represented. At any such adjourned meeting at which a quorum shall be present or represented, any business may be transacted which might have been transacted at the meeting as originally notified.

Section 8. Voting. At any meeting of stockholders, except as otherwise provided by law or by the certificate of incorporation or by any resolution of the board of directors creating any series of Preferred Stock:

- (a) Each holder of record of a share or shares of stock on the record date for determining stockholders entitled to vote at such meeting shall be entitled to one vote in person or by proxy for each share of stock so held.
- (b) Directors shall be elected by a plurality of the votes cast by the holders of Common Stock, present in person or by proxy.
- (c) Each other question properly presented to any meeting of stockholders shall be decided by a majority of the votes cast on the question entitled to vote thereon.
- (d) Elections of directors shall be by ballot but the vote upon any other question shall be by ballot only if so ordered by the chairman of the meeting or if so requested by stockholders, present in person or represented by proxy, entitled to vote on the question and holding at least 10% of the shares so entitled to vote.

Section 9. Action by Written Consent. Any stockholder seeking to act by written consent of stockholders shall notify the secretary in writing of such intent and shall request the board of directors to fix a record date for determining the stockholders entitled to vote by consent. The notice shall specify the actions sought to be taken and, if the election of one or more individuals as director is sought, shall include as to each nominee the information required to be included in a proxy statement under the proxy rules of the Securities and Exchange Commission. Such record date shall not be more than ten (10) days after the date upon which the resolution fixing the record date is adopted by the board of directors.

The board of directors shall promptly, but in all events within ten (10) days after the date on which the written request for fixing a record date was received by the secretary, adopt a resolution fixing the record date. If no record date has been fixed by the board of directors within ten (10) days of the date on which such a request is received, the record date for determining stockholders entitled to vote by consent, when no prior action by the board of directors is required by applicable law, shall be the first date on which a signed written consent setting forth the action taken or proposed to be taken was delivered to the corporation by delivery to its registered office in the State of Delaware, its principal place of business, or any officer or agent of the corporation having custody of the book in which proceedings of meetings of stockholders are recorded. Delivery made to the corporation's registered office shall be by hand or by certified or registered mail, return receipt requested. If no record date has been fixed by the board of directors and prior action by the board of directors is required by applicable law, the record date for determining stockholders entitled to vote by consent shall be at the close of business on the date on which the board of directors adopts the resolution taking such prior action.

Section 10. List of Stockholders. At least ten days before every meeting of stockholders, a complete list of the stockholders entitled to vote at the meeting, arranged in alphabetical order, and showing the address of each stockholder and the number of shares registered in the name of each stockholder shall be prepared. Such list shall be open to the examination of any stockholder, for any purpose germane to the meeting, during ordinary business hours for a period of at least ten days prior to the meeting, either at a place within the city where the meeting is to be held, which place shall be specified in the notice of the meeting, or, if not so specified, at the place where the meeting is to be held. The list shall also be produced and kept at the time and place of the meeting during the whole time thereof, and may be inspected by any stockholder who is present.

Section 11. Judges of Election. Whenever a vote at a meeting of stockholders shall be by ballot, or whenever written consent to action is sought, the proxies and ballots or consents shall be received and taken charge of, and all questions touching on the qualification of voters and the validity of proxies and consents and the acceptance and rejection of votes shall be decided by two judges of election. In the case of a meeting of stockholders, such judges of election shall be appointed by the board of directors before or at the meeting, and if no such appointment shall have been made, then by the stockholders at the meeting. In the case of a solicitation of consents, such judges of election shall be appointed by the board of directors on or before the record date for determining the stockholders entitled to vote by consent, and if no such appointment shall have been made, then by the chairman of the board or the president. If for any reason either of the judges of election previously appointed shall fail to attend or refuse or be unable to serve, a judge of election in place of any so failing to attend or refusing or unable to serve, shall be appointed by the board of directors, the stockholders at the meeting, the chairman of the board or the president.

ARTICLE III

Directors: Number, Election, Etc.

Section 1. Number. The board of directors shall consist of such number of members, not less than three, as the board of directors may from time to time determine by resolution, plus such additional persons as the holders of the Preferred Stock may be entitled from time to time, pursuant to the provisions of any resolution of the board of directors creating any series of Preferred Stock, to elect to the board of directors.

Section 2. Election, Term, Vacancies. Directors shall be elected each year at the annual meeting of stockholders, except as hereinafter provided, and shall hold office until the next annual election and until their successors are duly elected and qualified. Vacancies and newly created directorships resulting from any increase in the authorized number of directors may be filled by a majority of the directors then in office, although less than a quorum.

Section 3. Resignation. Any director may resign at any time by giving written notice of such resignation to the board of directors, the chairman of the board, the president or the secretary. Any such resignation shall take effect at the time specified therein or, if no time be specified, upon the receipt thereof by the board of directors or one of the above-named officers and, unless specified therein, the acceptance of such resignation shall not be necessary to make it effective.

Section 4. Removal. Any director may be removed from office at any time, with or without cause, by a vote of a majority of a quorum of the stockholders entitled to vote at any regular meeting or at any special meeting called for the purpose.

Section 5. Fees and Expenses. Directors shall receive such fees and expenses as the board of directors shall from time to time prescribe.

ARTICLE IV

Meetings of Directors

Section 1. Regular Meetings. Regular meetings of the board of directors shall be held at the principal office of the corporation, or at such other place (within or without the State of Delaware), and at such time, as may from time to time be prescribed by the board of directors or stockholders. A regular annual meeting of the board of directors for the election of officers and the transaction of other business shall be held on the same day as the annual meeting of the stockholders or on such other day and at such time and place as the board of directors shall determine. No notice need be given of any regular meeting.

Section 2. Special Meetings. Special meetings of the board of directors may be held at such place (within or without the State of Delaware) and at such time as may from time to time be determined by the board of directors or as may be specified in the call and notice of any meeting. Any such meeting shall be held at the call of the chairman of the board, the president, a vice president, the secretary, or two or more directors. Notice of a special meeting of directors shall be mailed to each director at least three days prior to the meeting date, provided that in lieu thereof, notice may be given to each director personally or by telephone, or dispatched by telegraph, at least one day prior to the meeting date.

Section 3. Waiver of Notice. In lieu of notice of meeting, a waiver thereof in writing, signed by the person or persons entitled to said notice whether before or after the time stated therein, shall be deemed equivalent thereto. Any director present in person at a meeting of the board of directors shall be deemed to have waived notice of the time and place of meeting.

Section 4. Action without Meeting. Unless otherwise restricted by the certificate of incorporation, any action required or permitted to be taken at any meeting of the board of directors or of any committee thereof may be taken without a meeting if all members of the board of directors or of such committee, as the case may be, consent thereto in writing, and the writing or writings are filed with the minutes of the proceedings of the board of directors or of such committee.

Section 5. Quorum. At all meetings of the board, one-third of the total number of directors shall constitute a quorum for the transaction of business. The act of a majority of the directors present at any meeting at which there is a quorum shall be the act of the board of directors, except as may be otherwise specifically provided by law.

If at any meeting there is less than a quorum present, a majority of those present (or if only one be present, then that one), may adjourn the meeting from time to time without further notice other than announced at the meeting until a quorum is present. At such adjourned meeting at which a quorum is present, any business may be transacted which might have been transacted at the meeting as originally scheduled.

ARTICLE VII

Indemnification

Section 1. Nature of Indemnity. The corporation shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative by reason of the fact that he is or was or has agreed to become a director or officer of the corporation, or is or was serving or has agreed to serve at the request of the corporation as a director or officer, of another corporation, partnership, joint venture, trust or other enterprise, or by reason of any action alleged to have been taken or omitted in such capacity, and may indemnify any person who was or is a party or is threatened to be made a party to such an action by reason of the fact that he is or was or has agreed to become an employee or agent of the corporation, or is or was serving or has agreed to serve at the request of the corporation as an employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by him or on his behalf in connection with such action, suit or proceeding and any appeal therefrom, if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding had no reasonable cause to believe his conduct was unlawful; except that in the case of an action or suit by or in the right of the corporation to procure a judgment in its favor (1) such indemnification shall be limited to expenses (including attorneys' fees) actually and reasonably incurred by such person in the defense or settlement of such action or suit, and (2) no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Delaware Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the

adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Delaware Court of Chancery or such other court shall deem proper.

The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that his conduct was unlawful.

Section 2. Successful Defense. To the extent that a director, officer, employee or agent of the corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in Section 1 hereof or in defense of any claim, issue or matter therein, he shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him in connection therewith.

Section 3. Determination That Indemnification Is Proper.

(a) Any indemnification of a director or officer of the corporation under Section 1 hereof (unless ordered by a court) shall be made by the corporation unless a determination is made that indemnification of the director or officer is not proper in the circumstances because he has not met the applicable standard of conduct set forth in Section 1 hereof. Such determination shall be made, with respect to a director or officer, (1) by a majority vote of the directors who are not parties to such action, suit or proceeding, even though less than a quorum, or (2) by a committee of such directors designated by a majority vote of such directors, even though less than a quorum, or (3) if there are no such directors, or if such directors so direct, by independent legal counsel in a written opinion, or (4) by the stockholders.

(b) Any indemnification of an employee or agent of the corporation (who is not also a director or officer of the corporation) under Section 1 hereof (unless ordered by a court) may be made by the corporation upon a determination that indemnification of the employee or agent is proper in the circumstances because such person has met the applicable standard of conduct set forth in Section 1 hereof. Such determination, in the case of an employee or agent, may be made (1) in accordance with the procedures outlined in the second sentence of Section 3(a), or (2) by an officer of the corporation, upon delegation of such authority by a majority of the Board of Directors.

Section 4. Advance Payment of Expenses. Expenses (including attorneys' fees) incurred by a director or officer in defending any civil, criminal, administrative or investigative action, suit or proceeding shall be paid by the corporation in advance of the final disposition of such action, suit or proceeding upon receipt of an undertaking by or on behalf of the director or officer to repay such amount if it shall ultimately be determined that he is not entitled to be indemnified by the corporation as authorized in this Article. Such expenses (including attorneys' fees) incurred by other employees and agents may be so paid upon such terms and conditions, if any, as the corporation deems appropriate. The board of directors may authorize the corporation's counsel to represent a director, officer, employee or agent in any action, suit or proceeding, whether or not the corporation is a party to such action, suit or proceeding.

Section 5. Procedure for Indemnification of Directors or Officers. Any indemnification of a director or officer of the corporation under Sections 1 and 2, or advance of costs, charges and expenses of a director or officer under Section 4 of this Article, shall be made promptly, and in any event within 60 days, upon the written request of the director or officer. If the corporation fails to respond within 60 days, then the request for indemnification shall be deemed to be approved. The right to indemnification or advances as granted by this Article shall be enforceable by the director or officer in any court of competent jurisdiction if the corporation denies such request, in whole or in part. Such person's costs and expenses incurred in connection with successfully establishing his right to indemnification, in whole or in part, in any such action shall also be indemnified by the corporation. It shall be a defense to any such action (other than an action brought to enforce a claim for the advance of costs, charges and expenses under Section 4 of this Article where the required undertaking, if any, has been received by the corporation) that the claimant has not met the standard of conduct set forth in Section 1 of this Article, but the burden of proving such defense shall be on the corporation. Neither the failure of the corporation (including its board of directors or a committee thereof, its independent legal counsel, and its stockholders) to have made a determination prior to the commencement of such action that indemnification of the claimant is proper in the circumstances because he has met the applicable standard of conduct set forth in Section 1 of this Article, nor the fact that there has been an actual determination by the corporation (including its board of directors or a committee thereof, its independent legal counsel, and its stockholders) that the claimant has not met such applicable standard of conduct, shall be a defense to the action or create a presumption that the claimant has not met the applicable standard of conduct.

Section 6. Survival; Preservation of Other Rights. The foregoing indemnification provisions shall be deemed to be a contract between the corporation and each director, officer, employee and agent who serves in such capacity at any time while these provisions as well as the relevant provisions of the Delaware Corporation Law are in effect and any repeal or modification thereof shall not affect any right or obligation then existing with respect to any state of facts then or previously existing or any action, suit, or proceeding previously or thereafter brought or threatened based in whole or in part upon any such state of facts. Such a contract right may not be modified retroactively without the consent of such director, officer, employee or agent.

The indemnification provided by this Article VII shall not be deemed exclusive of any other rights to which those indemnified may be entitled under any bylaw, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in his official capacity and as to action in another capacity while holding such office, and shall continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.

Section 7. Insurance. The corporation shall purchase and maintain insurance on behalf of any person who is or was or has agreed to become a director or officer of the corporation, or is or was serving at the request of the corporation as a director or officer of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against him and incurred by him or on his behalf in any such capacity, or arising out of his status as such, whether or not the corporation would have the power to indemnify him against such liability under the provisions of this Article, provided that such insurance is available on acceptable terms, which determination shall be made by a vote of a majority of the entire board of directors.

Section 8. Savings Clause. If this Article or any portion hereof shall be invalidated on any ground by any court of competent jurisdiction, then the corporation shall nevertheless indemnify each director or officer and may indemnify each employee or agent of the corporation as to costs, charges and expenses (including attorneys' fees), judgments, fines and amounts paid in settlement with respect to any action, suit or proceeding, whether civil, criminal, administrative or investigative, including an action by or in the right of the corporation, to the full extent permitted by any applicable portion of this Article that shall not have been invalidated and to the full extent permitted by applicable law.
