ITEM 8.01. OTHER EVENTS.

Financial Performance Update

Like others in the industry, American Airlines Group Inc. (the "Company") has seen a slowing in demand and forward bookings due to the recent acceleration of the pandemic. Following a strong start to the fourth quarter of 2020, rising COVID-19 case counts and associated travel restrictions in the immediate period leading up to the Thanksgiving holiday have resulted in a slowing of net bookings growth, which has persisted into December.

Due to the slowing of demand and forward bookings referenced above and modestly higher fuel prices, the Company now expects its fourth quarter 2020 average daily cash burn¹ to come in at the high end of its previously forecasted range of \$25-\$30 million per day. As a result, the Company now expects to end the fourth quarter with more than \$14 billion in total available liquidity, which includes the undrawn portion of our CARES Act loan from the U.S. Treasury and which excludes any additional proceeds from sales of our common stock that we may still make pursuant to the remaining capacity available under our existing at-the-market offering described in the prospectus supplement filed with the Securities and Exchange Commission on October 22, 2020.

The Company continues to expect the recovery in demand to be volatile and difficult to accurately forecast. These projections are based on the Company's current outlook and actual results could differ materially.

Cautionary Statement Regarding Forward-Looking Statements

Certain of the statements contained in this report should be considered forward-looking statements within the meaning of the Securities Act of 1933, as amended (the Securities Act), the Securities Exchange Act of 1934, as amended (the Exchange Act), and the Private Securities Litigation Reform Act of 1995. There may be other factors of which the company is not currently aware that may affect matters discussed in the forward-looking statements and may also cause actual results to differ materially from those discussed. In particular, the consequences of the COVID-19 outbreak to economic conditions and the travel industry in general and the financial position and operating results of the company in particular have been material, are changing rapidly, and cannot be predicted.
