

UNITED STATES SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

Form 10-K

- ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934  
For the fiscal year ended December 31, 2010
- TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number: 1-2691

**American Airlines, Inc.**

(Exact name of registrant as specified in its charter)

**Delaware**  
(State or other jurisdiction of  
incorporation or organization)

**13-1502798**  
(IRS Employer  
Identification Number)

**4333 Amon Carter Blvd.**  
**Fort Worth, Texas 76155**  
(Address of principal executive offices, including zip code)  
**(817) 963-1234**  
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class  
**None**

Name of Exchange on Which Registered  
**None**

Securities registered pursuant to Section 12(g) of the Act:

**None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.  Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.  Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.  Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).  Yes  No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer   
(Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).  Yes  No

American Airlines, Inc. is a wholly-owned subsidiary of AMR Corporation, and there is no market for the registrant's common stock. As of February 9, 2011, 1,000 shares of the registrant's common stock were outstanding.

The registrant meets the conditions set forth in, and is therefore filing this form with the reduced disclosure format prescribed by, General Instructions I(1)(a) and (b) of Form 10-K.

## PART I

### ITEM 1. BUSINESS

American Airlines, Inc. (American or the Company), the principal subsidiary of AMR Corporation (AMR), was founded in 1934. All of American's common stock is owned by AMR. At the end of 2010, American provided scheduled jet service to approximately 160 destinations throughout North America, the Caribbean, Latin America, Europe and Asia.

AMR Eagle Holding Corporation (AMR Eagle), a wholly-owned subsidiary of AMR, owns two regional airlines which do business as "American Eagle" — American Eagle Airlines, Inc. and Executive Airlines, Inc. (Executive) (collectively, the American Eagle® carriers). American also contracts with an independently owned regional airline, which does business as "AmericanConnection" (the AmericanConnection® carrier).

The AMR Eagle fleet is operated to feed passenger traffic to American pursuant to a capacity purchase agreement between American and AMR Eagle under which American receives all passenger revenue from flights and pays AMR Eagle a fee for each flight. The capacity purchase agreement reflects what the Company believes are current market rates received by other regional carriers for similar flying. Amounts paid to AMR Eagle under the capacity purchase agreement are available to pay for various operating expenses of AMR Eagle, such as crew expenses, maintenance and aircraft ownership. As of December 31, 2010, AMR Eagle operated approximately 1,500 daily departures, offering scheduled passenger service to over 175 destinations in North America, Mexico and the Caribbean. On a separate company basis, AMR Eagle reported \$2.3 billion in revenue in 2010. However, this historical financial information is not indicative of what AMR Eagle's future revenues might be if AMR Eagle were a stand-alone entity.

American, AMR Eagle and the AmericanConnection® airline serve more than 250 cities in approximately 50 countries with, on average, 3,400 daily flights. The combined network fleet numbers approximately 900 aircraft. American Airlines is also a founding member of oneworld® alliance, which enables member airlines to offer their customers more services and benefits than any member airline can provide individually. These services include a broader route network, opportunities to earn and redeem frequent flyer miles across the combined oneworld network and more airport lounges. Together, oneworld members serve 750 destinations in approximately 150 countries, with about 8,500 daily departures. American is also one of the largest scheduled air freight carriers in the world, providing a wide range of freight and mail services to shippers throughout its system onboard American's passenger fleet.

#### Competition

*Domestic Air Transportation* The domestic airline industry is fiercely competitive. Currently, any United States (U.S.) air carrier deemed fit by the U.S. Department of Transportation (DOT) is free to operate scheduled passenger service between any two points within the U.S. and its possessions. Most major air carriers have developed hub-and-spoke systems and schedule patterns in an effort to maximize the revenue potential of their service. American operates in five primary domestic markets: Dallas/Fort Worth (DFW), Chicago O'Hare, Miami, New York City and Los Angeles.

The American Eagle® carriers increase the number of markets the Company serves by providing connections at American's primary markets. The AmericanConnection® carrier currently provides connecting service to American through Chicago O'Hare. American's competitors also own or have marketing agreements with regional carriers which provide similar services at their major hubs and other locations.

On most of its domestic non-stop routes, the Company faces competing service from at least one, and sometimes more than one, domestic airline including: AirTran Airways (Air Tran), Alaska Airlines (Alaska), Continental Airlines (Continental), Delta Air Lines (including Northwest Airlines) (Delta), Frontier Airlines, JetBlue Airways (JetBlue), Hawaiian Airlines, Southwest Airlines (Southwest), Spirit Airlines, United Airlines (United), US Airways, Virgin America Airlines and their affiliated regional carriers. Competition is even greater between cities that require a connection, where the major airlines compete via their respective hubs. In addition, the Company faces competition on some of its connecting routes from carriers operating point-to-point service on such

routes. The Company also competes with all-cargo and charter carriers and, particularly on shorter segments, ground and rail transportation. On most of its routes, pricing decisions are affected, in large part, by the need to meet competition from other airlines.

American commenced commercial collaboration in New York and Boston with JetBlue during 2010. American's agreement with JetBlue provides customers with interline service in non-overlapping markets, letting customers connect between 15 of American's international destinations from New York and Boston and 26 domestic cities flown by JetBlue. Further, American expanded its relationship with JetBlue so that AAdvantage members and members of JetBlue's customer loyalty program will be able to earn AAdvantage miles or JetBlue points, respectively, when they fly on American and JetBlue cooperative interline routes.

Most of the Company's largest domestic competitors and several smaller carriers have reorganized under the protection of Chapter 11 of the U.S. Bankruptcy Code (Chapter 11) in recent years. It is possible that in the future one or more of the Company's competitors may seek to reorganize in or out of Chapter 11. Successful reorganizations present the Company with competitors with significantly lower operating costs derived from renegotiated labor, supply and financing contracts.

*International Air Transportation* In addition to its extensive domestic service, the Company provides international service to the Caribbean, Canada, Latin America, Europe and Asia. The Company's operating revenues from foreign operations (flights serving international destinations) were approximately 40 percent of the Company's total operating revenues in each of the three years 2010, 2009, and 2008. Additional information about the Company's foreign operations is included in Note 14 to the consolidated financial statements.

In providing international air transportation, the Company competes with foreign investor-owned carriers, foreign state-owned carriers and U.S. airlines that have been granted authority to provide scheduled passenger and cargo service between the U.S. and various overseas locations. In general, carriers that have the greatest ability to seamlessly connect passengers to and from markets beyond the nonstop city pair have a competitive advantage. In some cases, however, foreign governments limit U.S. air carriers' rights to carry passengers beyond designated gateway cities in foreign countries. To improve access to each other's markets, various U.S. and foreign air carriers — including American — have established marketing relationships with other airlines and rail companies. American currently has marketing relationships with Air Berlin, Air Pacific, Air Tahiti Nui, Alaska Airlines, British Airways, Cape Air, Cathay Pacific, China Eastern Airlines, Dragonair, Deutsche Bahn German Rail, EL AL, Etihad Airways, EVA Air, Finnair, GOL, Gulf Air, Hawaiian Airlines, Iberia, Japan Airlines (JAL), Jet Airways, JetStar Airways, LAN (includes LAN Airlines, LAN Argentina, LAN Ecuador and LAN Peru), Malév Hungarian Airlines, Niki Airlines, Qantas Airways, Royal Jordanian, S7 Airlines, and Vietnam Airlines.

American is also a founding member of the **oneworld** alliance, which includes British Airways, Cathay Pacific, Finnair, LAN Airlines, Iberia, Qantas, JAL, Malév Hungarian, Mexicana, Royal Jordanian and S7 Airlines. S7 Airlines, which is Russia's largest domestic airline, joined the **oneworld** alliance in November 2010. Kingfisher, India's leading domestic airline, is scheduled to join the alliance in 2011 and Air Berlin, the 5th largest airline in Europe, is scheduled to join in 2012. The **oneworld** alliance links the networks of the member carriers to enhance customer service and smooth connections to the destinations served by the alliance, including linking the carriers' frequent flyer programs and access to the carriers' airport lounge facilities.

In July 2010, American obtained clearance from the European Commission (EC) and approval by the DOT for antitrust immunity (ATI) for its cooperation with British Airways, Iberia, Finnair and Royal Jordanian. This approval enables American, British Airways and Iberia, through a joint business agreement (JBA), to cooperate on flights between North America and most countries in Europe, and allows pooling and sharing of certain revenues and costs, expanded codesharing, enhanced frequent flyer program reciprocity, and cooperation in other areas American began implementation of the JBA with British Airways and Iberia and expanded cooperation with Finnair and Royal Jordanian in October 2010.

In February 2010, American and JAL entered into a JBA which will enhance their scope of cooperation on routes between North America and Asia through adjustments to their respective networks, flight schedules, and other business activities. This, in turn, will allow both carriers to better complement each other's operations and to develop and offer competitive products and quality service to their customers. In the fourth quarter of 2010,

American and JAL received approval for ATI on certain routes between North America and Asia from the DOT and the Ministry of Land Infrastructure, Transport and Tourism of Japan (MLIT). Implementation of the JBA is subject to successful negotiation of certain detailed financial and commercial arrangements and other approvals. American expects to begin implementing the JBA with JAL in 2011.

*Price Competition* The airline industry is characterized by substantial and intense price competition. Fare discounting by competitors has historically had a negative effect on the Company's financial results because the Company is generally required to match competitors' fares, as failing to match would provide even less revenue due to customers' price sensitivity.

There are a number of low-cost carriers (LCCs) in the domestic market and the Company competes with LCCs over a very large part of its network. Several major airlines, including the Company, have implemented efforts to lower their costs since lower cost structures enable airlines to offer lower fares. In addition, several air carriers have reorganized in recent years under Chapter 11, including United, Delta and US Airways. These cost reduction efforts and bankruptcy reorganizations have allowed carriers to decrease operating costs. In the past, lower cost structures have generally resulted in fare reductions. If fare reductions by the Company are not offset by increases in passenger traffic, changes in the mix of traffic that improve yields and/or cost reductions, the Company's operating results will be negatively impacted.

## **Regulation**

*General* The Airline Deregulation Act of 1978, as amended, eliminated most domestic economic regulation of passenger and freight transportation. However, DOT and the Federal Aviation Administration (FAA) still exercise certain regulatory authority over air carriers. DOT maintains jurisdiction over the approval of international codeshare agreements, international route authorities, certain consumer protection and competition matters, such as advertising, denied boarding compensation and baggage liability.

The FAA regulates flying operations generally, including establishing standards for personnel, aircraft and certain security measures. As part of that oversight, the FAA has implemented a number of requirements that the Company has incorporated and is incorporating into its maintenance programs. The Company is progressing toward the completion of over 500 airworthiness directives, a number of which require the Company to perform significant maintenance work and to incur additional expenses. Based on its current implementation schedule, the Company expects to be in compliance with the applicable requirements within the required time periods. DOT and DOJ have jurisdiction over airline antitrust matters. The U.S. Postal Service has jurisdiction over certain aspects of the transportation of mail and related services. Labor relations in the air transportation industry are regulated under the Railway Labor Act, which vests in the National Mediation Board (NMB) certain functions with respect to disputes between airlines and labor unions relating to union representation and collective bargaining agreements. In addition, as a result of heightened levels of concern regarding data privacy, the Company is subject to an increasing number of domestic and foreign laws regarding the privacy and security of passenger and employee data.

In December 2009, the DOT issued a new rule intended to enhance air passenger protections. The new rule, which went into effect in April 2010, created new areas of regulation in passenger protection, including a requirement that certain carriers, including American, adopt contingency plans for lengthy tarmac delays at most U.S. airports. A carrier's failure to meet certain service performance criteria under the rule could subject it to substantial civil penalties.

On September 10, 2010, the FAA introduced a Notice of Proposed Rulemaking (NPRM) to change for all carriers certificated under Part 121 of the Federal Aviation Regulations, including American and the AMR Eagle carriers, the required amount and timing of rest periods for pilots between work assignments, modifying duty and rest requirements based on the time of day, number of scheduled segments, flight types, time zones and other factors. The Company and other carriers are seeking clarification with the FAA of certain provisions of the proposed rule changes to determine if the new requirements could have a material adverse impact on the Company. If these regulations were promulgated in their current form, we believe they could have a material adverse impact on the Company.

*International* International air transportation is subject to extensive government regulation. The Company's operating authority in international markets is subject to aviation agreements between the U.S. and the respective countries or governmental authorities (such as the European Union), and in some cases, fares and schedules require the approval of DOT and/or the relevant foreign governments. Moreover, alliances with international carriers may be subject to the jurisdiction and regulations of various foreign agencies. Bilateral and multilateral agreements among the U.S. and various foreign governments of countries served by the Company are periodically subject to renegotiation. Changes in U.S. or foreign government aviation policies could result in the alteration or termination of such agreements, diminish the value of route authorities, or otherwise adversely affect the Company's international operations. In addition, at some foreign airports, an air carrier needs slots (landing and take-off authorizations) before the air carrier can introduce new service or increase existing service. The availability of such slots is not assured and the inability of the Company to obtain and retain needed slots could therefore inhibit its efforts to compete in certain international markets.

In April 2007, the U.S. and the EU approved an open skies air services agreement that provides airlines from the U.S. and EU member states open access to each other's markets, with freedom of pricing and unlimited rights to fly beyond the U.S. and any airport in the EU including London's Heathrow Airport. The provisions of the agreement took effect on March 30, 2008. Under the agreement, every U.S. and EU airline is authorized to operate between airports in the U.S. and Heathrow. Notwithstanding the open skies agreement, Heathrow is a slot-controlled airport. The agreement has resulted in the Company facing increased competition in serving Heathrow. The Company is also facing competition in other European markets. In March 2010, the EU and the U.S. committed to the extension of the "open skies" air services agreement. The extension of this agreement reinforces the relationship between the EU and the U.S. and furthers the cause of aviation liberalization. See Item 1A, Risk Factors, and Note 11 to the consolidated financial statements for additional information.

In December 2009, the U.S. and Japan reached a tentative open skies air services agreement that provides airlines from the U.S. and Japan open access to each other's markets. The tentative agreement was signed by U.S. and Japanese representatives on October 25, 2010. The open skies agreement enables carriers of the two parties to operate between any two airports in the U.S. and Japan as well as fly to points beyond the two countries without restriction.

The U.S. and Colombia reached an open skies aviation pact in November 2010 that will remove restrictions between the two countries by the end of 2012. The proposed deal, which still needs to be finalized, will remove existing restrictions on the number of flights that can be operated between the countries. Also in 2010, the U.S. and Brazil entered into an open skies aviation services agreement that will provide for a phase-in of open skies by October 2015. The agreement immediately removes restrictions on pricing and on the routes between each country that can be served by U.S. and Brazilian scheduled and charter airlines.

*Security* In November 2001, the Aviation and Transportation Security Act (ATSA) was enacted in the U.S. The ATSA created a new government agency, the Transportation Security Administration (TSA), which is part of the Department of Homeland Security and is responsible for aviation security. The ATSA mandates that the TSA provide for the screening of all passengers and property, including U.S. mail, cargo, carry-on and checked baggage, and other articles that will be carried aboard a passenger aircraft. The ATSA also provides for security in flight decks of aircraft and requires federal air marshals to be present on certain flights.

Effective February 1, 2002, the ATSA imposed a \$2.50 per enplanement security service fee, which is being collected by the air carriers and submitted to the government to pay for these enhanced security measures. Additionally, air carriers are annually required to submit to the government an amount equal to what the air carriers paid for screening passengers and property in 2000. In recent years, the government has sought to increase both of these fees under spending proposals for the Department of Homeland Security. American and other carriers have announced their opposition to these proposals as there is no assurance that any increase in fees could be passed on to customers.

*Airline Fares* Airlines are permitted to establish their own domestic fares without governmental regulation. DOT maintains authority over certain international fares, rates and charges, but applies this authority on a limited basis. In addition, international fares and rates are sometimes subject to the jurisdiction of the governments of the foreign countries which the Company serves. While air carriers are required to file and adhere to international fare

and rate tariffs, substantial commissions, fare overrides and discounts to travel agents, brokers and wholesalers characterize many international markets.

*Airport Access* Operations at four major domestic airports and certain foreign airports served by the Company are regulated by governmental entities through allocations of “slots” or similar regulatory mechanisms which limit the rights of carriers to conduct operations at those airports. Each slot represents the authorization to land at or take off from the particular airport during a specified time period.

In the U.S., the FAA currently regulates the allocation of slots, slot exemptions, operating authorizations, or similar capacity allocation mechanisms at Reagan National in Washington, D.C., LaGuardia and JFK in New York, and Newark. The Company’s operations at these airports generally require the allocation of slots or analogous regulatory authorities. Similarly, the Company’s operations at Tokyo’s Narita Airport, London’s Heathrow Airport and other international airports are regulated by local slot coordinators pursuant to the International Air Transport Association’s Worldwide Scheduling Guidelines and applicable local law. The Company currently has sufficient slots or analogous authorizations to operate its existing flights, and it has generally been able to obtain the rights to expand its operations and to change its schedules. There is no assurance, however, that the Company will be able to do so in the future because, among other reasons, such allocations are subject to changes in governmental policies.

In 2006, the Wright Amendment Reform Act of 2006 (the Act) became law. The Act is based on an agreement by the cities of Dallas and Fort Worth, Texas, DFW International Airport, Southwest, and the Company to modify the Wright Amendment, which authorizes certain flight operations at Dallas Love Field within defined geographic areas. Among other things, the Act eventually eliminates domestic geographic restrictions on operations while limiting the maximum number of gates at Love Field. The Company believes the Act is a pragmatic resolution of the issues related to the Wright Amendment and the use of Love Field.

*Environmental Matters* The Company is subject to various laws and government regulations concerning environmental matters and employee safety and health in the U.S. and other countries. U.S. federal laws that have a particular impact on the Company include the Airport Noise and Capacity Act of 1990 (ANCA), the Clean Air Act, the Resource Conservation and Recovery Act, the Clean Water Act, the Safe Drinking Water Act, and the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA or the Superfund Act). Certain operations of the Company concerning employee safety and health matters are also subject to the oversight of the Occupational Safety and Health Administration (OSHA). The U.S. Environmental Protection Agency (EPA), OSHA, and other federal agencies have been authorized to promulgate regulations that have an impact on the Company’s operations. In addition to these federal activities, various states have been delegated certain authorities under the aforementioned federal statutes. Many state and local governments have adopted environmental and employee safety and health laws and regulations, some of which are similar to or stricter than federal requirements.

The ANCA recognizes the rights of airport operators with noise problems to implement local noise abatement programs so long as they do not interfere unreasonably with interstate or foreign commerce or the national air transportation system. Authorities in several cities have promulgated aircraft noise reduction programs, including the imposition of nighttime curfews. The ANCA generally requires FAA approval of local noise restrictions on aircraft. While the Company has had sufficient scheduling flexibility to accommodate local noise restrictions imposed to date, the Company’s operations could be adversely affected if locally-imposed regulations become more restrictive or widespread.

Many aspects of the Company’s operations are subject to increasingly stringent environmental regulations. Concerns about climate change and greenhouse gas emissions, in particular, may result in the imposition of additional legislation or regulation. For example, the EU recently approved measures that impose emissions limits on airlines with operations to, from or within the EU as part of an emissions trading system beginning in 2012. The Company is continuing to assess the potential costs of the EU measures. Such legislative or regulatory action by the U.S., state or foreign governments currently or in the future may adversely affect the Company’s business and financial results. See Item 1A, Risk Factors, for additional information.

The environmental laws to which the Company is subject include those related to responsibility for potential soil and groundwater contamination. The Company is conducting investigation and remediation activities to address soil and groundwater conditions at several sites, including airports and maintenance bases. The Company

anticipates that the ongoing costs of such activities will be immaterial. The Company has also been named as a potentially responsible party (PRP) at certain Superfund sites. The Company's alleged volumetric contributions at such sites are small in comparison to total contributions of all PRPs and the Company expects that any future payments of its share of costs at such sites will be immaterial.

### **Labor**

The airline business is labor intensive. Wages, salaries and benefits represented approximately 28 percent of the Company's consolidated operating expenses for the year ended December 31, 2010. The average full-time equivalent number of employees of the Company's subsidiaries for the year ended December 31, 2010 was 65,525.

The majority of these employees are represented by labor unions and covered by collective bargaining agreements. Relations with such labor organizations are governed by the Railway Labor Act (RLA). Under this act, the collective bargaining agreements among the Company's subsidiaries and these organizations generally do not expire but instead become amendable as of a stated date. If either party wishes to modify the terms of any such agreement, it must notify the other party in the manner prescribed under the RLA and as agreed to by the parties. Under the RLA, after receipt of such notice, the parties must meet for direct negotiations, and if no agreement is reached, either party may request the NMB to appoint a federal mediator. The RLA prescribes no set timetable for the direct negotiation and mediation process. It is not unusual for those processes to last for many months, and even for several years. If no agreement is reached in mediation, the NMB in its discretion may declare at some time that an impasse exists, and if an impasse is declared, the NMB proffers binding arbitration to the parties. Either party may decline to submit to arbitration. If arbitration is rejected by either party, a 30-day "cooling off" period commences. During that period (or after), a Presidential Emergency Board (PEB) may be established, which examines the parties' positions and recommends a solution. The PEB process lasts for 30 days and is followed by another "cooling off" period of 30 days. At the end of a "cooling off" period, unless an agreement is reached or action is taken by Congress, the labor organization may exercise "self-help," such as a strike, and the airline may resort to its own "self-help," including the imposition of any or all of its proposed amendments and the hiring of new employees to replace any striking workers.

In April 2003, American reached agreements (the Labor Agreements) with its three major unions: the Allied Pilots Association (the APA) which represents American's pilots, the Transport Workers Union of America (AFL-CIO) (the TWU), which represents seven different employee groups, and the Association of Professional Flight Attendants (the APFA), which represents American's flight attendants. The Labor Agreements substantially moderated the labor costs associated with the employees represented by the unions. In conjunction with the Labor Agreements, American also implemented various changes in the pay plans and benefits for non-unionized personnel, including officers and other management (the Management Reductions). The Labor Agreements became amendable in 2008 (although the parties agreed that they could begin the negotiations process as early as 2006).

In 2006, American and the APA commenced negotiations under the RLA. In April of 2008, following a request by the APA, a mediator was appointed by the NMB. The parties have been in mediated negotiations since that time. The APA has filed a number of grievances, lawsuits and complaints, most of which American believes are part of a corporate campaign related to the union's labor agreement negotiations with American. While American is vigorously defending these claims, and has achieved favorable outcomes in many of them, a number still are ongoing and unfavorable outcomes of one or more of them could require American to incur additional costs, change the way it conducts some parts of its business, or otherwise adversely affect the Company.

Also in 2006, American and the TWU commenced negotiations with respect only to dispatchers, one of the seven groups at American represented by the TWU. Subsequently, following a request by the parties, a mediator was appointed by the NMB for the dispatcher negotiations. Thereafter, in November 2007, American and the TWU commenced negotiations under the RLA with respect to the other employee groups represented by the TWU. Direct negotiations between American and the TWU employees with respect to those other groups continued until December 2008, at which time the parties jointly filed with the NMB for mediation with respect to the fleet service, stores, ground school instructors, and simulator technician groups of employees. The NMB appointed a mediator soon thereafter. Then in February 2009, following a request by the TWU, a mediator was appointed by the NMB

with respect to the mechanics and the technical specialists. The Company negotiated tentative agreements with several workgroups within the TWU, including the Maintenance Control Technician group, the Material Logistics Specialists group and the Mechanic and Related group. Agreements with the TWU groups are subject to ratification by the relevant membership of TWU, and while the Maintenance Control Technician group ratified their agreement, the Material Logistics Specialists group and the Mechanic and Related group tentative agreements were not ratified. Mediated negotiations with the TWU with respect to those groups continue.

American and the APFA commenced negotiations in the first half of 2008. Direct negotiations between the parties continued until December 2008, at which time the parties jointly filed an application to the NMB asking that a mediator be appointed. The NMB appointed a mediator soon thereafter. Since that time, the parties have been conducting mediated negotiations as scheduled by the NMB.

#### **Fuel**

The Company's operations and financial results are significantly affected by the availability and price of jet fuel. The Company's fuel costs and consumption for the years 2008 through 2010 were:

<u>Year</u>	<u>Gallons Consumed (In millions)</u>	<u>Total Cost (In millions)</u>	<u>Average Cost per Gallon (In dollars)</u>	<u>Percent of American's Operating Expenses</u>
2008	2,694	\$8,154	\$3.026	31.7
2009	2,499	5,015	2.007	23.8
2010	2,481	5,731	2.310	26.1

The impact of fuel price changes on the Company and its competitors depends on various factors, including hedging strategies. The Company has a fuel hedging program in which it enters into jet fuel and heating oil hedging contracts to dampen the impact of the volatility of jet fuel prices. The Company does not take a view on the direction of fuel prices; instead, the Company layers in fuel hedges on a systematic basis. As a result, the impact on the Company from its fuel hedging program can be very different from the impact of fuel hedging on the Company's competitors who follow a different hedging philosophy. Depending on movements in the price of fuel, the Company's fuel hedging program can result in gains or losses on its fuel hedges.

During 2010, 2009 and 2008, the Company's fuel hedging program increased (decreased) the Company's fuel expense by approximately \$124 million, \$591 million and (\$344) million, respectively. As of January 2011, the Company had cash flow hedges, with option contracts, primarily heating oil collars and call options, covering approximately 35 percent of its estimated 2011 fuel requirements. The consumption hedged for 2011 by cash flow hedges is capped at an average price of approximately \$2.52 per gallon of jet fuel, and the Company's collars have an average floor price of approximately \$1.92 per gallon of jet fuel (both the capped and floor price exclude taxes and transportation costs). A deterioration of the Company's financial position could negatively affect the Company's ability to hedge fuel in the future. See the Risk Factors under Item 1A for additional information regarding fuel.

Additional information regarding the Company's fuel program is also included in Item 7(A) "Quantitative and Qualitative Disclosures about Market Risk," Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations" and in Note 7 to the consolidated financial statements.

#### **Frequent Flyer Program**

American established the AAdvantage® frequent flyer program (AAdvantage) to develop passenger loyalty by offering awards to travelers for their continued patronage. The Company believes that the AAdvantage program is one of its competitive strengths. AAdvantage benefits from a growing base of approximately 67 million members with desirable demographics who have demonstrated a strong willingness to collect AAdvantage miles over other loyalty program incentives and are generally disposed to adjusting their purchasing behavior in order to earn additional AAdvantage miles. AAdvantage members earn mileage credits by flying on American, American Eagle, and the AmericanConnection® carrier or by using services of other participants in the AAdvantage program.

Mileage credits can be redeemed for free, discounted or upgraded travel on American, American Eagle or other participating airlines, or for other awards. Once a member accrues sufficient mileage for an award, the member may book award travel. Most travel awards are subject to capacity controlled seating. A member's mileage credit does not expire as long as that member has any type of qualifying activity at least once every 18 months.

American sells mileage credits and related services to other participants in the AAdvantage program. There are over 1,000 program participants, including a leading credit card issuer, hotels, car rental companies and other products and services companies in the AAdvantage program. The Company believes that program participants benefit from the sustained purchasing behavior of AAdvantage members, which translates into a recurring stream of revenues for AAdvantage. Under its agreements with AAdvantage members and program participants, the Company reserves the right to change the AAdvantage program at any time without notice, and may end the program with six months notice. As of December 31, 2010, AAdvantage had approximately 67 million total members, and 587 billion outstanding award miles. During 2010, AAdvantage issued approximately 185 billion miles, of which approximately 62% were sold to program participants.

#### **Cargo**

American Airlines Cargo, a division of American, provides over 90 million pounds of weekly cargo lift capacity to major cities in the United States, Europe, Canada, Mexico, the Caribbean, Latin America and Asia. American's cargo network is one of the largest air cargo networks in the world, with facilities and interline connections available across the globe. During 2010, American Airlines Cargo accounted for approximately 3.0% of the Company's operating revenues by generating \$672 million in freight and mail revenue, an increase of 16.3% versus 2009.

#### **Other revenues**

Other revenues, which approximate 10.8% of total revenues, includes revenue from the marketing services related to the sale of mileage credits in the AAdvantage program as discussed above, membership fees and related revenue from the Company's Admirals Club operations, and other miscellaneous service revenue, including administrative service charges and baggage handling fees. Other revenues have been increasing as the Company unbundles its services and charges for ancillary services.

#### **Other Matters**

*Seasonality and Other Factors* The Company's results of operations for any interim period are not necessarily indicative of those for the entire year since the air transportation business is subject to seasonal fluctuations. Higher demand for air travel has traditionally resulted in more favorable operating and financial results for the second and third quarters of the year than for the first and fourth quarters. Fears of terrorism or war, fare initiatives, fluctuations in fuel prices, labor actions, weather, natural disasters, outbreaks of disease, and other factors could impact this seasonal pattern. Unaudited quarterly financial data for the two-year period ended December 31, 2010 is included in Note 15 to the consolidated financial statements. In addition, the results of operations in the air transportation business have also significantly fluctuated in the past in response to general economic conditions.

*Insurance* The Company carries insurance for public liability, passenger liability, property damage and all-risk coverage for damage to its aircraft. As a result of the terrorist attacks of September 11, 2001 (the Terrorist Attacks), aviation insurers significantly reduced the amount of insurance coverage available to commercial air carriers for liability to persons other than employees or passengers for claims resulting from acts of terrorism, war or similar events (war-risk coverage). At the same time, these insurers significantly increased the premiums for aviation insurance in general. While the price of commercial insurance has declined since the period immediately after the Terrorist Attacks, in the event commercial insurance carriers further reduce the amount of insurance coverage available to the Company, or significantly increase its cost, the Company would be adversely affected.

The U.S. government has agreed to provide commercial war-risk insurance for U.S. based airlines through September 30, 2011, covering losses to employees, passengers, third parties and aircraft. If the U.S. government were to cease providing such insurance in whole or in part, it is likely that the Company could obtain comparable

coverage in the commercial market, but the Company would incur substantially higher premiums and more restrictive terms. There can be no assurance that comparable war-risk coverage will be available in the commercial market. If the Company is unable to obtain adequate war-risk coverage at commercially reasonable rates, the Company would be adversely affected.

*Other Government Matters* In time of war or during a national emergency or defense oriented situation, American and other air carriers can be required to provide airlift services to the Air Mobility Command under the Civil Reserve Air Fleet program. In the event the Company has to provide a substantial number of aircraft and crew to the Air Mobility Command, its operations could be adversely impacted.

*Available Information* The Company makes its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 available free of charge under the Investor Relations page on its website, [www.aa.com](http://www.aa.com), as soon as reasonably practicable after such reports are electronically filed with the Securities and Exchange Commission. In addition, the Company's code of ethics (called the Standards of Business Conduct), which applies to all employees of the Company, including the Company's Chief Executive Officer (CEO), Chief Financial Officer (CFO) and Controller, is posted under the Investor Relations page on its website, [www.aa.com](http://www.aa.com). The Company intends to disclose any amendments to the code of ethics, or waivers of the code of ethics on behalf of the CEO, CFO or Controller, under the Investor Relations page on the Company's website, [www.aa.com](http://www.aa.com). The charters for the AMR Board of Directors' standing committees (the Audit, Compensation, Diversity and Nominating/Corporate Governance Committees), as well as the Board of Directors' Governance Policies (the Governance Policies), are likewise available on the Company's website, [www.aa.com](http://www.aa.com). Information on the Company's website is not incorporated into or otherwise made a part of this Report.

#### **ITEM 1A. RISK FACTORS**

Our ability to become profitable and our ability to continue to fund our obligations on an ongoing basis will depend on a number of risk factors, many of which are largely beyond our control.

***As a result of significant losses in recent years, our financial condition has been materially weakened.***

We incurred significant losses in recent years, which has materially weakened our financial condition. We lost \$892 million in 2005, \$821 million in 2004, \$1.3 billion in 2003, \$3.5 billion in 2002 and \$1.6 billion in 2001. Although we earned a profit of \$356 million in 2007 and \$164 million in 2006, we lost \$2.5 billion in 2008 (which included a \$1.0 billion impairment charge), and, primarily as a result of very weak demand for air travel driven by the severe downturn in the global economy, we lost \$1.5 billion in 2009 and \$469 million in 2010. Because of our weakened financial condition, we are vulnerable both to the impact of unexpected events (such as terrorist attacks) and to deterioration of the operating environment (such as a significant increase in jet fuel prices or significant increased competition).

***The severe global economic downturn resulted in very weak demand for air travel and lower investment asset returns, which has had and could continue to have a significant negative impact on us.***

Although demand for air travel has improved as the global economy continues to recover from the recent severe downturn, demand continues to be weak by historical standards. We began to experience weakening demand late in 2008, and this weakness continued into 2010. We reduced capacity in 2008, and in the first half of 2009 we announced additional reductions to our capacity plan. In connection with these capacity reductions, the Company incurred special charges related to aircraft, employee reductions and certain other charges. Demand for air travel may weaken if the global economy does not continue to recover. No assurance can be given that capacity adjustments or other steps we may take in response to changes in demand will be successful. Capacity reductions or other steps might result in additional special charges in the future. Further, other carriers may make capacity adjustments which may reduce the expected benefits of any steps we may take to respond to changes in demand. Industry-wide capacity may increase to the extent the economy continues to recover from the global recession. If industry capacity increases, and if consumer demand does not continue to pace those increases, we, and the airline industry as a whole, could be negatively impacted.

The economic downturn has resulted in broadly lower investment asset returns and values. Our pension assets suffered a material decrease in value in 2008 related to broader stock market declines, which resulted in higher pension expense in 2009 and 2010 and will result in higher pension expense and higher required contributions in future years. In addition, under certain circumstances, we may be required to maintain cash reserves under our credit card processing agreements and to post cash collateral on fuel hedging contracts. These issues individually or collectively may have a material adverse impact on our liquidity. Also, disruptions in the capital markets and other sources of funding may make it impossible for us to obtain necessary additional funding or make the cost of that funding prohibitive.

***We face numerous challenges as we seek to maintain sufficient liquidity, and we will need to raise substantial additional funds. We may not be able to raise those funds, or to do so on acceptable terms.***

In the next several years, we have significant debt, lease and other obligations, including significant pension funding obligations. We also expect to make substantial capital expenditures during that time. For example, in 2011, we will be required to make approximately \$2.1 billion of principal payments on long-term debt and capital leases, and we expect to spend approximately \$1.4 billion on capital expenditures, including aircraft commitments. In addition, in 2011, we are required to contribute approximately \$520 million to our pension plans. Moreover, the global economic downturn, rising fuel prices, the potential obligation to post reserves under credit card processing agreements and the potential obligation to post cash collateral on fuel hedging contracts, among other things, have negatively impacted, and may in the future negatively impact, our liquidity. To meet our commitments and to maintain sufficient liquidity as we continue to implement our revenue enhancement and cost reduction initiatives, we will need continued access to substantial additional funding. Moreover, while we have arranged financings that, subject to certain terms and conditions (including, in the case of financing arrangements covering a significant number of aircraft, a condition that, at the time of borrowing, we have a certain amount of unrestricted cash and short term investments), cover all of our aircraft delivery commitments through 2011, we will continue to need to raise substantial additional funds to meet our commitments.

Our ability to obtain future financing is limited by the value of our unencumbered assets. Almost all of our aircraft assets (including aircraft eligible for the benefits of Section 1110) are encumbered as a result of financing activity in recent years. This financing activity has significantly reduced the quantity of our assets which could be used as collateral in future financing. Also, the market value of our aircraft assets has declined in recent years, and may continue to decline. In addition, many of the other financing sources traditionally available to us may be difficult to access, and no assurance can be given as to the amount of financing available to us.

Since the terrorist attacks of September 11, 2001 (the "Terrorist Attacks"), our credit ratings have been lowered to significantly below investment grade. These reductions have increased our borrowing costs and otherwise adversely affected borrowing terms, and limited borrowing options. Additional reductions in our credit ratings might have other effects on us, such as further increasing borrowing or other costs or further restricting our ability to raise funds.

A number of other factors, including our financial results in recent years, our substantial indebtedness, the difficult revenue environment we face, our reduced credit ratings, recent historically high fuel prices, and the financial difficulties experienced in the airline industry, adversely affect the availability and terms of funding for us. In addition, the global economic downturn resulted in greater volatility, less liquidity, widening of credit spreads, and substantially more limited availability of funding. As a result of these and other factors, although we believe we have or can access sufficient liquidity to fund our operations and obligations, there can be no assurances to that effect. An inability to obtain necessary additional funding on acceptable terms would have a material adverse impact on us and on our ability to sustain our operations.

***We could be required to maintain reserves under our credit card processing agreements, which could materially adversely impact our liquidity.***

American has agreements with a number of credit card companies and processors to accept credit cards for the sale of air travel and other services. Under certain of these agreements, the related credit card processor may hold

back a reserve from American's credit card receivables following the occurrence of certain events, including the failure of American to maintain certain levels of liquidity (as specified in each agreement).

Under such agreements, the amount of the reserve that may be required generally is based on the credit card processor's exposure to the Company under the applicable agreement and, in the case of a reserve required because of American's failure to maintain a certain level of liquidity, the amount of such liquidity. As of December 31, 2010, the Company was not required to maintain any reserve under such agreements. If circumstances were to occur that would allow the credit card processor to require the Company to maintain a reserve, the Company's liquidity would be negatively impacted.

***Our initiatives to generate additional revenues and to reduce our costs may not be adequate or successful.***

As we seek to improve our financial condition, we must continue to take steps to generate additional revenues and to reduce our costs. Although we have a number of initiatives underway to address our cost and revenue challenges, some of these initiatives involve changes to our business which we may be unable to implement. In addition, it has become increasingly difficult to identify and implement significant revenue enhancement and cost savings initiatives. The adequacy and ultimate success of our initiatives to generate additional revenues and reduce our costs cannot be assured. Moreover, whether our initiatives will be adequate or successful depends in large measure on factors beyond our control, notably the overall industry environment, including passenger demand, yield and industry capacity growth, and fuel prices. It will be very difficult for us to continue to fund our obligations on an ongoing basis, and to return to profitability, if the overall industry revenue environment does not continue to improve or if fuel prices were to increase and persist for an extended period at high levels.

***We may be adversely affected by increases in fuel prices, and we would be adversely affected by disruptions in the supply of fuel.***

Our results are very significantly affected by the cost, price volatility and the availability of jet fuel, which are in turn affected by a number of factors beyond our control. Due to the competitive nature of the airline industry, we may not be able to pass on increased fuel prices to customers by increasing fares. Although we had some success in raising fares and imposing fuel surcharges in reaction to high fuel prices, these fare increases and surcharges did not keep pace with the extraordinary increases in the price of fuel that occurred in 2007 and 2008. Although fuel prices have abated considerably from the record high prices recorded in July 2008, they have steadily increased since the first quarter of 2009 and remain high and extremely volatile by historical standards. Furthermore, reduced demand or increased fare competition, or both, and resulting lower revenues may offset any potential benefit of any reductions in fuel prices.

While we do not currently anticipate a significant reduction in fuel availability, dependence on foreign imports of crude oil, limited refining capacity and the possibility of changes in government policy on jet fuel production, transportation and marketing make it impossible to predict the future availability of jet fuel. If there are additional outbreaks of hostilities or other conflicts in oil producing areas or elsewhere, or a reduction in refining capacity (due to natural disasters or weather events, for example), or governmental limits on the production or sale of jet fuel (including as a consequence of increased environmental regulation), there could be a reduction in the supply of jet fuel and significant increases in the cost of jet fuel. Major reductions in the availability of jet fuel or significant increases in its cost would have a material adverse impact on us.

We have a large number of older aircraft in our fleet, and these aircraft are not as fuel efficient as more recent models of aircraft. We believe it is imperative that we continue to execute our fleet renewal plans. However, there will be significant delays in the deliveries of the Boeing 787-9 aircraft we currently have on order.

Our aviation fuel purchase contracts generally do not provide meaningful price protection. While we seek to manage the risk of fuel price increases by using derivative contracts, there can be no assurance that, at any given time, we will have derivatives in place to provide any particular level of protection against increased fuel costs. In addition, a deterioration of our financial position could negatively affect our ability to enter into derivative contracts in the future. Moreover, declines in fuel prices below the levels established in derivative contracts may require us to post material amounts of cash collateral to secure the loss positions on such contracts, and if such contracts close

when fuel prices are below the applicable levels, we would be required to make payments to close such contracts; these payments would be treated as additional fuel expense.

***We could be materially adversely affected if we are unable to resolve favorably our pending litigation with certain Global Distribution Systems (GDSs) and business discussions with certain on-line travel agents.***

We are currently involved in litigation with certain GDSs and in business discussions with certain on-line travel agents. An adverse outcome in any of these matters could have a material adverse effect on our level of bookings, business and results of operations. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations” — GDS Discussion.” In addition, our contracts with the GDSs operated by Sabre, Travelport and Amadeus expire in 2011. We could be adversely affected if we are unable to renegotiate contract renewals on acceptable terms.

***Our indebtedness and other obligations are substantial and could adversely affect our business and liquidity.***

We have and will continue to have significant amounts of indebtedness, obligations to make future payments on aircraft equipment and property leases, and obligations under aircraft purchase agreements, as well as a high proportion of debt to equity capital. We expect to incur substantial additional debt (including secured debt) and lease obligations in the future. We also have substantial pension funding obligations. Our substantial indebtedness and other obligations have important consequences. For example, they:

- limit our ability to obtain additional funding for working capital, capital expenditures, acquisitions, investments and general corporate purposes, and adversely affect the terms on which such funding can be obtained;
- require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness and other obligations, thereby reducing the funds available for other purposes;
- make us more vulnerable to economic downturns and catastrophic external events; and
- limit our ability to withstand competitive pressures and reduce our flexibility in responding to changing business and economic conditions.

***Our business is affected by many changing economic and other conditions beyond our control, and our results of operations tend to be volatile and fluctuate due to seasonality.***

Our business and our results of operations are affected by many changing economic and other conditions beyond our control, including, among others:

- actual or potential changes in international, national, regional and local economic, business and financial conditions, including recession, inflation, higher interest rates, wars, terrorist attacks or political instability;
- changes in consumer preferences, perceptions, spending patterns or demographic trends;
- changes in the competitive environment due to industry consolidation, changes in airline alliance affiliations and other factors;
- actual or potential disruptions to the air traffic control systems;
- increases in costs of safety, security and environmental measures;
- outbreaks of diseases that affect travel behavior; and
- weather and natural disasters.

As a result, our results of operations tend to be volatile and subject to rapid and unexpected change. In addition, due to generally greater demand for air travel during the summer, our revenues in the second and third quarters of the year tend to be stronger than revenues in the first and fourth quarters of the year.

***The airline industry is fiercely competitive and may undergo further consolidation or changes in industry alliances, and we are subject to increasing competition.***

Service over almost all of our routes is highly competitive and fares remain at low levels by historical standards. We face vigorous, and, in some cases, increasing, competition from major domestic airlines, national, regional, all-cargo and charter carriers, foreign air carriers, low-cost carriers and, particularly on shorter segments, ground and rail transportation. We also face increasing and significant competition from marketing/operational alliances formed by our competitors. Competition with foreign air carriers and with such marketing/operational alliances has been increasing in recent years in part due to the adoption of liberalized open skies aviation agreements between the United States and an increasing number of countries around the world. Moreover, the percentage of routes on which we compete with carriers having substantially lower operating costs than ours has grown significantly over time, and we now compete with low-cost carriers over a very large part of our network. Our ability to compete effectively depends in part on our ability to maintain a competitive cost structure. If we cannot do so, then our business, financial condition and operating results would be adversely affected.

Certain airline alliances have been, or may in the future be, granted immunity from antitrust regulations by governmental authorities for specific areas of cooperation, such as joint pricing decisions. To the extent alliances formed by the Company's competitors can undertake activities that are not available to the Company, the Company's ability to effectively compete may be hindered.

Pricing decisions are significantly affected by competition from other airlines. Fare discounting by competitors historically has had a negative effect on our financial results because we must generally match competitors' fares, since failing to match would result in even less revenue. We have faced increased competition from carriers with simplified fare structures, which are generally preferred by travelers. Any fare reduction or fare simplification initiative may not be offset by increases in passenger traffic, reduction in cost or changes in the mix of traffic that would improve yields. Moreover, decisions by our competitors that increase or reduce overall industry capacity, or capacity dedicated to a particular domestic or foreign region, market or route, can have a material impact on related fare levels.

There have been numerous mergers and acquisitions within the airline industry and numerous changes in industry alliances. Southwest Airlines and AirTran Airways announced during 2010 plans to merge, and the recent mergers of United Air Lines, Inc. with Continental Airlines, Inc. and Delta Airlines with Northwest Airlines Corporation have resulted in the formation of larger competitors than the Company with more extensive networks than the Company. We are seeking to address these competitive challenges with our cornerstone market and alliance strategies; however, there can be no assurances as to the level of success of these strategies.

In the future, there may be additional mergers and acquisitions, and changes in airline alliances, including those in which the Company may participate and those that may be undertaken by others. Any airline industry consolidation or changes in airline alliances, including oneworld, could substantially alter the competitive landscape and result in changes in our corporate or business strategy. We regularly assess and explore the potential for consolidation in our industry and changes in airline alliances, our strategic position and ways to enhance our competitiveness, including the possibilities for our participation in merger activity. Consolidation involving other participants in our industry could result in the formation of one or more airlines with greater financial resources, more extensive networks, and/or lower cost structures than exist currently, which could have a material adverse effect on our competitive position and adversely affect our business and results of operations. For similar reasons, changes in airline alliances could have a similar impact on us.

In 2008, we entered into a joint business agreement and related marketing arrangements with British Airways and Iberia, providing for commercial cooperation on flights between North America and most countries in Europe, pooling and sharing of certain revenues and costs, expanded codesharing, enhanced frequent flyer program reciprocity, and cooperation in other areas. In July 2010, American obtained clearance from the European Commission ("EC") and approval by the Department of Transportation ("DOT") for antitrust immunity ("ATI") for its planned cooperation with British Airways, Iberia, Finnair and Royal Jordanian. Regulatory conditions for ATI approval for the British Airways, Iberia, Finnair and Royal Jordanian cooperative agreement include a collective obligation of the Company, British Airways and Iberia to lease to other carriers up to seven takeoff and landing slot pairs at London Heathrow airport and up to three John F. Kennedy airport operational authorities,

depending on market conditions. American began implementation of the JBA with British Airways and Iberia and expanded cooperation with Finnair and Royal Jordanian in October 2010. No assurances can be given as to any arrangements that may ultimately be implemented or any benefits that we may derive from such arrangements.

In February 2010, American and JAL announced the decision to strengthen their relationship. The carriers, both members of the oneworld alliance, jointly applied to DOT for ATI on certain routes, and jointly notified the Ministry of Land Infrastructure, Transport and Tourism of Japan of the proposed cooperation. As a part of the application, American and JAL entered into a joint business agreement which will enhance their scope of cooperation on routes between North America and Asia through adjustments to their respective networks, flight schedules, and other business activities. This, in turn, will allow both carriers to better complement each other's operations and to develop and offer competitive products and quality service to their customers. In November 2010, American obtained approval by DOT for ATI for its planned cooperation with JAL. Implementation of the JBA with JAL is subject to successful negotiation of certain detailed financial and commercial arrangements and other approvals. American expects to begin implementing the JBA with JAL in 2011. No assurances can be given as to any arrangements that may ultimately be implemented or any benefits that we may derive from such arrangements.

Any plans to enter into or expand ATI joint business agreements or similar arrangements, including implementation of the joint business agreements referred to above, are subject to various conditions, including various U.S. and foreign regulatory approvals, successful negotiation of certain detailed financial and commercial arrangements, and other approvals. Governmental entities from which such approvals must be obtained, including DOT and foreign governmental authorities or entities such as the EU, have imposed or may impose requirements or limitations as a condition of granting any such approvals, such as requiring divestiture of routes, gates, slots or other assets. No assurances can be given as to any arrangements that may ultimately be implemented or any benefits we may derive from such arrangements.

***We compete with reorganized carriers, which results in competitive disadvantages for us.***

We must compete with air carriers that have reorganized under the protection of Chapter 11 of the Bankruptcy Code in recent years, including United, Delta and U.S. Airways. It is possible that other significant competitors may seek to reorganize in or out of Chapter 11.

Successful reorganizations by other carriers present us with competitors with significantly lower operating costs and stronger financial positions derived from renegotiated labor, supply, and financing contracts. These competitive pressures may limit our ability to adequately price our services, may require us to further reduce our operating costs, and could have a material adverse impact on us.

***Fares are at low levels and our reduced pricing power adversely affects our ability to achieve adequate pricing, especially with respect to business travel.***

Our passenger yield (on an inflation-adjusted basis) remains low by historical standards. We believe that this is due in large part to a corresponding decline in our pricing power. Our reduced pricing power is the product of several factors including: greater cost sensitivity on the part of travelers (particularly business travelers); pricing transparency resulting from the use of the internet; greater competition from low-cost carriers and from carriers that have reorganized in recent years under the protection of Chapter 11; other carriers being better hedged against rising fuel costs and able to better absorb high jet fuel prices; fare simplification efforts by certain carriers; and the economy. We believe that this pricing environment could persist indefinitely.

***Our corporate or business strategy may change.***

In light of the rapid changes in the airline industry, we evaluate our assets on an ongoing basis with a view to maximizing their value to us and determining which are core to our operations. We also regularly evaluate our corporate and business strategies, and they are influenced by factors beyond our control, including changes in the competitive landscape we face. Our corporate and business strategies are, therefore, subject to change.

AMR is considering, and may engage in discussions with third parties regarding, the divestiture of AMR Eagle and other separation transactions, and may decide to proceed with one or more such transactions. There can be no

assurance that AMR will complete any separation transactions or that any announced plans or transactions will be consummated, and no prediction can be made as to the impact of any such transactions on stockholder value or on us. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations” — Recent Events.”

***Our business is subject to extensive government regulation, which can result in increases in our costs, disruptions to our operations, limits on our operating flexibility, reductions in the demand for air travel, and competitive disadvantages. In particular, recently enacted and possible future environmental regulations may adversely affect our business and financial results.***

Airlines are subject to extensive domestic and international regulatory requirements. Many of these requirements result in significant costs. For example, the FAA from time to time issues directives and other regulations relating to the maintenance and operation of aircraft. In addition, the FAA has recently proposed regulations that would affect crewmember hiring and crewmember rest and duty requirements. It is unknown at this time whether, and in what form, these regulations may be promulgated. However, if these regulations were promulgated in their current form, we believe they could have a material adverse impact on the Company. In addition, as a result of heightened levels of concern regarding data privacy, the Company is subject to an increasing number of domestic and foreign laws regarding the privacy and security of passenger and employee data.

Compliance with regulatory requirements drives significant expenditures and has in the past, and may in the future, cause disruptions to our operations. In addition, the ability of U.S. carriers to operate international routes is subject to change because the applicable arrangements between the U.S. and foreign governments may be amended from time to time (such as through the adoption of an open skies policy), or because appropriate slots or facilities are not made available. Any such change could adversely impact the value of our international route authorities and related assets.

Moreover, additional laws, regulations, taxes and airport rates and charges have been enacted from time to time that have significantly increased the costs of airline operations, reduced the demand for air travel or restricted the way we can conduct our business. For example, the ATSA, which became law in 2001, mandated the federalization of certain airport security procedures and resulted in the imposition of additional security requirements on airlines.

The results of our operations, demand for air travel, and the manner in which we conduct our business each may be affected by changes in law and future actions taken by governmental agencies, including:

- changes in law which affect the services that can be offered by airlines in particular markets and at particular airports or the types of fees that can be charged to passengers;
- the granting and timing of certain governmental approvals (including foreign government approvals) needed for codesharing alliances and other arrangements with other airlines;
- restrictions on competitive practices (for example court orders, or agency regulations or orders, that would curtail an airline’s ability to respond to a competitor);
- the adoption of new passenger security standards or regulations that impact customer service standards (for example, “passenger bill of rights”);
- restrictions on airport operations, such as restrictions on the use of takeoff and landing slots at airports or the auction or reallocation of slot rights currently or previously held by us; or
- the adoption of more restrictive locally imposed noise restrictions.

In addition, the U.S. air traffic control (ATC) system, which is operated by the FAA, is not successfully managing the growing demand for U.S. air travel. U.S. airlines carry about 750 million passengers a year and are forecast to accommodate a billion passengers annually by 2021. Air traffic controllers rely on outdated technologies that routinely overwhelm the system and compel airlines to fly inefficient, indirect routes. We support a common sense approach to ATC modernization that would allocate costs to all ATC system users in proportion to the services they consume. Reauthorization of legislation that funds the FAA, which includes proposals regarding upgrades to

the ATC system, is under consideration in Congress. It is uncertain whether such legislation will become law. In the meantime, FAA funding continues under temporary periodic extensions.

Many aspects of our operations are subject to increasingly stringent environmental regulations. Concerns about climate change and greenhouse gas emissions, in particular, may result in the imposition of additional legislation or regulation. The EU has adopted a directive under which each EU member state is required to extend the existing EU emissions trading scheme (ETS) to aviation. This will require the Company to annually submit emission allowances in order to operate flights to and from EU member states in January 2012 and thereafter, including flights between the U.S. and EU member states. In December 2009, the ATA, joined by American, Continental and United, filed a legal action in the United Kingdom challenging the implementation of the EU ETS as applied to aviation. We believe that non-EU governments are also likely to consider formal challenges to the EU ETS as applied to aviation. It is not clear whether the EU ETS will withstand such challenges. However, unless interim relief is granted, we will be required to continue to comply with the EU ETS during the pendency of the legal challenges. Although the cost of compliance with the EU ETS is difficult to predict given the uncertainty of a number of variables, such as the number and price of emission allowances we may be required to purchase, such costs could be significant.

Other legislative or regulatory actions addressing climate change and emissions from aviation that may be taken in the future by the U.S., state or foreign governments or through international treaties may adversely affect our business and financial results. The United Nations' International Civil Aviation Organization ("ICAO"), for example, recently adopted a resolution identifying certain fuel efficiency goals and emission trading system principles for international aviation, which may provide a basis for such future legislative or regulatory action. Climate change legislation was previously introduced in the U.S. Congress; such legislation could be re-introduced in the future by the U.S. Congress and state legislatures, and could contain provisions affecting the aviation industry. In addition, the EPA could seek to regulate greenhouse gas emissions from aircraft. It is currently unknown how climate change legislation or regulation, if enacted, would specifically apply to the aviation industry. However, the impact on us of any climate change legislation or regulation is likely to be adverse and related costs of compliance could be significant. Such legislation or regulation could result in, among other things, increased fuel costs, carbon taxes or fees, the imposition of requirements to purchase emission offsets or credits, increased aircraft and equipment costs, and restrictions on the growth of airline operations. We continue to evaluate ongoing climate change developments at the international, federal and state levels and assess the potential associated impacts on our business and operations.

***We could be adversely affected by conflicts overseas or terrorist attacks.***

Actual or threatened U.S. military involvement in overseas operations has, on occasion, had an adverse impact on our business, financial position (including access to capital markets) and results of operations, and on the airline industry in general. The continuing conflicts in Iraq and Afghanistan, or other conflicts or events in the Middle East or elsewhere, may result in similar adverse impacts.

The Terrorist Attacks had a material adverse impact on us. The occurrence of another terrorist attack (whether domestic or international and whether against us or another entity) could again have a material adverse impact on us.

***Our international operations are subject to economic and political instability and could be adversely affected by numerous events, circumstances or government actions beyond our control.***

Our current international activities and prospects could be adversely affected by factors such as reversals or delays in the opening of foreign markets, exchange controls, currency and political risks (including changes in exchange rates and currency devaluations), environmental regulation, increases in taxes and fees and changes in international government regulation of our operations, including the inability to obtain or retain needed route authorities and/or slots.

For example, the open skies air services agreement between the U.S. and the EU which took effect in March 2008 provides airlines from the U.S. and EU member states open access to each other's markets, with freedom of pricing and unlimited rights to fly beyond the U.S. and any airport in the EU including London's Heathrow Airport.

The agreement has resulted in American facing increased competition in these markets, including Heathrow. In addition, an open skies air services agreement between the U.S. and Japan that provides airlines from the U.S. and Japan open access to each other's markets took effect in November 2010.

***We could be adversely affected by an outbreak of a disease that affects travel behavior.***

In the second quarter of 2009, there was an outbreak of the H1N1 virus which had an adverse impact throughout our network but primarily on our operations to and from Mexico. In 2003, there was an outbreak of Severe Acute Respiratory Syndrome (SARS), which had an adverse impact primarily on our Asia operations. In addition, in the past there have been concerns about outbreaks or potential outbreaks of other diseases, such as avian flu. Any outbreak of a disease (including an additional outbreak of the H1N1 virus) that affects travel behavior could have a material adverse impact on us. In addition, outbreaks of disease could result in quarantines of our personnel or an inability to access facilities or our aircraft, which could adversely affect our operations.

***Our labor costs are higher than those of our competitors.***

Wages, salaries and benefits constitute a significant percentage of our total operating expenses. In 2010, they constituted approximately 28 percent of our total operating expenses. All of the major hub-and-spoke carriers with whom American competes have achieved significant labor cost savings through or outside of bankruptcy proceedings. We believe American's labor costs are higher than those of its primary competitors, and it is unclear how long this labor cost disadvantage may persist. These higher labor costs may adversely affect our ability to achieve and sustain profitability while competing with other airlines with lower labor costs. Additionally, we cannot predict the outcome of our ongoing negotiations with our unionized work groups. Significant increases in pay and benefits resulting from changes to our collective bargaining agreements could have a material adverse effect on us.

***We could be adversely affected if we are unable to have satisfactory relations with any unionized or other employee work group.***

Our business is labor intensive. To the extent that we are unable to have satisfactory relations with any unionized or other employee work group, our operations and our ability to execute our strategic plans could be adversely affected. In addition, any disruption by an employee work group (e.g., sick-out, slowdown, full or partial strike, or other job action) may materially adversely affect our operations and impair our financial performance.

In April 2003, American reached agreements (the "Labor Agreements") with each of its three major unions, the APA, the TWU and the APFA. The Labor Agreements substantially moderated the labor costs associated with the employees represented by the unions. In conjunction with the Labor Agreements, American also implemented various changes in the pay plans and benefits for non-unionized personnel. The Labor Agreements became amendable in 2008 (although the parties agreed that they could begin the negotiations process as early as 2006). American has been in negotiations with the APA since September 20 2006, the TWU since May 11, 2006 (with respect to Dispatchers), and since November 7, 2007 (with respect to the other six groups at American represented by the TWU), and with the APFA since June 2008 (expedited negotiations) and September 10, 2008 (standard negotiations), to amend their respective Labor Agreements. At this time, all such negotiations are mediated negotiations under the auspices of the National Mediation Board ("NMB"). NMB mediation with the APA began on May 6, 2008, with the TWU (with respect to the Dispatchers) on October 28, 2008, with the other TWU groups on various dates in 2009, and with the APFA on January 22, 2009. These negotiations are governed by the Railway Labor Act ("RLA"), which prescribes no set timetable for the negotiations and mediation process. The negotiations and mediation process in the airline industry typically is slow and sometimes contentious. The RLA prohibits the parties from engaging in self-help prior to the exhaustion of the RLA's bargaining process. That process is not exhausted until the NMB has declared the parties are at a bargaining impasse, one or both parties has declined the NMB's proffer of binding arbitration, and a 30-day cooling off period has expired without the appointment of a Presidential Emergency Board. If we are unable to reach agreement with any of our unionized work groups, and the RLA's bargaining process has been fully exhausted, we may be subject to lawful strikes, work stoppages or other job actions.

In May, 2010, American negotiated tentative agreements with several workgroups within the TWU, including the Maintenance Control Technician group, the Material Logistics Specialists group and the Mechanic and Related group. Agreements with the TWU groups are subject to ratification by the relevant membership of TWU, and, while the Maintenance Control Technician group ratified their agreement, the Material Logistics Specialists group and the Mechanic and Related group tentative agreements were not ratified.

Mediated negotiations with the APA, with the APFA and with the TWU with respect to groups other than the Maintenance Control Technician group continue. In addition, the APA has filed a number of grievances, lawsuits and complaints, most of which American believes are part of a corporate campaign related to the union's labor agreement negotiations with American. While American is vigorously defending these disputes, unfavorable outcomes in one or more of them could require American to incur additional costs, change the way it conducts some parts of its business, or otherwise adversely affect us.

***Increases in insurance costs or reductions in coverage could have an adverse impact on us.***

We carry insurance for public liability, passenger liability, property damage and all-risk coverage for damage to our aircraft. As a result of the Terrorist Attacks, aviation insurers significantly reduced the amount of insurance coverage available to commercial air carriers for liability to persons other than employees or passengers for claims resulting from acts of terrorism, war or similar events (war-risk coverage). At the same time, these insurers significantly increased the premiums for aviation insurance in general. While the price of commercial insurance has declined since the period immediately after the Terrorist Attacks, in the event commercial insurance carriers further reduce the amount of insurance coverage available to us, or significantly increase its cost, we would be adversely affected.

The U.S. government has agreed to provide commercial war-risk insurance for U.S. based airlines through September 30, 2011, covering losses to employees, passengers, third parties and aircraft. If the U.S. government were to cease providing such insurance in whole or in part, it is likely that we could obtain comparable coverage in the commercial market, but we could incur substantially higher premiums and more restrictive terms, if such coverage is available at all. If we are unable to obtain adequate war-risk coverage at commercially reasonable rates, we would be adversely affected.

***We may be unable to retain key management personnel.***

We are dependent on the experience and industry knowledge of our key management employees, and there can be no assurance that we will be able to retain them. Any inability to retain our key management employees, or attract and retain additional qualified management employees, could have a negative impact on us.

***We are increasingly dependent on technology and could be adversely affected by a failure or disruption of our computer, communications or other technology systems.***

We are heavily and increasingly dependent on technology to operate our business, reduce our costs and enhance customer service. The computer and communications systems on which we rely could be disrupted due to various events, some of which are beyond our control, including natural disasters, power failures, terrorist attacks, equipment failures, system implementation failures, software failures and computer viruses and hackers. We have taken certain steps to help reduce the risk of some (but not all) of these potential disruptions. There can be no assurance, however, that the measures we have taken are adequate to prevent or remedy disruptions or failures of these systems. Any substantial or repeated failure of these systems could impact our operations and customer service, result in the loss of important data, loss of revenues, and increased costs, and generally harm our business. Moreover, a failure of certain of our vital systems could limit our ability to operate our flights for an extended period of time, which would have a material adverse impact on our operations and our business. In addition, we will need to continue to make significant investments in technology to pursue initiatives to reduce costs and enhance customer service. If we are unable to make these investments, our business could be negatively impacted.

***We are at risk of losses and adverse publicity which might result from an accident involving any of our aircraft.***

If one of our aircraft were to be involved in an accident, we could be exposed to significant tort liability. The insurance we carry to cover damages arising from any future accidents may be inadequate. In the event that our insurance is not adequate, we may be forced to bear substantial losses from an accident. In addition, any accident involving an aircraft operated by us could adversely affect the public's perception of us.

***Interruptions or disruptions in service at one or more of our primary market airports could have an adverse impact on us.***

Our business is heavily dependent on our operations at our primary market airports in Dallas/Ft. Worth, Chicago, Miami, New York City and Los Angeles. Each of these operations includes flights that gather and distribute traffic from markets in the geographic region around the primary market to other major cities. A significant interruption or disruption in service at one or more of our primary markets could adversely impact our operations.

***The airline industry is heavily taxed.***

The airline industry is subject to extensive government fees and taxation that negatively impact our revenue. The U.S. airline industry is one of the most heavily taxed of all industries. These fees and taxes have grown significantly in the past decade for domestic flights and various U.S. fees and taxes also are assessed on international flights. In addition, the governments of foreign countries in which we operate impose on U.S. airlines, including us, various fees and taxes, and these assessments have been increasing in number and amount in recent years. Certain of these fees and taxes must be included in the fares we advertise or quote to our customers. Due to the competitive revenue environment, many increases in these fees and taxes have been absorbed by the airline industry rather than being passed on to the passenger. Further increases in fees and taxes may reduce demand for air travel, and thus our revenues.

**ITEM 1B. UNRESOLVED STAFF COMMENTS**

The Company had no unresolved Securities and Exchange Commission staff comments at December 31, 2010.

**ITEM 2. PROPERTIES**

**Flight Equipment — Operating**

Owned and leased aircraft operated by the Company at December 31, 2010 included:

<u>Equipment Type</u>	<u>Average Seating Capacity</u>	<u>Owned</u>	<u>Capital Leased</u>	<u>Operating Leased</u>	<u>Total</u>	<u>Average Age (Years)</u>
<b>American Airlines Aircraft</b>						
Boeing 737-800	156	86	—	66	152	6
Boeing 757-200	187	84	9	31	124	16
Boeing 767-200 Extended Range	168	3	11	1	15	24
Boeing 767-300 Extended Range	225	45	2	11	58	17
Boeing 777-200 Extended Range	247	47	—	—	47	10
McDonnell Douglas MD-80	140	83	48	93	224	20
Super ATR	64/66	—	—	39	39	16
<b>Total</b>		<b>348</b>	<b>70</b>	<b>241</b>	<b>659</b>	<b>15</b>

Almost all of the Company's owned aircraft are encumbered by liens granted in connection with financing transactions entered into by the Company.

As included in the table above, American holds a third-party lease for 39 Super ATR aircraft and, in turn, subleases those aircraft to AMR Eagle for operation.

Of the operating aircraft listed above, 2 owned McDonnell Douglas MD-80 were in temporary storage as of December 31, 2010.

**Flight Equipment — Non-Operating**

Owned and leased aircraft not operated by the Company at December 31, 2010 included:

<u>Equipment Type</u>	<u>Owned</u>	<u>Capital Leased</u>	<u>Operating Leased</u>	<u>Total</u>
<b>American Airlines Aircraft</b>				
Airbus A300-600R	1	—	9	10
Fokker 100	—	—	4	4
Boeing 737-800	1	—	—	1
McDonnell Douglas MD-80	35	14	10	59
Total	<u>37</u>	<u>14</u>	<u>23</u>	<u>74</u>

For information concerning the estimated useful lives and residual values for owned aircraft, lease terms for leased aircraft and amortization relating to aircraft under capital leases, see Notes 1 and 5 to the consolidated financial statements.

**Flight Equipment — Leased**

Lease expirations for the aircraft included in the table of capital and operating leased flight equipment operated by the Company as of December 31, 2010 are:

<u>Equipment Type</u>	<u>2011</u>	<u>2012</u>	<u>2013</u>	<u>2014</u>	<u>2015</u>	<u>2016 and Thereafter</u>
<b>American Airlines Aircraft</b>						
Boeing 737-800	—	—	8	1	—	57
Boeing 757-200	1	—	—	10	24	5
Boeing 767-200 Extended Range	1	2	8	1	—	—
Boeing 767-300 Extended Range	—	—	3	—	1	9
McDonnell Douglas MD-80	7	20	22	17	15	60
Super ATR	—	1	12	12	14	—
	<u>9</u>	<u>23</u>	<u>53</u>	<u>41</u>	<u>54</u>	<u>131</u>

American leases all 39 Super ATR aircraft from a third party and in turn, subleases those aircraft to AMR Eagle for operation.

Substantially all of the Company's aircraft leases include an option to purchase the aircraft or to extend the lease term, or both, with the purchase price or renewal rental to be based essentially on the market value of the aircraft at the end of the term of the lease or at a predetermined fixed amount.

**Ground Properties**

The Company leases or has built as leasehold improvements on leased property: most of its airport and terminal facilities in the U.S. and overseas; its training facilities in Fort Worth, Texas; its principal overhaul and maintenance bases at Tulsa International Airport (Tulsa, Oklahoma) and Alliance Airport (Fort Worth, Texas); its regional reservation offices; and local ticket and administration offices throughout the system. In November 2010, AMR closed its Kansas City overhaul and maintenance base. The Company owns its headquarters building in Fort Worth, Texas. American has entered into agreements with the Tulsa Municipal Airport Trust; the Alliance

Airport Authority, Fort Worth, Texas; the New York City Industrial Development Agency; and the Dallas/Fort Worth, Chicago O'Hare, Newark, San Juan, and Los Angeles airport authorities to provide funds for the cost of constructing, improving and modifying facilities and acquiring equipment which are or will be leased to the Company. The Company also uses public airports for its flight operations under lease or use arrangements with the municipalities or governmental agencies owning or controlling them and leases certain other ground equipment for use at its facilities.

For information concerning the estimated lives and residual values for owned ground properties, lease terms and amortization relating to ground properties under capital leases, and acquisitions of ground properties, see Notes 1 and 5 to the consolidated financial statements.

### **ITEM 3. LEGAL PROCEEDINGS**

On February 14, 2006, the Antitrust Division of the United States Department of Justice (DOJ) served the Company with a grand jury subpoena as part of an ongoing investigation into possible criminal violations of the antitrust laws by certain domestic and foreign air cargo carriers. At this time, the Company does not believe it is a target of the DOJ investigation. The New Zealand Commerce Commission notified the Company on February 17, 2006 that it is investigating whether the Company and certain other cargo carriers entered into agreements relating to fuel surcharges, security surcharges, war-risk surcharges, and customs clearance surcharges. On February 22, 2006, the Company received a letter from the Swiss Competition Commission informing the Company that it is investigating whether the Company and certain other cargo carriers entered into agreements relating to fuel surcharges, security surcharges, war-risk surcharges, and customs clearance surcharges. On March 11, 2008, the Company received a request for information from the Swiss Competition Commission concerning, among other things, the scope and organization of the Company's activities in Switzerland. On June 27, 2007 and October 31, 2007, the Company received requests for information from the Australian Competition and Consumer Commission seeking information regarding fuel surcharges imposed by the Company on cargo shipments to and from Australia and regarding the structure of the Company's cargo operations. On September 1, 2008, the Company received a request from the Korea Fair Trade Commission seeking information regarding cargo rates and surcharges and the structure of the Company's activities in Korea. On January 23, 2007, the Brazilian competition authorities, as part of an ongoing investigation, conducted an unannounced search of the Company's cargo facilities in Sao Paulo, Brazil. On April 24, 2008, the Brazilian competition authorities charged the Company with violating Brazilian competition laws. On December 31, 2009, the Brazilian competition authorities made a non-binding recommendation to the Brazilian competition tribunal that it find the Company in violation of competition laws. The authorities are investigating whether the Company and certain other foreign and domestic air carriers violated Brazilian competition laws by illegally conspiring to set fuel surcharges on cargo shipments. The Company is vigorously contesting the allegations and the preliminary findings of the Brazilian competition authorities. On December 19, 2006 and June 12, 2007, the Company received requests for information from the European Commission seeking information regarding the Company's corporate structure, and revenue and pricing announcements for air cargo shipments to and from the European Union. On December 18, 2007, the European Commission issued a Statement of Objection (SO) against 26 airlines, including the Company. The SO alleges that these carriers participated in a conspiracy to set surcharges on cargo shipments in violation of EU law. On November 12, 2010, the EU Commission notified the Company that it was closing its proceedings against the Company without imposing any fine or finding any wrongdoing. The Company intends to cooperate fully with all pending investigations. In the event that any investigations uncover violations of the U.S. antitrust laws or the competition laws of some other jurisdiction, or if the Company were named and found liable in any litigation based on these allegations, such findings and related legal proceedings could have a material adverse impact on the Company. Forty-five purported class action lawsuits have been filed in the U.S. against the Company and certain foreign and domestic air carriers alleging that the defendants violated U.S. antitrust laws by illegally conspiring to set prices and surcharges on cargo shipments. These cases, along with other purported class action lawsuits in which the Company was not named, were consolidated in the United States District Court for the Eastern District of New York as In re Air Cargo Shipping Services Antitrust Litigation, 06-MD-1775 on June 20, 2006. Plaintiffs are seeking trebled money damages and injunctive relief. To facilitate a settlement on a class basis, the company agreed to be named in a separate class action complaint, which was filed on July 26, 2010. The settlement of that complaint, in which the company does not admit and denies liability, was given preliminary approval by the court on September 8, 2010.

The settlement has not yet received final approval, and some members of the class have elected to opt out, thereby preserving their rights to sue the Company separately. Any adverse judgment could have a material adverse impact on the Company. Also, on January 23, 2007, the Company was served with a purported class action complaint filed against the Company, American, and certain foreign and domestic air carriers in the Supreme Court of British Columbia in Canada (McKay v. Ace Aviation Holdings, et al.). The plaintiff alleges that the defendants violated Canadian competition laws by illegally conspiring to set prices and surcharges on cargo shipments. The complaint seeks compensatory and punitive damages under Canadian law. On June 22, 2007, the plaintiffs agreed to dismiss their claims against the Company. The dismissal is without prejudice and the Company could be brought back into the litigation at a future date. If litigation is recommenced against the Company in the Canadian courts, the Company will vigorously defend itself; however, any adverse judgment could have a material adverse impact on the Company.

On June 20, 2006, DOJ served the Company with a grand jury subpoena as part of an ongoing investigation into possible criminal violations of the antitrust laws by certain domestic and foreign passenger carriers. At this time, the Company does not believe it is a target of the DOJ investigation. The Company intends to cooperate fully with this investigation. On September 4, 2007, the Attorney General of the State of Florida served the Company with a Civil Investigative Demand as part of its investigation of possible violations of federal and Florida antitrust laws regarding the pricing of air passenger transportation. In the event that this or other investigations uncover violations of the U.S. antitrust laws or the competition laws of some other jurisdiction, such findings and related legal proceedings could have a material adverse impact on the Company. Approximately 52 purported class action lawsuits have been filed in the U.S. against the Company and certain foreign and domestic air carriers alleging that the defendants violated U.S. antitrust laws by illegally conspiring to set prices and surcharges for passenger transportation. On October 25, 2006, these cases, along with other purported class action lawsuits in which the Company was not named, were consolidated in the United States District Court for the Northern District of California as In re International Air Transportation Surcharge Antitrust Litigation, Civ. No. 06-1793 (the Passenger MDL). On July 9, 2007, the Company was named as a defendant in the Passenger MDL. On August 25, 2008, the plaintiffs dismissed their claims against the Company in this action. On March 13, 2008, and March 14, 2008, an additional purported class action complaint, Turner v. American Airlines, et al., Civ. No. 08-1444 (N.D. Cal.), was filed against the Company, alleging that the Company violated U.S. antitrust laws by illegally conspiring to set prices and surcharges for passenger transportation in Japan and certain European countries, respectively. The Turner plaintiffs have failed to perfect service against the Company, and it is unclear whether they intend to pursue their claims. In the event that the Turner plaintiffs pursue their claims, the Company will vigorously defend these lawsuits, but any adverse judgment in these actions could have a material adverse impact on the Company.

On August 21, 2006, a patent infringement lawsuit was filed against American and American Beacon Advisors, Inc. (then a wholly-owned subsidiary of the Company) in the United States District Court for the Eastern District of Texas (Ronald A. Katz Technology Licensing, L.P. v. American Airlines, Inc., et al.). This case has been consolidated in the Central District of California for pre-trial purposes with numerous other cases brought by the plaintiff against other defendants. The plaintiff alleges that American infringes a number of the plaintiff's patents, each of which relates to automated telephone call processing systems. The plaintiff is seeking past and future royalties, injunctive relief, costs and attorneys' fees. On December 1, 2008, the court dismissed with prejudice all claims against American Beacon. On May 22, 2009, following its granting of summary judgment to American based on invalidity and non-infringement, the court dismissed all claims against American. Plaintiff filed a notice of appeal on June 22, 2009 with respect to the court's ruling for American. Although the Company believes that the plaintiff's claims are without merit and is vigorously defending the lawsuit, a final adverse court decision awarding substantial money damages or placing material restrictions on existing automated telephone call system operations would have a material adverse impact on the Company.

On January 5, 2010, Sabre notified the Company that it was immediately introducing bias against the display of American's services in its global distribution system (GDS), as well as substantially increasing the rates that it would charge the Company for bookings made through the Sabre GDS. Sabre contended that its agreement with the Company permitted it to take these actions. On January 10, 2010, the Company filed a lawsuit in Tarrant County, Texas State Court against Sabre alleging, among other claims, that Sabre's actions breached its agreement with the Company. That same day, the Company successfully obtained a temporary restraining order that prohibited Sabre

from continuing to bias the display of American's services. On January 23, 2010, the Company and Sabre entered into a Stand-Down Agreement, pursuant to which American agreed to suspend the litigation against Sabre, and Sabre agreed not to reintroduce bias against American's services in its GDS and to return to the pricing in effect on January 4, 2010. The parties further agreed to enter into good faith negotiations. The Stand-Down Agreement will remain in effect until June 1, 2010. In the event that the Stand Down Agreement expires without a new agreement with Sabre, and the Court does not further enjoin Sabre from introducing bias against American's services, actions taken by Sabre could have a material adverse effect on the Company.

**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

Omitted under the reduced disclosure format pursuant to General Instructions I(2)(c) of Form 10-K.

**PART II**

**ITEM 5. MARKET FOR REGISTRANT'S COMMON STOCK AND RELATED STOCKHOLDER MATTERS**

American Airlines, Inc. is a wholly-owned subsidiary of AMR Corporation and there is no market for the Registrant's Common Stock.

**ITEM 6. SELECTED CONSOLIDATED FINANCIAL DATA**

Omitted under the reduced disclosure format pursuant to General Instructions I(2)(a) of Form 10-K.

**ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

(Abbreviated pursuant to General Instructions I(2)(a) of Form 10-K).

**Forward-Looking Information**

The discussions under Business, Risk Factors, Properties and Legal Proceedings, and the following discussions under "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Quantitative and Qualitative Disclosures about Market Risk" contain various forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which represent the Company's expectations or beliefs concerning future events. When used in this document and in documents incorporated herein by reference, the words "expects," "estimates," "plans," "anticipates," "indicates," "believes," "forecast," "guidance," "outlook," "may," "will," "should," "seeks," "targets" and similar expressions are intended to identify forward-looking statements. Similarly, statements that describe the Company's objectives, plans or goals, or actions the Company may take in the future, are forward-looking statements. Forward-looking statements include, without limitation, the Company's expectations concerning operations and financial conditions, including changes in capacity, revenues, and costs; future financing plans and needs; the amounts of its unencumbered assets and other sources of liquidity; fleet plans; overall economic and industry conditions; plans and objectives for future operations; regulatory approvals and actions; and the impact on the Company of its results of operations in recent years and the sufficiency of its financial resources to absorb that impact. Other forward-looking statements include statements which do not relate solely to historical facts, such as, without limitation, statements which discuss the possible future effects of current known trends or uncertainties, or which indicate that the future effects of known trends or uncertainties cannot be predicted, guaranteed or assured. All forward-looking statements in this report are based upon information available to the Company on the date of this report. The Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise. Guidance given in this report regarding capacity, fuel consumption, fuel prices, fuel hedging and unit costs are forward-looking statements. Forward-looking statements are subject to a number of factors that could cause the Company's actual results to differ materially from the Company's expectations. The Risk Factors listed in Item 1A could cause the

Company's actual results to differ materially from historical results and from those expressed in forward-looking statements.

#### **Recent Events**

In late 2009, the Company unveiled a new business plan — FlightPlan 2020, which is an evolution of the Turnaround Plan that guided the Company through the last decade. FlightPlan 2020 is a strategic framework developed to secure the Company's future by focusing on what will be required to succeed in the airline business over the next decade. It establishes the Company's priorities and a clear plan to better position the Company to meet the challenges of the coming years. This plan for achieving sustained profitability has five tenets: (i) Invest Wisely, (ii) Earn Customer Loyalty, (iii) Strengthen and Defend our Global Network, (iv) Be a Good Place for Good People and (v) Fly Profitably. All strategic actions by the Company going forward are expected to be designed to realize the goals of FlightPlan 2020.

Under FlightPlan 2020, the Company has launched its network strategy that focuses resources in its cornerstone markets of Dallas/Fort Worth (DFW), Chicago O'Hare, Miami, New York City and Los Angeles, and has continued to execute its fleet renewal and replacement plan. Further, the Company continues to pursue its strategy to form cooperative agreements with oneworld members and other airlines.

In 2008, American entered into a joint business agreement (JBA) and related marketing arrangements with British Airways and Iberia. These agreements provide for commercial cooperation on flights between North America and most countries in Europe, pooling and sharing of certain revenues and costs, expanded codesharing, enhanced frequent flyer program reciprocity, and cooperation in other areas.

In July 2010, American obtained clearance from the European Commission (EC) and approval by the Department of Transportation (DOT) for antitrust immunity (ATI) for its planned cooperation with British Airways, Iberia, Finnair and Royal Jordanian. Regulatory conditions for ATI approval for the British Airways, Iberia, Finnair and Royal Jordanian cooperative agreement include a collective obligation of the Company, British Airways, and Iberia to lease to other carriers up to seven takeoff and landing slot pairs at London Heathrow airport and up to three John F. Kennedy airport operational authorities, depending on market conditions. American began implementation of the JBA with British Airways and Iberia and expanded cooperation with Finnair and Royal Jordanian in October 2010. No assurances can be given as to any arrangements that may ultimately be implemented or any benefits that we may derive from such arrangements.

In February 2010, American and JAL announced the decision to strengthen their relationship. The carriers, entered into a JBA which will enhance their scope of cooperation on routes between North America and Asia through adjustments to their respective networks, flight schedules, and other business activities. This, in turn, will allow both carriers to better complement each other's operations and to develop and offer competitive products and quality service to their customers.

As a part of these commercial benefits, American determined that with ATI and by participating in a joint business agreement with American, JAL could realize approximately \$100 million in annual incremental revenue. American has given JAL a guarantee to that effect covering the first three years following implementation of the joint business agreement, subject to certain terms and conditions. At this time, the amount (if any) that AMR may ultimately owe under the agreement is unclear. The Company and other oneworld members have also discussed various possible financing arrangements with JAL. The Company has agreed to negotiate in good faith towards a capital investment in JAL by American, oneworld and a private investment firm in the future if invited by JAL and the Government of Japan. To date, the Government of Japan has declined any such investment, and the Company does not expect that any such investment will be made in the near term. Any such investment would be on and subject to terms and conditions customary to such an arrangement. The Company also expects that the amount of such a capital investment, if any, by American and other oneworld carriers, would not exceed \$300 million, with additional investment from private partners.

In the fourth quarter of 2010, American and JAL received approval for ATI on certain routes between North America and Asia from the DOT and MLIT. Implementation of the JBA is subject to successful negotiation of certain detailed financial and commercial arrangements and other approvals. American expects to begin

implementing the JBA with JAL in 2011. No assurances can be given as to any arrangements that may ultimately be implemented or any benefits that the Company may derive from such arrangements.

In 2010, American also commenced commercial collaboration in New York and Boston with JetBlue. American's agreement with JetBlue provides customers with interline service in non-overlapping markets, letting customers connect between 15 of American's international destinations from New York and Boston and 26 domestic cities flown by JetBlue. Further, American expanded its relationship with JetBlue so that AAdvantage members and members of JetBlue's customer loyalty program will be able to earn AAdvantage miles or JetBlue points, respectively, when they fly on American and JetBlue cooperative interline routes. Under the terms of the agreements for commercial collaboration, American transferred eight slot pairs at Ronald Reagan National Airport in Washington, D.C. (which were owned by American) and one slot pair at White Plains, New York (which were owned by AMR Eagle) to JetBlue, and JetBlue transferred twelve slot pairs at JFK to American. The reciprocal frequent flyer earning benefits and slot transfers became effective in the fourth quarter of 2010.

Further in 2010, the Company announced that it plans to extend its network through new commercial collaboration agreements with several airlines, including Air Berlin, Europe's fifth largest airline, GOL Airlines of Brazil, Jetstar Airways, which is an affiliate airline of Qantas Airways (a oneworld alliance member), and Canada's WestJet. These agreements include both interline and codeshare arrangements that allow customers of the Company and the respective airline to book and travel on the other's network. Selected agreements are subject to regulatory approval and no assurances can be given as to any arrangements that may ultimately be implemented or any benefits that the Company may derive from such arrangements.

The Company currently estimates that the implementation of its cornerstone strategy, the implementation of the Company's JBA with British Airways/Iberia and proposed cooperation with JAL, and various other alliance and network activities will result in incremental revenues and cost savings of over \$500 million per year. The Company expects that it will realize the majority of these incremental revenues and cost savings in 2011, and the remainder by year end 2012. This estimate is based on a number of assumptions that are inherently uncertain, and the Company's ability to realize these benefits depends on various factors, some of which are beyond the Company's control, such as factors referred to above in "Forward-Looking Information." No assurances can be given as to any benefits the Company may derive from such arrangements.

The Company is in active labor contract negotiations with each of its organized labor groups. The Company negotiated tentative agreements with several workgroups within the Transport Workers Union of American AFL-CIO (TWU) including the Maintenance Control Technician group, the Material Logistics Specialists group and the Mechanic and Related group. Agreements with the TWU groups are subject to ratification by the relevant membership of TWU, and while the Maintenance Control Technician group ratified their agreement, the Material Logistics Specialists group and the Mechanic and Related group tentative agreements were not ratified. Mediated negotiation continues under the auspices of the National Mediation Board with the TWU, the Allied Pilots Association (APA) and the Association of Professional Flight Attendants (APFA).

Based on analysis of airline industry labor contracts, the Company currently estimates that American's labor cost disadvantage (the amount by which its labor costs exceed what such costs would be if they were determined based on the average of other network carrier labor contracts) is approximately \$600 million per year. The Company expects this gap to narrow as open industry labor contracts are settled. This expectation is based on a number of assumptions. The airline industry labor contract negotiation process is inherently uncertain and the results of labor contract negotiations are difficult to predict.

In June 2010, AMR reiterated its intent to evaluate the possible divestiture of AMR Eagle, its wholly-owned regional carrier. The AMR Eagle fleet is operated to feed passenger traffic to American pursuant to a capacity purchase agreement between American and AMR Eagle under which American receives all passenger revenue from AMR Eagle flights and pays AMR Eagle a fee for each flight. The capacity purchase agreement reflects what AMR believes are current market rates received by other regional carriers for similar flying. Amounts paid to AMR Eagle under the capacity purchase agreement are available to pay for various operating expenses of AMR Eagle, such as crew expenses, maintenance, aircraft ownership (including the debt service on the loans made to finance the AMR Eagle fleet of jet aircraft), and aircraft lease payments for the AMR Eagle fleet of turboprop aircraft. AMR continues to evaluate both the desirability and the form of such a divestiture, which may include a spin-off to AMR

shareholders, a sale to a third party, or some other form of separation. Any divestiture of AMR Eagle could involve the restructuring of some or all of AMR Eagle's assets and liabilities, and the assumption of certain of AMR Eagle's liabilities by American. If AMR were to decide to pursue a divestiture of AMR Eagle, no prediction can be made as to whether any such divestiture would be completed, and the completion of any divestiture transaction and its timing would depend upon a number of factors, including general economic, industry and financial market conditions, as well as the ultimate form and structure of the divestiture. In addition, no prediction can be made as to the potential impacts on AMR or American of any divestiture of AMR Eagle due to, among others, uncertainties regarding the form and structure of any divestiture, the potential restructuring of assets and liabilities, and the nature and scope of any resulting amendments to the capacity purchase agreement between American and AMR Eagle.

During 2010, Congress passed and the President signed new healthcare legislation. While the new law did and will continue to impact certain of our active employee healthcare plans, according to recently released interim final regulations promulgated under the legislation, the Company's retiree medical benefits will be exempt from many of the mandates of the legislation. Thus, we currently believe this impact will not be material. We will continue to review the impact of the new law as governmental agencies issue interpretations regarding its meaning and scope. Also in 2010, the President signed the Dodd-Frank Wall Street Reform and Consumer Protection Act which could impact the Company, but those effects cannot be predicted at this time as the related rules and regulations have not been finalized.

#### **Contingencies**

The Company has certain contingencies resulting from litigation and claims incident to the ordinary course of business. Management believes, after considering a number of factors, including (but not limited to) the information currently available, the views of legal counsel, the nature of contingencies to which the Company is subject and prior experience, that the ultimate disposition of the litigation (except as noted in "Legal Proceedings" in item 3) and claims will not materially affect the Company's consolidated financial position or results of operations. When appropriate, the Company accrues for these contingencies based on its assessments of the likely outcomes of the related matters. The amounts of these contingencies could increase or decrease in the near term, based on revisions to those assessments.

The Company files its tax returns as prescribed by the tax laws of the jurisdictions in which it operates. The Company's 2004 through 2009 tax years are still subject to examination by the Internal Revenue Service. Various state and foreign jurisdiction tax years remain open to examination, and the Company is under examination, in administrative appeals, or engaged in tax litigation in certain jurisdictions.

On August 26, 2010, the Federal Aviation Administration (FAA) proposed a \$24.2 million civil penalty against American, claiming that American failed to properly perform certain portions of an FAA Airworthiness Directive concerning certain wiring to the McDonnell Douglas MD-80 aircraft auxiliary hydraulic pump. American plans to challenge the proposed civil penalty. The Company has concluded that the amount of the penalty, if any, that may be paid is not estimable at December 31, 2010.

#### **GDS Discussion**

Over the past several years, American has been developing a direct connection technology, designed to distribute its fare content and bookings capability directly to travel agents in order to achieve greater efficiencies, cost savings, and technological advances in the distribution of our services. Historically, approximately 60% of American's bookings are booked through travel agencies, which typically use one or more global distribution systems, or "GDSs", to view fare content from American and other industry participants. American is currently in litigation with two of the GDSs, Sabre and Travelport, and is in business discussions with two large online travel agencies, Orbitz and Expedia, related to American's efforts to implement its direct connection technology.

On November 5, 2010, Travelport, the GDS used by Orbitz, filed a lawsuit against American seeking a ruling that a notice of termination delivered by American to Orbitz breached American's content distribution agreement with Travelport. Subsequently, on December 2, 2010, Travelport doubled the booking fees it charges American for some international point-of-sale bookings through Travelport, and made it more difficult for travel agents to find American's fares on the Travelport system display. We believe these actions violate our agreement with Travelport.

In response, American filed counterclaims against Travelport for breach of contract, and implemented a charge on bookings through Travelport in an effort to offset the booking fee increase. There can be no assurance that we will be successful in offsetting this expense completely, or that we will ultimately prevail in the lawsuit filed by Travelport or on our counterclaims. We are vigorously pursuing our counterclaims and rights in the litigation, as well as engaged in active negotiations with Travelport to resolve the lawsuit and our counterclaims.

On December 21, 2010, American terminated its agreement with Orbitz. Prior to termination of such agreement, approximately 3% of American's passenger revenue, on an annualized basis, was generated from bookings made via Orbitz. We are engaged in active negotiations with Orbitz to enter into a new agreement.

On December 31, 2010, American's agreement with Expedia expired, and Expedia discontinued selling American tickets on its website. Prior to expiration of that agreement, approximately 5.4% of American's passenger revenue, on an annualized basis, was booked through Expedia. We are engaged in active negotiations with Expedia to enter into a new agreement.

On January 5, 2011, Sabre made it more difficult for travel agents to find American's fares on the Sabre system display and doubled the fees it charges American for bookings through its GDS. Sabre also terminated portions of its GDS agreements with American, effective July 2011. This termination, if valid, would entitle Sabre to make it more difficult for travel agents to find American's fares through its GDS and materially increase the fees it charges American for bookings through its GDS, as well as allowing Sabre to terminate its GDS agreements with American entirely in August 2011. Sabre alleges that our contract allowed it to take these actions in response to statements that American made in the press concerning our direct connection technology. Sabre is the largest non-direct source of American's bookings. In 2010, over \$7 billion of American's passenger revenues were generated from bookings made through the Sabre GDS. In response to Sabre's actions, on January 10, 2011, American filed a lawsuit against Sabre in Texas state court on several grounds. The court temporarily enjoined Sabre from "biasing" or making it more difficult to find American's fares on the Sabre GDS, and set a preliminary injunction hearing for February 14, 2011. On January 23, 2011, American and Sabre entered into a Stand Down Agreement that suspended the litigation until June 1, 2011 and vacated the February 14 hearing date. During this period, Sabre agreed (1) not to take any actions to bias the display of American's services; (2) to return to the pricing in effect on January 4, 2011; and (3) withdraw its notice of termination of certain parts of the agreement. We can give no assurances that we will resolve our disputes with Sabre or prevail in a temporary injunction hearing should such a hearing become necessary after the Stand Down Agreement with Sabre expires on June 1, 2011. The failure to resolve these issues or prevail in a subsequent hearing could have a material adverse impact on our level of bookings, business and results of operations.

While we believe that some of the bookings through Orbitz, Travelport, Expedia and Sabre have transitioned or will transition to other distribution channels, such as other travel agencies, metasearch sites and American's AA.com web site, it is not possible at this time to estimate what the ultimate impact would be to our business if we are unsuccessful in resolving one or more of these matters. If as a result of these matters it becomes more difficult for our customers to find and book flights on American, we could be put at a competitive disadvantage against our competitors and this may result in lower bookings. If we are unable to sell American inventory through any or all of these channels, our level of bookings, business and results of operations could be materially adversely affected. We also believe the actions taken by Travelport and Sabre described above are not permitted by the applicable contracts. We intend to vigorously pursue our claims and defenses in the lawsuits described above, but there can be no assurance of the outcome of any such lawsuit.

### **Financial Highlights**

The Company recorded a net loss of \$469 million in 2010 compared to a net loss of \$1.5 billion in 2009. The Company's smaller net loss in 2010 reflects an improvement in a weak global economy; which led to higher passenger revenues, partially offset by higher fuel prices. Mainline passenger revenue increased by \$1.7 billion to \$16.8 billion for the year ended December 31, 2010 compared to 2009. Mainline passenger unit revenues increased 10.4 percent in 2010 due to an 8.7 percent increase in passenger yield compared to 2009 and a load factor increase of approximately 1.2 points. Passenger yield remains below the Company's peak yield set in the year 2000, despite cumulative inflation of approximately 27 percent over the same time frame. The Company believes this is the result

of a fragmented industry with numerous competitors and excess capacity, increased low cost carrier competition, increased price competition due to the internet, and other factors. Since deregulation in 1978, the Company's passenger yield has increased 78 percent, while the Consumer Price Index (CPI), as measured by the U.S. Department of Labor Bureau of Labor Statistics, has grown by over 225 percent. The Company believes increases in passenger yield will continue to significantly lag CPI indefinitely.

The increase in total passenger revenue was partially offset by significantly higher year-over-year fuel prices. Fuel expense, taking into account the impact of fuel hedging, increased by \$716 million to \$5.7 billion for the year ended December 31, 2010 compared to 2009. Hedging losses accounted for approximately \$124 million of the overall increase in fuel expense. The Company paid an average of \$2.31 per gallon in 2010 compared to an average of \$2.01 per gallon in 2009, including effects of hedging. Although fuel prices have abated considerably from the record high prices recorded in July 2008, they have increased since the first quarter of 2009, particularly recently, and remain high and extremely volatile by historical standards. In addition, the Company's unit costs excluding fuel and special charges were greater for the year ended December 31, 2010 than for the same period in 2009. Factors driving the increase include revenue related costs, such as credit card fees and booking fees and commissions, and higher aircraft rent related to the Company's fleet renewal plan. The Company remains focused on cost reductions, but expects such factors to result in continuing cost pressures in 2011.

In addition, the Company's 2010 results were negatively impacted by a net amount of \$81 million in special items related to the Venezuelan currency remeasurement in January 2010 and a non-cash impairment charge to write down certain routes and slot authorities in Latin America as a result of open skies agreements. Comparatively, the Company's 2009 operating results were negatively impacted by a net amount of \$107 million in special items, restructuring charges and a non-cash tax item, including \$184 million from the impairment of certain route and slot authorities, primarily in Latin America, and losses on certain sale leaseback transactions. Restructuring charges for 2009 were \$171 million and related to announced capacity reductions, including the grounding of the Airbus A300 fleet. Also included in 2009 results is a \$248 million non-cash tax benefit resulting from the allocation of the tax expense to other comprehensive income items recognized during 2009. The 2009 restructuring charges, the 2009 non-cash tax item and the 2010 and 2009 route impairments are described in Notes 2, 8 and 11, respectively, to the consolidated financial statements.

The Company's ability to become profitable and its ability to continue to fund its obligations on an ongoing basis will depend on a number of factors, many of which are largely beyond the Company's control. Certain risk factors that affect the Company's business and financial results are discussed in the Risk Factors listed in Item 1A.

In order to remain competitive and to improve its financial condition, the Company must continue to take steps to generate additional revenues and to reduce its costs. Although the Company has a number of initiatives underway to address its cost and revenue challenges, some of these initiatives involve changes to the Company's business which it may be unable to implement. It has become increasingly difficult to identify and implement significant revenue enhancement and cost savings initiatives. The adequacy and ultimate success of the Company's initiatives to generate additional revenues and reduce costs cannot be assured. Moreover, whether the Company's initiatives will be adequate or successful depends in large measure on factors beyond its control, notably the overall industry environment, including passenger demand, yield and industry capacity growth, and fuel prices. It will be very difficult for the Company to continue to fund its obligations on an ongoing basis, and to return to profitability, if the overall industry revenue environment does not continue to improve or if fuel prices were to increase and persist for an extended period at high levels.

### **Liquidity and Capital Resources**

*Cash, Short-Term Investments and Restricted Assets* At December 31, 2010, the Company had \$4.5 billion in unrestricted cash and short-term investments and \$450 million in Restricted cash and short-term investments, both at fair value, versus \$4.4 billion in unrestricted cash and short-term investments and \$460 million in Restricted cash and short-term investments in 2009.

The Company's unrestricted short-term investment portfolio consist of a variety of what the Company believes are highly liquid, low risk instruments including money market funds, government agency investments, repurchase investments, short-term obligations, corporate obligations, bank notes, certificates of deposit and time deposits. The

Company's objective for its investment portfolio are (1) the safety of principal, (2) liquidity maintenance, (3) yield maximization, and (4) the full investment of all available funds. The Company's risk management policy further emphasizes superior credit quality (primarily based on short-term ratings by nationally recognized statistical rating organizations) in selecting and maintaining investments in its portfolio and enforces limits on the proportion of funds invested with one issuer, one industry, or one type of instrument. The Company regularly assesses the market risks of its portfolio, and believes that its established policies and business practices adequately limit those risks. As a result, the Company does not anticipate any material adverse impact from these risks.

*Significant Indebtedness and Future Financing* Indebtedness is a significant risk to the Company as discussed in the Risk Factors listed in Item 1A. During the last five years, the Company raised an aggregate of approximately \$7.7 billion in financing to fund operating losses, capital commitments (mainly for aircraft and ground properties), debt maturities, employee pension obligations and to bolster its liquidity. As of the date of this Form 10-K, the Company believes that it should have sufficient liquidity to fund its operations, including repayment of debt and capital leases, capital expenditures and other contractual obligations; however, there can be no assurances to that effect.

In addition, the Company has financing commitments covering all aircraft scheduled to be delivered to the Company in 2011 and 2012, except for the two Boeing 777-300ER aircraft recently ordered. Such financing commitments are subject to certain terms and conditions, including in some instances a condition that the Company have at least a certain minimum amount of liquidity.

In 2011, the Company will be required to make approximately \$2 billion of principal payments on long-term debt and approximately \$100 million in principal payments on capital leases, and the Company expects to spend approximately \$1.4 billion on capital expenditures, including aircraft commitments. In addition, the fragile economy, rising fuel prices, the possibility of being required to post reserves under credit card processing agreements, and the obligation to post cash collateral on fuel hedging contracts and fund pension plan contributions, among other things, may in the future negatively impact the Company's liquidity. To maintain sufficient liquidity, and because the Company has significant debt, lease and other obligations in the next several years, including commitments to purchase aircraft, as well as significant pension funding obligations (refer to "Contractual Obligations" in Item 7), the Company will need access to substantial additional funding. An inability to obtain necessary additional funding on acceptable terms would have a material adverse impact on the Company and on its ability to sustain its operations.

On January 25, 2011, American closed on a \$657 million offering of Class A and Class B Pass Through Trust Certificates (the Certificates). The equipment notes expected to be held by each pass through trust will be issued for each of (a) 15 Boeing 737-823 aircraft delivered new to American from 1999 to 2001, (b) six Boeing 757-223 aircraft delivered new to American in 1999 and 2001, (c) two Boeing 767-323ER aircraft delivered new to American in 1999 and (d) seven Boeing 777-223ER aircraft delivered new to American from 1999 to 2000. At closing, 27 of the aircraft were encumbered by either private mortgages or by liens to secure debt incurred in connection with the issuance of enhanced equipment trust certificates in 2001, all of which mature in 2011. As a result, the proceeds from the sale of the Certificates of each trust will initially be held in escrow with a depository, pending the financing of each aircraft under an indenture relating to the Certificates. Interest of 5.25% and 7.00% per annum on the issued and outstanding Series A equipment notes and Series B equipment notes, respectively, will be payable semiannually on January 31 and July 31 of each year, commencing on July 31, 2011, and principal on such equipment notes is scheduled for payment on January 31 and July 31 of certain years, commencing on July 31, 2011. The payment obligations of American under the equipment notes will be fully and unconditionally guaranteed by AMR Corporation.

The Company's substantial indebtedness and other obligations have important consequences. For example, they: (i) limit the Company's ability to obtain additional funding for working capital, capital expenditures, acquisitions, investments and general corporate purposes, as well as adversely affect the terms on which such funding could be obtained; (ii) require the Company to dedicate a substantial portion of its cash flow from operations to payments on its indebtedness and other obligations, thereby reducing the funds available for other purposes; (iii) make the Company more vulnerable to economic downturns and catastrophic external events; and

(iv) limit the Company's ability to withstand competitive pressures and reduce its flexibility in responding to changing business and economic conditions.

The Company's possible remaining financing sources primarily include: (i) a very limited amount of additional secured aircraft debt or sale leaseback transactions involving owned aircraft; (ii) debt secured by other assets; (iii) securitization of future operating receipts; (iv) the sale or monetization of certain assets; (v) unsecured debt; and (vi) issuance of equity or equity-like securities. Besides unencumbered aircraft, the Company's most likely sources of liquidity include the financing of route authorities, takeoff and landing slots, spare parts, and the sale or financing of certain of AMR's business units and subsidiaries, such as AMR Eagle. The Company's ability to obtain future financing is limited by the value of its unencumbered assets. Almost all of the Company's aircraft assets (including aircraft eligible for the benefits of Section 1110 of the U.S. Bankruptcy Code) are encumbered. Also, the market value of these aircraft assets has declined in recent years, and may continue to decline. The Company believes it has at least \$2 billion in assets that could be used as possible financing sources as of the date of this filing. However, many of these assets may be difficult to finance, and the availability and level of the financing sources described above cannot be assured. The Company also believes it has the ability to refinance aircraft as those aircraft become unencumbered.

In July 2010, the Company entered into an amendment to Purchase Agreement No. 1977 with The Boeing Company (Boeing) to exercise rights to acquire additional Boeing 737-800 aircraft. Pursuant to the amendment, American exercised rights to purchase 35 Boeing 737-800 aircraft for delivery in 2011 and 2012. In conjunction with this transaction, American has arranged for backstop financing of the additional Boeing 737-800 aircraft deliveries, subject to certain terms and conditions.

As of December 31, 2010, American had 15 Boeing 737-800 purchase commitments for 2011 and 28 Boeing 737-800 purchase commitments in 2012 and in addition to those commitments, American had firm commitments for eleven Boeing 737-800 aircraft and seven Boeing 777-200 aircraft scheduled to be delivered in 2013-2016. Payments for the Company's aircraft purchase commitments will approximate \$708 million in 2011, \$951 million in 2012, \$491 million in 2013, \$291 million in 2014, \$169 million for 2015, and \$79 million for 2016. These amounts are net of purchase deposits currently held by the manufacturers.

On January 14, 2011, the Company entered into an amendment to Purchase Agreement No. 1980 with Boeing to exercise rights to acquire two Boeing 777-300ER aircraft for delivery in 2012. The Company's total purchase commitments are expected to be approximately \$2.8 billion as of the end of the first quarter 2011, reflecting this transaction and aircraft purchase deposits paid during that period.

In 2008, the Company entered into a new purchase agreement with Boeing for the acquisition of 42 firm Boeing 787-9 aircraft and purchase rights to acquire up to 58 additional B787 aircraft. Per the purchase agreement, the first such aircraft was scheduled to be delivered in 2012, and the last firm aircraft was scheduled to be delivered in 2018 with deliveries of additional aircraft, if any, scheduled between 2015 and 2020. In July 2010, the Company and Boeing agreed upon a revised delivery schedule due to the impact of the overall Boeing 787 program delay on American's delivery positions. The first aircraft is currently scheduled to be delivered in 2014, and the last firm aircraft is scheduled to be delivered in 2018 with deliveries of additional aircraft, if any, scheduled between 2016 and 2021. Additionally, the revised delivery schedule includes terms and conditions consistent with the original agreement and allows the Company the confirmation rights described below.

Under the current 787-9 purchase agreement and supplemental agreement, except as described below, American will not be obligated to purchase a 787-9 aircraft unless it gives Boeing notice confirming its election to do so at least 18 months prior to the scheduled delivery date for that aircraft. If American does not give that notice with respect to an aircraft, the aircraft will no longer be subject to the 787-9 purchase agreement. These confirmation rights may be exercised until a specified date (May 1, 2014 under the current agreement) provided that those rights will terminate earlier if American reaches a collective bargaining agreement with its pilot union that includes provisions enabling American to utilize the 787-9 to American's satisfaction in the operations desired by American, or if American confirms its election to purchase any of the initial 42 787-9 aircraft. While there can be no assurances, American expects that it will have reached an agreement as described above with its pilots union prior to the first notification date. In either of those events, American would become obligated to purchase all of the initial 42 aircraft then subject to the purchase agreement. If neither of those events occurs prior to the specified date

(May 1, 2014 under the current agreement) then on that date American may elect to purchase all of the initial 42 aircraft then subject to the purchase agreement, and if it does not elect to do so, the purchase agreement will terminate in its entirety.

*Credit Ratings* AMR's and American's credit ratings are significantly below investment grade. Additional reductions in AMR's or American's credit ratings could further increase the Company's borrowing or other costs and further restrict the availability of future financing.

*Credit Card Processing and Other Reserves* American has agreements with a number of credit card companies and processors to accept credit cards for the sale of air travel and other services. Under certain of these agreements, the credit card processor may hold back a reserve from American's credit card receivables following the occurrence of certain events, including the failure of American to maintain certain levels of liquidity (as specified in each agreement).

Under such agreements, the amount of the reserve that may be required generally is based on the processor's exposure to the Company under the applicable agreement and, in the case a reserve is required because of AMR's failure to maintain a certain level of liquidity, the amount of such liquidity. As of December 31, 2010, the Company was not required to maintain any reserve under such agreements. If circumstances were to occur that would allow the credit card processor to require the Company to maintain a reserve, the Company's liquidity would be negatively impacted.

*Cash Flow Activity* The Company's cash flow from operating activities during the year ended December 31, 2010 generated \$1 billion, which is an increase of \$407 million from the same period in 2009 primarily due to an improved revenue environment in 2010 as compared to 2009.

The Company made debt and capital lease payments of \$918 million in 2010 while capital expenditures during 2010 were \$1.6 billion and primarily included new aircraft and aircraft modifications. Substantially all of the aircraft were financed through previously arranged financing transactions.

Due to the current value of the Company's derivative contracts, some agreements with counterparties require collateral to be deposited by the counterparty. As of December 31, 2010, the cash collateral held by AMR from such counterparties was \$73 million as compared to \$14 million held by such counterparties at December 31, 2009. Cash held at December 31, 2010 from counterparties is included in short-term investments. As a result of movements in fuel prices, the cash collateral amounts held by AMR or the counterparties to such contracts, as the case may be, can vary significantly.

In the past, the Company has from time to time refinanced, redeemed or repurchased its debt and taken other steps to reduce its debt or lease obligations or otherwise improve its balance sheet. Going forward, depending on market conditions, its cash positions and other considerations, the Company may continue to take such actions.

Certain of the Company's debt financing agreements contain loan to value ratio covenants and require the Company to periodically appraise the collateral. Pursuant to such agreements, if the loan to value ratio exceeds a specified threshold, the Company may be required to subject additional qualifying collateral (which in some cases may include cash collateral) or, in the alternative, to pay down such financing, in whole or in part, with premium (if any).

*Compensation* On January 18, 2011, the Company approved the 2011 Annual Incentive Plan (AIP) for American. All U.S. based employees of American are eligible to participate in the AIP. The AIP is American's annual bonus plan and provides for the payment of awards in the event certain financial and/or customer service metrics are satisfied.

*Working Capital* AMR (principally American) historically operates with a working capital deficit, as do most other airline companies. In addition, the Company has historically relied heavily on external financing to fund capital expenditures. More recently, the Company has also relied on external financing to fund operating losses, employee pension obligations and debt maturities.

*Off Balance Sheet Arrangements* American has determined that it holds a significant variable interest in, but is not the primary beneficiary of, certain trusts that are the lessors under 83 of its aircraft operating leases. These leases contain a fixed price purchase option, which allows American to purchase the aircraft at a predetermined

price on a specified date. However, American does not guarantee the residual value of the aircraft. As of December 31, 2010, future lease payments required under these leases totaled \$1.1 billion.

Certain special facility revenue bonds have been issued by certain municipalities primarily to purchase equipment and improve airport facilities that are leased by American and accounted for as operating leases. Approximately \$1.5 billion of these bonds (with total future payments of approximately \$3.2 billion as of December 31, 2010) are guaranteed by American, AMR, or both. Approximately \$177 million of these special facility revenue bonds contain mandatory tender provisions that require American to make operating lease payments sufficient to repurchase the bonds at various times: \$112 million in 2014 and \$65 million in 2015. Although American has the right to remarket the bonds, there can be no assurance that these bonds will be successfully remarketed. Any payments to redeem or purchase bonds that are not remarketed would generally reduce existing rent leveling accruals or are considered prepaid facility rentals and would reduce future operating lease commitments.

In addition, the Company had other operating leases, primarily for aircraft and airport facilities, with total future lease payments of \$6.5 billion as of December 31, 2010. Entering into aircraft leases allows the Company to obtain aircraft without immediate cash outflows.

#### **Commitments**

*Pension Obligations* The Company is required to make minimum contributions to its defined benefit pension plans under the minimum funding requirements of the Employee Retirement Income Security Act (ERISA), the Pension Funding Equity Act of 2004, the Pension Protection Act of 2006, and the Pension Relief Act of 2010. The Company estimates its 2011 required contribution to its defined benefit pension plans to be approximately \$520 million under the provisions of these acts.

The Company's obligation for pension and retiree medical and other benefits increased from \$7.4 billion at December 31, 2009 to \$7.9 billion at December 31, 2010, largely the result of a lower discount rate associated with declining interest rates in the bond markets in 2010. A significant portion of this increase is recorded in Accumulated other comprehensive loss, a component of stockholders' equity.

*Other Commitments* As of December 31, 2010, American had 15 Boeing 737-800 purchase commitments for 2011 and 28 Boeing 737-800 purchase commitments in 2011. In addition to these aircraft, American has firm commitments for eleven Boeing 737-800 aircraft and seven Boeing 777 aircraft scheduled to be delivered in 2013-2016. Future payments for all aircraft, including the estimated amounts for price escalation, are currently estimated to be approximately \$2.6 billion, with the majority occurring in 2011 through 2013. Additional information about the Company's obligations is included in Note 4 to the consolidated financial statements.

The Company has contracts related to facility construction or improvement projects, primarily at airport locations. The contractual obligations related to these projects totaled approximately \$74 million as of December 31, 2010. The Company expects to make payments of \$60 million and \$5 million in 2011 and 2012, respectively. In addition, the Company has an information technology support related contract that requires minimum annual payments of \$100 million in 2011 and declining to \$70 million in 2014 through 2019.

American has a capacity purchase agreement with Chautauqua Airlines, Inc. to provide Embraer -140 regional jet services to certain markets under the brand "AmericanConnection". Under this arrangement, the Company pays the AmericanConnection® carrier a fee per block hour to operate the aircraft. The block hour fees are designed to cover the AmericanConnection® carrier's fully allocated costs plus a margin. Assumptions for certain costs such as fuel, landing fees, insurance, and aircraft ownership are trueed up to actual values on a pass through basis. In consideration for these payments, the Company retains all passenger and other revenues resulting from the operation of the AmericanConnection® regional jets. Minimum payments under the contracts are \$56 million in 2011 and \$72 million over the two years 2011 and 2012. In addition, if the Company terminates the Chautauqua contract without cause, Chautauqua has the right to put its 15 Embraer aircraft to the Company. If this were to happen, the Company would take possession of the aircraft and become liable for lease obligations totaling approximately \$21 million per year with lease expirations in 2018 and 2019.

American Airlines and AMR Eagle operate under a capacity purchase agreement. The capacity purchase agreement reflects what the Company believes are current market rates received by other regional carriers for similar flying. Amounts paid to AMR Eagle under the capacity purchase agreement are available to pay for various operating expenses of AMR Eagle, such as crew expenses, maintenance and aircraft ownership. As of December 31, 2010, AMR Eagle operated over 1,500 daily departures, offering scheduled passenger service to over 150 destinations in North America, Mexico and the Caribbean. On a separate company basis, AMR Eagle reported \$2.3 billion in revenue in 2010. However, this historical financial information is not indicative of what AMR Eagle's future revenues might be if AMR Eagle were a stand-alone entity.

The following table summarizes the combined capacity purchase activity for the American Connection carriers and AMR Eagle for 2010 and 2009 (in millions):

	<u>Year Ended December 31,</u>	
	<u>2010</u>	<u>2009</u>
<b>Revenues:</b>		
Regional Affiliates	\$ 2,327	\$ 2,012
Other	151	135
	<u>\$ 2,478</u>	<u>\$ 2,147</u>
<b>Expenses:</b>		
Regional payments	\$ 2,291	\$ 2,120
Other incurred expenses	372	389
	<u>\$ 2,663</u>	<u>\$ 2,509</u>

In addition, passengers connecting to American's flights from American Connection and AMR Eagle flights generated passenger revenues for American flights of \$1.6 billion in 2010 and \$1.4 billion in 2009, which are included in Revenues — Passenger in the consolidated statements of operations.

See Note 13 to the consolidated financial statements for additional information regarding the capacity purchase arrangement with AMR Eagle.

### **Results of Operations**

The Company recorded a net loss of \$469 million in 2010 compared to a net loss of \$1.5 billion in 2009. The Company's smaller net loss in 2010 reflects a strengthening of the revenue environment in a weak global economy which led to higher passenger revenues, partially offset by higher fuel prices. In addition to higher fuel expenses, the Company's 2010 results were negatively impacted by \$81 million in special items. The special items consist of \$53 million related to the Venezuelan currency remeasurement in January 2010 and a \$28 million non-cash impairment of certain routes in Latin America.

The Company recorded a net loss of \$1.5 billion in 2009 compared to a net loss of \$2.5 billion in 2008. The Company's 2009 loss was primarily attributable to a significant decrease in passenger revenue due to lower traffic and passenger yield. The 2009 results were also negatively impacted by a net amount of \$107 million in special items, restructuring charges and a non-cash tax item. 2009 special items of \$184 million included the impairment of certain route and slot authorities, primarily in Latin America, and losses on certain sale leaseback transactions. Restructuring charges for 2009 were \$171 million and related to announced capacity reductions, including the grounding of the Airbus A300 fleet. Also included in 2009 results is a \$248 million non-cash tax benefit resulting from the allocation of the tax expense to other comprehensive income items recognized during 2009. The 2009 restructuring charges, the 2009 non-cash tax item and the 2010 and 2009 route impairments are described in Notes 2, 8 and 11, respectively, to the consolidated financial statements.

The Company recorded a net loss of \$2.5 billion in 2008. The Company's 2008 results included an impairment charge of \$1.0 billion to write the McDonnell Douglas MD-80 and certain related long-lived assets down to their estimated fair values, a \$68 million accrual for employee severance cost and a \$33 million expense related to the

grounding of leased Airbus A300 aircraft prior to lease expiration, all in connection with announced capacity reductions and included in Special charges in the Consolidated Statements of Operations. In addition, the Company's 2008 results included the impact of a pension settlement charge of \$103 million for one of the Company's defined benefit plans included in Wages, salaries and benefits on the Consolidated Statements of Operations.

### Revenues

*2010 Compared to 2009* The Company's revenues increased approximately \$2.3 billion, or 11.3 percent, to \$22.1 billion in 2010 compared to 2009 due to increased traffic and higher average fares. American's passenger revenues increased by 11.5 percent, or \$1.7 billion, on a capacity (ASM) increase of 1.0 percent. American's passenger load factor increased approximately 1.2 points to 81.9 percent and passenger revenue yield per passenger mile increased 8.7 percent to 13.36 cents. This resulted in an increase in passenger revenue per available seat mile (RASM) of 10.4 percent to 10.94 cents. In 2010, American derived approximately 60 percent of its passenger revenues from domestic operations and approximately 40 percent from international operations (flights serving international destinations). Following is additional information regarding American's domestic and international RASM and capacity:

	Year Ended December 31, 2010			
	RASM (Cents)	Y-O-Y Change	ASMs (Billions)	Y-O-Y Change
DOT Domestic	10.80	9.5%	93.2	0.2%
International	11.14	11.8	60.0	2.2
DOT Latin America	11.80	8.1	29.4	3.7
DOT Atlantic	10.58	15.9	23.2	(1.9)
DOT Pacific	10.29	15.7	7.4	9.8

Regional Affiliates' passenger revenues, which are based on industry standard proration agreements for flights connecting to American flights, increased \$315 million or 15.7 percent as a result of passenger yield increase of 8.4 percent. Regional Affiliates' traffic increased 6.7 percent to 8.8 billion revenue passenger miles (RPMs), while capacity increased 5.3 percent to 12.2 billion ASMs, resulting in a 1.0 point increase in passenger load factor to 72.4 percent.

Cargo revenues increased 16.3 percent, or \$94 million, primarily as a result of increased volume, particularly in the Latin America and Pacific regions.

Other revenues increased 5.3 percent, or \$120 million, to \$2.4 billion due to increases in certain passenger service charge volumes and fees and increased revenue associated with the sale of mileage credits in the AAdvantage frequent flyer program.

### Operating Expenses

*2010 Compared to 2009* The Company's total operating expenses increased 4.5 percent, or \$939 million, to \$22 billion in 2010 compared to 2009. American's mainline operating expenses per ASM in 2010 increased 3.2 percent compared to 2009 to 12.62 cents. The increase in operating expense was largely due to a year-over-year increase in fuel prices from \$2.01 per gallon in 2009 to \$2.31 per gallon in 2010, including the impact of fuel hedging. Fuel expense was the Company's second largest single expense category in 2010 and the price increase resulted in \$716 million in incremental year-over-year fuel expense in 2010 (based on the year-over-year increase in the average price per gallon multiplied by gallons consumed, inclusive of the impact of fuel hedging). A return to the recent historically high fuel prices and/or disruptions in the supply of fuel would further materially adversely affect the Company's financial condition and results of operations. The remaining increase in operating expense

was primarily due to revenue related expenses, such as credit card fees and booking fees and commissions, and increased aircraft rent related to the Company's fleet renewal plan.

<u>Operating Expenses</u>	<u>Year Ended December 31, 2010</u>	<u>Change from 2009 (In millions)</u>	<u>Percentage Change</u>
Wages, salaries and benefits	\$ 6,227	\$ 9	0.1%
Aircraft fuel	5,731	716	14.3(a)
Regional payments to AMR Eagle	2,227	225	11.2(b)
Other rentals and landing fees	1,284	54	4.4
Depreciation and amortization	935	(19)	(2.0)
Maintenance, materials and repairs	1,056	28	2.7
Commissions, booking fees and credit card expense	976	123	14.4(c)
Aircraft rentals	592	76	14.7(d)
Food service	490	3	0.6
Special charges	—	(171)	(100.0)(e)
Other operating expenses	2,481	(106)	(4.1)
Total operating expenses	<u>\$ 21,999</u>	<u>\$ 938</u>	<u>4.5%</u>

\* Not meaningful

- (a) Aircraft fuel expense increased primarily due to a 15.1 percent increase in the Company's price per gallon of fuel (net of the impact of hedging losses of \$124 million) offset by a 0.7 percent decrease in the Company's fuel consumption.
- (b) Regional payments to AMR Eagle increased in conjunction with a 15.5 percent increase in Regional Affiliates' price per gallon of fuel (net of the impact of fuel hedging) and a 7.8 percent increase in Regional Affiliates' fuel consumption.
- (c) Commissions, booking fees and credit card expenses increased due to an 11.3 percent increase in operating revenues.
- (d) Aircraft rental expense increased principally due to new aircraft deliveries in 2009 and 2010.
- (e) Special charges in 2009 related to announced capacity reductions, the grounding of the Airbus A300 fleet and the write down of certain Embraer RJ-135 aircraft to their estimated fair values.

#### **Other Income (Expense)**

Other income (expense) consists of Interest income and expense, Interest capitalized and Miscellaneous — net.

2010 Compared to 2009 Decreases in both short-term investment balances and interest rates caused a decrease in Interest income of \$9 million, or 24.9 percent, to \$25 million. Interest expense increased \$71 million, or 12.2 percent, to \$654 million primarily as a result of an increase in the Company's long-term debt balance.

#### **Income Tax Benefit**

The Company has recorded in 2010 and 2009 an income tax expense credit of approximately \$30 million and \$35 million, respectively, resulting from the Company's anticipated election under applicable sections of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 and Section 3081 of the Housing and Economic Recovery Act of 2008 (as extended by the American Recovery and Reinvestment Act of 2009), allowing corporations to accelerate utilization of certain research and alternative minimum tax (AMT) credit carryforwards in lieu of applicable bonus depreciation on certain qualifying capital investments.

The Company did not record a net tax provision (benefit) associated with 2008 net loss due to the Company providing a valuation allowance, as discussed in Note 8 to the consolidated financial statements. However, during 2009, the Company generated a pre-tax loss of \$1.8 billion and other comprehensive income of approximately \$701 million. In accordance with accounting standards, the net zero tax provision is required to be allocated between Operating loss and Accumulated other comprehensive income. Application of this guidance during 2009 resulted in a non-cash income tax benefit of \$248 million, offset by a \$248 million charge to other comprehensive income related to such items being recognized in 2009. See Note 8 for additional information regarding the allocation of income tax benefit to Operating income and Accumulated other comprehensive income.

#### **Outlook**

The Company currently expects capacity for American's mainline jet operations to increase by approximately 3.8% in the first quarter of 2011 versus first quarter 2010. American's mainline capacity for the full year 2011 is expected to increase approximately 3.6% from 2010 with a 1% increase in domestic capacity and a 7.7% growth in international capacity.

The Company expects first quarter 2011 mainline unit costs to increase approximately 1.6 percent year over year. The first quarter 2011 unit cost expectations reflect the increase in the cost of fuel during the second half of 2010 and projected fuel prices in 2011. Despite anticipated higher revenue-related expenses (such as booking fees and commissions) and financing costs related to the Company's new Boeing 737-800 aircraft, the Company expects first quarter mainline unit costs excluding fuel to be 3.2% lower than the prior year periods.

The Company's results are significantly affected by the price of jet fuel, which is in turn affected by a number of factors beyond the Company's control. Although fuel prices have abated considerably from the record high prices recorded in July 2008, they have increased since the first quarter of 2009, particularly recently, and remain high and extremely volatile by historical standards.

#### **ITEM 7(A). QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

##### **Market Risk Sensitive Instruments and Positions**

The risk inherent in the Company's market risk sensitive instruments and positions is the potential loss arising from adverse changes in the price of fuel, foreign currency exchange rates and interest rates as discussed below. The sensitivity analyses presented do not consider the effects that such adverse changes may have on overall economic activity, nor do they consider additional actions management may take to mitigate the Company's exposure to such changes. Therefore, actual results may differ. The Company does not hold or issue derivative financial instruments for trading purposes. See Note 7 to the consolidated financial statements for accounting policies and additional information regarding derivatives.

*Aircraft Fuel* The Company's earnings are substantially affected by changes in the price and availability of aircraft fuel. In order to provide a measure of control over price and supply, the Company trades and ships fuel and maintains fuel storage facilities to support its flight operations. The Company also manages the price risk of fuel costs primarily by using jet fuel and heating oil hedging contracts. Market risk is estimated as a hypothetical 10 percent increase in the December 31, 2010 and 2009 cost per gallon of fuel. Based on projected 2011 fuel usage, such an increase would result in an increase to Aircraft fuel expense of approximately \$444 million in 2011, inclusive of the impact of effective fuel hedge instruments outstanding at December 31, 2010, and assumes the Company's fuel hedging program remains effective. Such an increase would have resulted in an increase to projected Aircraft fuel expense of approximately \$445 million in 2010, inclusive of the impact of fuel hedge instruments outstanding at December 31, 2009. As of January 2011, the Company had cash flow hedges, with collars and options, covering approximately 35 percent of its estimated 2011 fuel requirements. Comparatively, as of December 31, 2009, the Company had hedged, with collars and options, approximately 24 percent of its estimated 2010 fuel requirements. The consumption hedged for 2011 by cash flow hedges is capped at an average price of approximately \$2.52 per gallon of jet fuel, and the Company's collars have an average floor price of approximately \$1.92 per gallon of jet fuel (both the capped and floor price exclude taxes and transportation costs). The Company's collars represent approximately 30 percent of its estimated 2011 fuel requirements. A deterioration of the Company's financial position could negatively affect the Company's ability to hedge fuel in the future.

Ineffectiveness is inherent in hedging jet fuel with derivative positions based in crude oil or other crude oil related commodities. The Company assesses, both at the inception of each hedge and on an ongoing basis, whether the derivatives that are used in its hedging transactions are highly effective in offsetting changes in cash flows of the hedged items. In doing so, the Company uses a regression model to determine the correlation of the change in prices of the commodities used to hedge jet fuel (e.g., NYMEX Heating oil) to the change in the price of jet fuel. The Company also monitors the actual dollar offset of the hedges' market values as compared to hypothetical jet fuel hedges. The fuel hedge contracts are generally deemed to be "highly effective" if the R-squared is greater than 80 percent and the dollar offset correlation is within 80 percent to 125 percent. The Company discontinues hedge accounting prospectively if it determines that a derivative is no longer expected to be highly effective as a hedge or if it decides to discontinue the hedging relationship.

*Foreign Currency* The Company is exposed to the effect of foreign exchange rate fluctuations on the U.S. dollar value of foreign currency-denominated operating revenues and expenses. The Company's largest exposure comes from the British pound, Euro, Canadian dollar, Japanese yen and various Latin American currencies. The Company does not currently have a foreign currency hedge program related to its foreign currency-denominated ticket sales. A uniform 10 percent strengthening in the value of the U.S. dollar from December 31, 2010 and 2009 levels relative to each of the currencies in which the Company has foreign currency exposure would result in a decrease in operating income of approximately \$170 million and \$136 million for the years ending December 31, 2010 and 2009, respectively, due to the Company's foreign-denominated revenues exceeding its foreign-denominated expenses. This sensitivity analysis was prepared based upon projected 2011 and 2010 foreign currency-denominated revenues and expenses as of December 31, 2010 and 2009, respectively.

On January 11, 2010, the Venezuelan Government devalued its currency from 2.15 bolivars per U.S. dollar to 4.30 bolivars per U.S. dollar and the currency was designated as hyperinflationary. As a result, the Company recognized a loss of \$53 million related to the currency remeasurement in January 2010. The Company does not expect any significant ongoing impact of the currency devaluation on its operations in Venezuela, but there can be no assurances to that effect.

*Interest* The Company's earnings are also affected by changes in interest rates due to the impact those changes have on its interest income from cash and short-term investments, and its interest expense from variable-rate debt instruments. The Company's largest exposure with respect to variable rate debt comes from changes in the London Interbank Offered Rate (LIBOR). The Company had variable rate debt instruments representing approximately 26 percent of its total long-term debt at December 31, 2010 and 2009. If the Company's interest rates average 10 percent more in 2011 than they did at December 31, 2010, the Company's interest expense would increase by approximately \$6 million and interest income from cash and short-term investments would increase by approximately \$3 million. In comparison, at December 31, 2009, the Company estimated that if interest rates averaged 10 percent more in 2010 than they did at December 31, 2009, the Company's interest expense would have increased by approximately \$7 million and interest income from cash and short-term investments would have increased by approximately \$1 million. These amounts are determined by considering the impact of the hypothetical interest rates on the Company's variable rate long-term debt and cash and short-term investment balances at December 31, 2010 and 2009.

Market risk for fixed rate long-term debt is estimated as the potential increase in fair value resulting from a hypothetical 10 percent decrease in interest rates and amounts to approximately \$167 million and \$227 million as of December 31, 2010 and 2009, respectively. The fair values of the Company's long-term debt were estimated using quoted market prices or discounted future cash flows based on the Company's incremental borrowing rates for similar types of borrowing arrangements.

**Report of Independent Registered Public Accounting Firm**

The Board of Directors and Stockholders  
American Airlines, Inc

We have audited the accompanying consolidated balance sheets of American Airlines, Inc as of December 31, 2010 and 2009, and the related consolidated statements of operations, stockholders' equity (deficit) and cash flows for each of the three years in the period ended December 31, 2010. Our audits also included the financial statement schedule listed in the Index at Item 15(a)(2). These consolidated financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of American Airlines, Inc. at December 31, 2010 and 2009 and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2010, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), American Airlines, Inc.'s internal control over financial reporting as of December 31, 2010, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 16, 2011 expressed an unqualified opinion thereon.

The accompanying notes are an integral part of these financial statements.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

**1. Summary of Accounting Policies**

*Basis of Presentation* American Airlines, Inc. (American or the Company) is a wholly-owned subsidiary of AMR Corporation (AMR). The consolidated financial statements as of and for the years ended December 31, 2010, 2009 and 2008 include the accounts of the Company and its wholly owned subsidiaries as well as VIEs for which the Company is the primary beneficiary. All significant intercompany transactions have been eliminated.

*New Accounting Pronouncements* In November of 2009, the FASB issued new guidance that significantly changes the accounting for revenue in arrangements with multiple deliverables by requiring entities to separately account for individual deliverables in more of these arrangements. The guidance removes the criterion that entities must use vendor-specific objective and reliable evidence of fair value when separately accounting for deliverables, allowing for the recognition of revenue in a manner that more closely aligns with the economics of certain arrangements based on management's estimate of the selling price. The standard must be applied prospectively to revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. In addition, the FASB significantly expanded the disclosures related to multiple deliverable revenue arrangements. Although the Company continues to evaluate the impact of the adoption of this standard on its consolidated financial statements, the Company believes the impact of adoption will not be material in 2011, but could have a significant impact on future results as new or materially modified revenue arrangements with certain partners are established in the normal course of business.

*Use of Estimates* The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the accompanying consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

*Restricted Cash and Short-term Investments* The Company has restricted cash and short-term investments related primarily to collateral held to support projected workers' compensation obligations.

*Inventories* Spare parts, materials and supplies relating to flight equipment are carried at average acquisition cost and are expensed when used in operations. Allowances for obsolescence are provided — over the estimated useful life of the related aircraft and engines — for spare parts expected to be on hand at the date aircraft are retired from service. Allowances are also provided for spare parts currently identified as excess and obsolete. These allowances are based on management estimates, which are subject to change.

*Maintenance and Repair Costs* Maintenance and repair costs for owned and leased flight equipment are charged to operating expense as incurred, except costs incurred for maintenance and repair under flight hour maintenance contract agreements, which are accrued based on contractual terms when an obligation exists.

*Intangible Assets* Route acquisition costs and airport operating and gate lease rights represent the purchase price attributable to route authorities (including international airport take-off and landing slots), domestic airport take-off and landing slots and airport gate leasehold rights acquired. Indefinite-lived intangible assets (route acquisition costs and international slots and related international take-off and landing slots) are tested for impairment annually on December 31, rather than amortized, or when a triggering event occurs, in accordance with U.S. GAAP. Such triggering events may include significant changes to the Company's network or capacity, or the implementation of open skies agreements in countries where the Company operates flights. Airport operating and gate lease rights are being amortized on a straight-line basis over 25 years to a zero residual value.

*Statements of Cash Flows* Short-term investments, without regard to remaining maturity at acquisition, are not considered as cash equivalents for purposes of the statements of cash flows.

*Measurement of Asset Impairments* The Company records impairment charges on long-lived assets used in operations when events and circumstances indicate that the assets may be impaired. An asset or group of assets is considered impaired when the undiscounted cash flows estimated to be generated by the asset are less than the carrying amount of the asset and the net book value of the asset exceeds its estimated fair value. In making these determinations, the Company uses certain assumptions, including, but not limited to: (i) estimated fair value of the

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

asset; and (ii) estimated future cash flows expected to be generated by the asset, which are based on additional assumptions such as asset utilization, length of service the asset will be used in the Company's operations and estimated salvage values.

*Equipment and Property* The provision for depreciation of operating equipment and property is computed on the straight-line method applied to each unit of property, except that major rotatable parts, avionics and assemblies are depreciated on a group basis. The depreciable lives used for the principal depreciable asset classifications are:

	<u>Depreciable Life</u>
American jet aircraft and engines	20 — 30 years
Other regional aircraft and engines	16 — 20 years
Major rotatable parts, avionics and assemblies	Life of equipment to which applicable
Improvements to leased flight equipment	Lesser of remaining lease term or expected useful life
Buildings and improvements (principally on leased land)	5 — 30 years or term of lease, including estimated renewal options when renewal is economically compelled at key airports
Furniture, fixtures and other equipment	3 — 10 years
Capitalized software	5 — 10 years

Residual values for aircraft, engines, major rotatable parts, avionics and assemblies are generally five to ten percent, except when guaranteed by a third party for a different amount.

Equipment and property under capital leases are amortized over the term of the leases or, in the case of certain aircraft, over their expected useful lives. Lease terms vary but are generally six to 25 years for aircraft and seven to 40 years for other leased equipment and property.

*Regional Affiliates* Revenue from ticket sales is generally recognized when service is provided. Regional Affiliates revenues for flights connecting to American flights are based on industry standard proration agreements.

*Passenger Revenue* Passenger ticket sales are initially recorded as a component of Air traffic liability. Revenue derived from ticket sales is recognized at the time service is provided. However, due to various factors, including the complex pricing structure and interline agreements throughout the industry, certain amounts are recognized in revenue using estimates regarding both the timing of the revenue recognition and the amount of revenue to be recognized, including breakage. These estimates are generally based upon the evaluation of historical trends, including the use of regression analysis and other methods to model the outcome of future events based on the Company's historical experience, and are recorded at the scheduled time of departure.

Various taxes and fees assessed on the sale of tickets to end customers are collected by the Company as an agent and remitted to taxing authorities. These taxes and fees have been presented on a net basis in the accompanying consolidated statement of operations and recorded as a liability until remitted to the appropriate taxing authority.

*Frequent Flyer Program* The estimated incremental cost of providing free travel awards is accrued for mileage credits earned by using American's service that are expected to be redeemed in the future. American also accrues a frequent flyer liability for the mileage credits that are expected to be used for travel on participating airlines based on historical usage patterns and contractual rates. American sells mileage credits and related services to companies participating in its frequent flyer program. The portion of the revenue related to the sale of mileage credits, representing the revenue for air transportation sold, is valued at fair value and is deferred and amortized over 28 months, which approximates the expected period over which the mileage credits are used. Breakage of sold miles is recognized over the estimated period of usage. The remaining portion of the revenue, representing the marketing services sold and administrative costs associated with operating the AAdvantage program, is recognized upon sale as a component of Other revenues, as the related services have been provided. The Company's total liability for

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

future AAdvantage award redemptions for free, discounted or upgraded travel on American, American Eagle or participating airlines as well as unrecognized revenue from selling AAdvantage miles was approximately \$1.4 billion (and is recorded as a component of Air traffic liability on the accompanying consolidated balance sheets) at December 31, 2010 and \$1.5 billion as of December 31, 2009.

*Income Taxes* The Company generally believes that the positions taken on previously filed income tax returns are more likely than not to be sustained by the taxing authorities. The Company has recorded income tax and related interest liabilities where the Company believes its position may not be sustained or where the full income tax benefit will not be recognized. Thus, the effects of potential income tax benefits resulting from the Company's unrecognized tax positions are not reflected in the tax balances of the financial statements. Recognized and unrecognized tax positions are reviewed and adjusted as events occur that affect the Company's judgment about the recognizability of income tax benefits, such as lapsing of applicable statutes of limitations, conclusion of tax audits, release of administrative guidance, or rendering of a court decision affecting a particular tax position.

*Advertising Costs* The Company expenses on a straight-line basis the costs of advertising as incurred throughout the year. Advertising expense was \$165 million for the year ended December 31, 2010, and \$153 million for the years ended December 31, 2009 and December 31, 2008.

*Subsequent Events* In connection with preparation of the consolidated financial statements and in accordance U.S. GAAP, the Company evaluated subsequent events after the balance sheet date of December 31, 2010 and determined that no additional disclosure to that presented in this Form 10-K was necessary.

**2. Special Charges and Restructuring Activities**

As a result of the revenue environment, high fuel prices and the Company's restructuring activities, including its capacity reductions, the Company has recorded a number of charges during the last few years. In 2008 and 2009, the Company announced capacity reductions due to unprecedented high fuel costs at that time and the other challenges facing the industry. In connection with these capacity reductions, the Company incurred special charges related to aircraft, employee reductions and certain other charges.

***Aircraft Charges***

As part of these capacity reductions, the Company grounded its leased Airbus A300 aircraft prior to lease expiration. In 2009, the Company incurred approximately \$94 million in net present value of future lease payments and lease return costs related to the grounding of the leased Airbus A300 fleet. The Company estimates that virtually all of these charges will result in future cash expenditures. Further, the Company also wrote down its owned Airbus A300 aircraft and related inventory to estimated salvage value in the fourth quarter of 2009, resulting in a non-cash expense of \$20 million. All Airbus A300 aircraft were permanently retired as of 2009.

In the fourth quarter of 2009, due to the continuing severe downturn in the global economy and weakness in the regional jet aircraft market, the Company's plan to sell certain of its Embraer RJ-135 aircraft was no longer feasible at the amount for which these aircraft had been valued. Consequently, the Company reclassified these aircraft from held for sale to held for use, tested them for impairment and concluded the carrying values of certain of its Embraer RJ-135 aircraft were no longer recoverable. Therefore, during the fourth quarter of 2009, the Company recorded an impairment charge of \$42 million to write these aircraft down to their estimated fair values. In addition, these aircraft will now resume depreciation prospectively. In determining the fair values of these aircraft, the Company considered recent transactions for sales of similar aircraft and the value of the underlying engines. No portion of the impairment charge will result in future cash expenditures. See Note 13 for further explanation of capacity purchase agreement and pass through of AMR Eagle expenses.

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

**Employee Charges**

In conjunction with the capacity reductions announced in 2008, the Company reduced its workforce commensurate with the announced system-wide capacity reductions. This reduction in workforce was accomplished through various measures, including voluntary programs, part-time work schedules, furloughs in accordance with collective bargaining agreements, and other reductions.

The following table summarizes the components of the Company's special charges, the remaining accruals for these charges and the capacity reduction related charges (in millions) as of December 31, 2010:

	Aircraft Charges	Facility Exit Costs	Employee Charges	Other	Total
Remaining accrual at January 1, 2008	\$ 124	\$ 18	\$ —	\$ —	\$ 142
Capacity reduction charges	1,117	—	68	25	1,210
Non-cash charges	(1,103)	—	—	(25)	(1,128)
Adjustments	1	(2)	—	—	(1)
Payments	(31)	—	(54)	—	(85)
Remaining accrual at December 31, 2008	\$ 108	\$ 16	\$ 14	\$ —	\$ 138
Capacity reduction charges	164	7	—	—	171
Non-cash charges	(68)	—	—	—	(68)
Adjustments	(2)	—	—	—	(2)
Payments	(49)	(3)	(14)	—	(66)
Remaining accrual at December 31, 2009	\$ 153	\$ 20	\$ —	\$ —	\$ 173
Non-cash charges	—	—	—	—	—
Adjustments	(8)	11	—	—	3
Payments	(86)	(4)	—	—	(90)
Remaining accrual at December 31, 2010	\$ 59	\$ 27	\$ —	\$ —	\$ 86

Cash outlays related to the accruals for aircraft charges and facility exit costs will occur through 2017 and 2018, respectively.

**Other**

On September 22, 2001, the Air Transportation Safety and System Stabilization Act (the Stabilization Act) was signed into law. The Stabilization Act provides that, notwithstanding any other provision of law, liability for all claims, whether compensatory or punitive, arising from the Terrorist Attacks, against any air carrier shall not exceed the liability coverage maintained by the air carrier. Based upon estimates provided by the Company's insurance providers, the Company initially recorded a liability of approximately \$2.3 billion for claims arising from the Terrorist Attacks, after considering the liability protections provided for by the Stabilization Act. The receivable and the liability, recorded in the accompanying consolidated balance sheet as Other assets and Other liabilities and deferred credits, respectively, was \$1.6 billion and \$1.7 billion at December 31, 2010 and 2009, respectively.

AMERICAN AIRLINES, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

**3. Investments and Fair Value Measurements**

Short-term investments consisted of (in millions):

	December 31,	
	2010	2009
Overnight investments, time deposits and Repurchase agreements	\$ 841	\$ 1,414
Corporate and bank notes	2,686	2,527
U. S. government agency mortgages	605	—
U.S. government agency notes	190	300
Commingled Funds		
	<u>\$ 4,322</u>	<u>\$ 4,241</u>

Short-term investments at December 31, 2010, by contractual maturity included (in millions):

Due in one year or less	\$ 2,603
Due between one year and three years	1,114
Due after three years	605
	<u>\$ 4,322</u>

All short-term investments are classified as available-for-sale and stated at fair value. Unrealized gains and losses are reflected as a component of Accumulated other comprehensive income (loss).

The Company utilizes the market approach to measure fair value for its financial assets and liabilities. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The Company's short-term investments classified as Level 2 primarily utilize broker quotes in a non-active market for valuation of these securities. The Company's fuel derivative contracts, which consist of commodity collars and calls, are valued using energy and commodity market data which is derived by combining raw inputs with quantitative models and processes to generate forward curves and volatilities. No changes in valuation techniques or inputs occurred during the year ended December 31, 2010.

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Assets and liabilities measured at fair value on a recurring basis are summarized below:

Description	Fair Value Measurements as of December 31, 2010			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2) (In millions)	Significant Unobservable Inputs (Level 3)
Short-term investments(1,2)				
Money market funds	\$ 194	\$ 194	\$ —	\$ —
Government agency investments	605	—	605	—
Repurchase investments	831	—	831	—
Short-term obligations	1,578	—	1,578	—
Corporate obligations	647	—	647	—
Bank notes/Certificates of deposit/Time deposits	467	—	467	—
	4,322	194	4,128	—
Restricted cash and short-term investments(1)				
Money market funds	450	450	—	—
Fuel derivative contracts(1)	269	—	269	—
<b>Total</b>	<b>\$ 5,041</b>	<b>\$ 644</b>	<b>\$ 4,397</b>	<b>\$ —</b>

(1) Unrealized gains or losses on short-term investments, restricted cash and short-term investments and derivatives qualifying for hedge accounting are recorded in Accumulated other comprehensive income (loss) (OCI) at each measurement date.

(2) The majority of the Company's short-term investments mature in one year or less except for \$467 million of Bank notes/Certificates of deposit/Time deposits, \$605 million of U.S. Government agency investments and \$647 million of Corporate obligations which have maturity dates exceeding one year.

No significant transfers between Level 1 and Level 2 occurred during the year ended December 31, 2010. The Company's policy regarding the recording of transfers between levels is to record any such transfers at the end of the reporting period.

**4. Commitments, Contingencies and Guarantees**

As of December 31, 2010, American had 15 Boeing 737-800 aircraft purchase commitments in 2011 and 28 Boeing 737-800 aircraft purchase commitments in 2012 and, in addition to those commitments, American had firm purchase commitments for eleven Boeing 737-800 aircraft and seven Boeing 777 aircraft scheduled to be delivered in 2013 through 2016. American also previously announced plans (subject to certain reconfirmation rights) to acquire 42 Boeing 787-9 aircraft, with the right to acquire an additional 58 Boeing 787-9 aircraft. American has selected GE Aviation as the exclusive provider of engines for its expected order of Boeing 787-9 aircraft.

As of December 31, 2010, payments for the above purchase commitments will approximate \$708 million in 2011, \$951 million in 2012, \$491 million in 2013, \$291 million in 2014, \$169 million in 2015 and \$79 million for 2016. These amounts are net of purchase deposits currently held by the manufacturers. American has granted Boeing a security interest in American's purchase deposits with Boeing. The Company's purchase deposits totaled \$355 million and \$608 million at December 31, 2010 and 2009, respectively.

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

On January 14, 2011, the Company entered into an amendment to Purchase Agreement No. 1980 with the Boeing Company to exercise rights to acquire two Boeing 777-300ER aircraft for delivery in 2012. The Company's total purchase commitments are expected to be approximately \$2.8 billion at the end of the first quarter 2011, reflecting this transaction and aircraft purchase deposits paid during that period.

On December 18, 2007, the European Commission issued a Statement of Objection (SO) against 26 airlines, including the Company. The SO alleges that these carriers participated in a conspiracy to set surcharges on cargo shipments in violation of European Union (EU) law. During 2010 the EU notified the Company it was dismissing its investigation against the Company.

On August 26, 2010, the Federal Aviation Administration (FAA) proposed a \$24.2 million civil penalty against American, claiming that American failed to properly perform certain portions of an FAA Airworthiness Directive concerning certain wiring to the McDonnell Douglas MD-80 aircraft auxiliary hydraulic pump. American plans to challenge the proposed civil penalty. The Company has concluded that the amount of the penalty, if any, that may be paid is not estimable at December 31, 2010.

The Company has contracts related to facility construction or improvement projects, primarily at airport locations. The contractual obligations related to these projects totaled approximately \$74 million as of December 31, 2010. The Company expects to make payments of \$60 million and \$5 million in 2011 and 2012, respectively. In addition, the Company has an information technology support related contract that requires minimum annual payments of \$100 million in 2011 and declining to \$70 million in 2014 through 2019.

American has a capacity purchase agreement with Chautauqua Airlines, Inc. to provide Embraer -140 regional jet services to certain markets under the brand AmericanConnection®. Under these arrangements, the Company pays the AmericanConnection® carrier a fee per block hour to operate the aircraft. The block hour fees are designed to cover the AmericanConnection® carrier's fully allocated costs plus a margin. Assumptions for certain costs such as fuel, landing fees, insurance, and aircraft ownership are trued up to actual values on a pass through basis. In consideration for these payments, the Company retains all passenger and other revenues resulting from the operation of the AmericanConnection® regional jets. Minimum payments under the contracts are \$56 million in 2011 and \$15 million in 2012. In addition, if the Company terminates the Chautauqua contract without cause, Chautauqua has the right to put its 15 Embraer aircraft to the Company. If this were to happen, the Company would take possession of the aircraft and become liable for lease obligations totaling approximately \$21 million per year with lease expirations in 2018 and 2019.

The Company is a party to many routine contracts in which it provides general indemnities in the normal course of business to third parties for various risks. The Company is not able to estimate the potential amount of any liability resulting from the indemnities. These indemnities are discussed in the following paragraphs.

In its aircraft financing agreements, the Company generally indemnifies the financing parties, trustees acting on their behalf and other relevant parties against liabilities (including certain taxes) resulting from the financing, manufacture, design, ownership, operation and maintenance of the aircraft regardless of whether these liabilities (or taxes) relate to the negligence of the indemnified parties.

The Company's loan agreements and other London Interbank Offered Rate (LIBOR)-based financing transactions (including certain leveraged aircraft leases) generally obligate the Company to reimburse the applicable lender for incremental costs due to a change in law that imposes (i) any reserve or special deposit requirement against assets of, deposits with or credit extended by such lender related to the loan, (ii) any tax, duty or other charge with respect to the loan (except standard income tax) or (iii) capital adequacy requirements. In addition, the Company's loan agreements, derivative contracts and other financing arrangements typically contain a withholding tax provision that requires the Company to pay additional amounts to the applicable lender or other financing party, generally if withholding taxes are imposed on such lender or other financing party as a result of a change in the applicable tax law.

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

These increased cost and withholding tax provisions continue for the entire term of the applicable transaction, and there is no limitation on the maximum additional amounts the Company could be obligated to pay under such provisions. Any failure to pay amounts due under such provisions generally would trigger an event of default and, in a secured financing transaction, would entitle the lender to foreclose on the collateral to realize the amount due.

In certain transactions, including certain aircraft financing leases and loans and derivative transactions, the lessors, lenders and/or other parties have rights to terminate the transaction based on changes in foreign tax law, illegality or certain other events or circumstances. In such a case, the Company may be required to make a lump sum payment to terminate the relevant transaction.

The Company has general indemnity clauses in many of its airport and other real estate leases where the Company as lessee indemnifies the lessor (and related parties) against liabilities related to the Company's use of the leased property. Generally, these indemnifications cover liabilities resulting from the negligence of the indemnified parties, but not liabilities resulting from the gross negligence or willful misconduct of the indemnified parties. In addition, the Company provides environmental indemnities in many of these leases for contamination related to the Company's use of the leased property.

Under certain contracts with third parties, the Company indemnifies the third party against legal liability arising out of an action by the third party, or certain other parties. The terms of these contracts vary and the potential exposure under these indemnities cannot be determined. The Company has liability insurance protecting the Company for some of the obligations it has undertaken under these indemnities.

AMR and American have event risk covenants in approximately \$1 billion of indebtedness and operating leases as of December 31, 2010. These covenants permit the holders of such obligations to receive a higher rate of return (between 100 and 600 basis points above the state rate) if a designated event, as defined, should occur and the credit ratings of such obligations are downgraded below certain levels within a certain period of time. No designated event, as defined, had occurred as of December 31, 2010.

The Company is involved in certain claims and litigation related to its operations. The Company is also subject to regulatory assessments in the ordinary course of business. AMR establishes reserves for litigation and regulatory matters when those matters present loss contingencies that are both probable and can be reasonably estimated. In the opinion of management, liabilities, if any, arising from these claims and litigation will not have a material adverse effect on the Company's consolidated financial position, results of operations, or cash flows, after consideration of available insurance.

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

**5. Leases**

American leases various types of equipment and property, primarily aircraft and airport facilities. The future minimum lease payments required under capital leases, together with the present value of such payments, and future minimum lease payments required under operating leases that have initial or remaining non-cancelable lease terms in excess of one year as of December 31, 2010, were (in millions):

Year Ending December 31,	Capital Leases	Operating Leases
2011	\$ 186	\$ 1,244
2012	136	1,059
2013	120	966
2014	98	825
2015	87	668
2016 and thereafter	349	6,004
	<u>\$ 976</u>	<u>\$ 10,766(1)</u>
Less amount representing interest	372	
Present value of net minimum lease payments	<u>\$ 604</u>	

(1) As of December 31, 2010, included in Accrued liabilities and Other liabilities and deferred credits on the accompanying consolidated balance sheet is approximately \$1.1 billion relating to rent expense being recorded in advance of future operating lease payments.

At December 31, 2010, the Company was operating 202 jet aircraft and 70 jet aircraft under capital leases. The aircraft leases can generally be renewed at rates based on fair market value at the end of the lease term for one to five years. Some aircraft leases have purchase options at or near the end of the lease term at fair market value, but generally not to exceed a stated percentage of the defined lessor's cost of the aircraft or a predetermined fixed amount.

During 2010, the Company financed 36 deliveries of Boeing 737-800 aircraft through sale leaseback transactions resulting in gains which are being amortized over the respective remaining lease terms. During 2009 non-recurring charges related to losses on certain sale leasebacks of vintage aircraft of \$88 million were realized and included in Other operating income.

Special facility revenue bonds have been issued by certain municipalities primarily to improve airport facilities and purchase equipment. To the extent these transactions were committed to prior to May 21, 1998, they are accounted for as operating leases under U.S. GAAP. Approximately \$1.5 billion of these bonds (with total future payments of approximately \$3.2 billion as of December 31, 2010) are guaranteed by American, AMR, or both. Approximately \$177 million of these special facility revenue bonds contain mandatory tender provisions that require American to make operating lease payments sufficient to repurchase the bonds at various times: \$112 million in 2014 and \$65 million in 2015. Although American has the right to remarket the bonds, there can be no assurance that these bonds will be successfully remarketed. Any payments to redeem or purchase bonds that are not remarketed would generally reduce existing rent leveling accruals or be considered prepaid facility rentals and would reduce future operating lease commitments. The special facility revenue bonds that contain mandatory tender provisions are listed in the table above at their ultimate maturity date rather than their mandatory tender provision date.

Rent expense, excluding landing fees, was \$1.4 billion, \$1.3 billion and \$1.3 billion in 2010, 2009 and 2008, respectively.

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

American has determined that it holds a significant variable interest in, but is not the primary beneficiary of, certain trusts that are the lessors under 83 of its aircraft operating leases. These leases contain a fixed price purchase option, which allows American to purchase the aircraft at a predetermined price on a specified date. However, American does not guarantee the residual value of the aircraft. As of December 31, 2010, future lease payments required under these leases totaled \$1.1 billion.

**6. Indebtedness**

Long-term debt consisted of (in millions):

	December 31,	
	2010	2009
Secured variable and fixed rate indebtedness due through 2021 (effective rates from 2.28% — 13.00% at December 31, 2010)	\$ 3,002	\$ 3,578
Enhanced equipment trust certificates due through 2019 (rates from 3.85% — 12.00% at December 31, 2010)	2,002	2,022
6.00% — 8.50% special facility revenue bonds due through 2036	1,641	1,658
AAdvantage Miles advance purchase (net of discount of \$110 million) (effective rate 8.30)%	890	890
Other	28	28
	7,563	8,176
Less current maturities	1,468	791
Long-term debt, less current maturities	<u>\$ 6,095</u>	<u>\$ 7,385</u>

Payments of long-term debt (including sinking fund requirements) for the next five years are: 2011 — \$2.1 billion; 2012 — \$1.4 billion; 2013 — \$710 million; 2014 — \$689 million, 2015 — \$444 million. The 2011 amount includes approximately \$600 million that was refinanced in January 2011 as described below and thus is excluded from current maturities.

As of December 31, 2010, AMR had issued guarantees covering approximately \$1.6 billion of American's tax-exempt bond debt (and interest thereon) and \$459 million of American's secured debt (and interest thereon). American had issued guarantees covering approximately \$887 million of AMR's unsecured debt (and interest thereon). In addition, as of December 31, 2010, AMR and American had issued guarantees covering approximately \$216 million of AMR Eagle's secured debt (and interest thereon). AMR also guarantees \$145 million of American's leases of certain Super ATR aircraft, which are subleased to AMR Eagle.

On January 25, 2011, American closed on a \$657 million Pass Through Trust Certificates (the Certificates). The equipment notes expected to be held by each pass through trust will be issued for each of (a) 15 Boeing 737-823 aircraft delivered new to American from 1999 to 2001, (b) six Boeing 757-223 aircraft delivered new to American in 1999 and 2001, (c) two Boeing 767-323ER aircraft delivered new to American in 1999 and (d) seven Boeing 777-223ER aircraft delivered new to American from 1999 to 2000. At closing, 27 of the aircraft were encumbered by either private mortgages or by liens to secure debt incurred in connection with the issuance of enhanced equipment trust certificates in 2001, all of which mature in 2011. As a result, the proceeds from the sale of the Certificates of each trust will initially be held in escrow with a depository, pending the financing of each aircraft under an indenture relating to the Certificates. Interest of 5.25% and 7.00% per annum on the issued and outstanding Series A equipment notes and Series B equipment notes, respectively, will be payable semiannually on January 31 and July 31 of each year, commencing on July 31, 2011, and principal on such equipment notes is scheduled for payment on January 31 and July 31 of certain years, commencing on July 31, 2011. The payment obligations of American under the equipment notes will be fully and unconditionally guaranteed by AMR Corporation.

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

In 2009, American entered into an arrangement under which Citibank paid to American \$1.0 billion in order to pre-purchase AAdvantage Miles (the Advance Purchase Miles) under American's AAdvantage frequent flier loyalty program (the Advance Purchase). Approximately \$890 million of the Advance Purchase proceeds is accounted for as a loan from Citibank with the remaining \$110 million recorded as Deferred Revenue in Other liabilities and deferred credits.

To effect the Advance Purchase, American and Citibank entered into an Amended and Restated AAdvantage Participation (as so amended and restated, the Amended Participation Agreement). Under the Amended Participation Agreement, American agreed that it would apply in equal monthly installments, over a five year period beginning on January 1, 2012, the Advance Purchase Miles to Citibank cardholders' AAdvantage accounts.

Pursuant to the Advance Purchase, Citibank has been granted a first-priority lien in certain of American's AAdvantage program assets, and a lien in certain of American's Heathrow and Narita routes and slots that would be subordinated to any subsequent first lien. Commencing on December 31, 2011, American has the right to repurchase, without premium or penalty, any or all of the Advance Purchase Miles that have not then been posted to Citibank cardholders' accounts. American is also obligated, in certain circumstances (including certain specified termination events under the Amended Participation Agreement, certain cross defaults and cross acceleration events, and if any Advance Purchase Miles remain at the end of the term) to repurchase for cash all of the Advance Purchase Miles that have not then been used by Citibank.

The Amended Participation Agreement includes provisions that grant Citibank the right to use Advance Purchase Miles on an accelerated basis under specified circumstances. American also has the right under certain circumstances to release, or substitute other comparable collateral for, the Heathrow and Narita route and slot related collateral.

During 2009, American closed a \$520 million Pass Through Trust Certificates (the Certificates) financing covering four Boeing 777-200ER aircraft owned by American and 16 of American's Boeing 737-800 deliveries. Equipment notes underlying the Certificates bear interest at 10.375 percent per annum and principal and interest on the notes are payable in semi-annual installments with a balloon payment at maturity in 2019. Approximately \$200 million of the proceeds from the sale of the Certificates were used by American during 2010 for the delivery and financing of Boeing 737-800 aircraft.

Also in 2009, American entered into a sale leaseback financing transaction with GECAS for Boeing 737-800 aircraft (the 2009 Sale Leaseback) delivered in 2010 and certain Boeing 737-800 aircraft deliveries scheduled to be delivered in 2011 for an aggregate commitment of \$1.6 billion. The 2009 sale leaseback is subject to certain terms and conditions, including a condition to the effect that, at the time of entering into the sale and leaseback of a particular Boeing 737-800 aircraft, American has at least a certain amount of unrestricted cash and short term investments.

Certain of the Company's debt financing agreements contain loan to value ratio covenants and require the Company to periodically appraise the collateral. Pursuant to such agreements, if the loan to value ratio exceeds a specified threshold, we may be required to subject additional qualifying collateral (which in some cases may include cash collateral) or, in the alternative, to pay down such financing, in whole or in part, with premium (if any).

Almost all of the Company's aircraft assets (including aircraft eligible for the benefits of Section 1110 of the U.S. Bankruptcy Code) are encumbered.

Cash payments for interest, net of capitalized interest, were \$627 million, \$537 million and \$612 million for 2010, 2009 and 2008, respectively.

**7. Financial Instruments and Risk Management**

*Fuel Price Risk Management* As part of the Company's risk management program, it uses a variety of financial instruments, primarily heating oil option and collar contracts, as cash flow hedges to mitigate commodity

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

price risk. The Company does not hold or issue derivative financial instruments for trading purposes. As of December 31, 2010, the Company had fuel derivative contracts outstanding covering 31 million barrels of jet fuel that will be settled over the next 24 months. A deterioration of the Company's liquidity position may negatively affect the Company's ability to hedge fuel in the future.

In accordance with U.S. GAAP, the Company assesses, both at the inception of each hedge and on an ongoing basis, whether the derivatives that are used in its hedging transactions are highly effective in offsetting changes in cash flows of the hedged items. Derivatives that meet the requirements are granted special hedge accounting treatment, and the Company's hedges generally meet these requirements. Accordingly, the Company's fuel derivative contracts are accounted for as cash flow hedges, and the fair value of the Company's hedging contracts is recorded in Current Assets or Current Liabilities in the accompanying consolidated balance sheets until the underlying jet fuel is purchased. The Company determines the ineffective portion of its fuel hedge contracts by comparing the cumulative change in the total value of the fuel hedge contract, or group of fuel hedge contracts, to the cumulative change in a hypothetical jet fuel hedge. If the total cumulative change in value of the fuel hedge contract more than offsets the total cumulative change in a hypothetical jet fuel hedge, the difference is considered ineffective and is immediately recognized as a component of Aircraft fuel expense. Effective gains or losses on fuel hedging contracts are deferred in Accumulated other comprehensive income (loss) and are recognized in earnings as a component of Aircraft fuel expense when the underlying jet fuel being hedged is used.

Ineffectiveness is inherent in hedging jet fuel with derivative positions based in crude oil or other crude oil related commodities. In assessing effectiveness, the Company uses a regression model to determine the correlation of the change in prices of the commodities used to hedge jet fuel (e.g., NYMEX Heating oil) to the change in the price of jet fuel. The Company also monitors the actual dollar offset of the hedges' market values as compared to hypothetical jet fuel hedges. The fuel hedge contracts are generally deemed to be "highly effective" if the R-squared is greater than 80 percent and dollar offset correlation is within 80 percent to 125 percent. The Company discontinues hedge accounting prospectively if it determines that a derivative is no longer expected to be highly effective as a hedge or if it decides to discontinue the hedging relationship. Subsequently, any changes in the fair value of these derivatives are marked to market through earnings in the period of change.

For the years ended December 31, 2010, 2009 and 2008, the Company recognized net gains (losses) of approximately (\$124) million, (\$591) million and \$344 million, respectively, as a component of Aircraft fuel expense on the accompanying consolidated statements of operations related to its fuel hedging agreements, including the ineffective portion of the hedges. The fair value of the Company's fuel hedging agreements at December 31, 2010 and 2009, representing the amount the Company would receive upon termination of the agreements, totaled \$257 million and \$57 million, respectively, which excludes a payable for both years related to contracts that settled in December of each year. As of December 31, 2010, the Company estimates that during the next twelve months it will reclassify from Accumulated other comprehensive loss into earnings approximately \$107 million in net gains (based on prices as of December 31, 2010) related to its fuel derivative hedges.

The impact of cash flow hedges on the Company's consolidated financial statements for the years ending December 31, 2010 and 2009, respectively, is depicted below (in millions):

Asset Derivatives as of December 31,				Liability Derivatives as of December 31,			
2010		2009		2010		2009

(1) Effective portion of gain (loss)

(2) Ineffective portion of gain (loss)

(3) Does not include expense allocated to AMR Eagle

The Company is also exposed to credit losses in the event of non-performance by counterparties to these financial instruments, and although no assurances can be given, the Company does not expect any of the counterparties to fail to meet its obligations. The credit exposure related to these financial instruments is represented by the fair value of contracts with a positive fair value at the reporting date, reduced by the effects of master netting agreements. To manage credit risks, the Company selects counterparties based on credit ratings, limits its exposure to a single counterparty under defined guidelines, and monitors the market position of the program and its relative market position with each counterparty. The Company also maintains industry-standard security agreements with a number of its counterparties which may require the Company or the counterparty to post collateral if the value of selected instruments exceed specified mark-to-market thresholds or upon certain changes in credit ratings.

As of December 31, 2010, the Company had received collateral of \$73 million which is included in short-term investments.

In addition to the Company's qualifying cash flow hedges, American has hedges that were effectively unwound in 2009 that were recorded as assets and liabilities on the balance sheet. Fair value of these offsetting positions not designated as hedges as of December 31, 2009 was a \$9 million asset recorded in Fuel derivative contracts and a \$9 million liability recorded in Fuel derivative liability. In January 2010, all of these contracts were settled with a net zero impact to the Company's financial statements.

*Fair Values of Financial Instruments* The fair values of the Company's long-term debt were estimated using quoted market prices where available. For long-term debt not actively traded, fair values were estimated using discounted cash flow analyses, based on the Company's current incremental borrowing rates for similar types of borrowing arrangements.

The carrying value and estimated fair values of the Company's long-term debt, including current maturities, were (in millions):

	December 31,			
	2010		2009	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Secured variable and fixed rate indebtedness	\$ 3,002	\$ 2,907	\$ 3,578	\$ 3,091
Enhanced equipment trust certificates	2,002	2,127	2,022	1,999

	<u>\$ 7,563</u>	<u>\$ 7,622</u>	<u>\$ 8,176</u>	<u>\$ 7,611</u>

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

**8. Income Taxes**

The Company has an unrecognized tax benefit of approximately \$5 million, which did not change during the twelve months ended December 31, 2010. Changes in the unrecognized tax benefit have no impact on the effective tax rate due to the existence of the valuation allowance. Accrued interest on tax positions is recorded as a component of interest expense but is not significant at December 31, 2010.

The reconciliation of the beginning and ending amounts of unrecognized tax benefit are (in millions):

	<u>2010</u>	<u>2009</u>
Unrecognized Tax Benefit at January 1	\$ 5	\$ 23
Decreases due to settlements with taxing authority	—	(18)
Unrecognized Tax Benefit at December 31	<u>\$ 5</u>	<u>\$ 5</u>

The Company estimates that the unrecognized tax benefit will not significantly change within the next twelve months.

The Company files its tax returns as prescribed by the tax laws of the jurisdictions in which it operates. The Company's 2004 through 2009 tax years are still subject to examination by the Internal Revenue Service. Various state and foreign jurisdiction tax years remain open to examination and the Company is under examination, in administrative appeals, or engaged in tax litigation in certain jurisdictions. The Company believes that the effect of any additional assessment(s) will be immaterial to its consolidated financial statements.

The significant components of the income tax provision (benefit) were (in millions):

	<u>Year Ended December 31,</u>		
	<u>2010</u>	<u>2009</u>	<u>2008</u>
Current	\$ (5)	\$ (35)	\$ —
Deferred	(30)	(248)	—
Income tax benefit	<u>\$ (35)</u>	<u>\$ (283)</u>	<u>\$ —</u>

The income tax expense (benefit) differed from amounts computed at the statutory federal income tax rate as follows (in millions):

	<u>Year Ended December 31,</u>		
	<u>2010</u>	<u>2009</u>	<u>2008</u>
Statutory income tax provision expense/(benefit)	\$ (177)	\$ (615)	\$ (886)
State income tax expense/(benefit), net of federal tax effect	(2)	(30)	(35)
Meal expense	6	6	6
Change in valuation allowance	127	588	955
Tax benefit resulting from OCI allocation	—	(248)	—
Other, net	11	16	(40)
Income tax benefit	<u>\$ (35)</u>	<u>\$ (283)</u>	<u>\$ —</u>

The change in the valuation allowance reflects the recording by the Company in 2010 and 2009 of an income tax expense credit of approximately \$30 million and \$35 million, respectively, resulting from the Company's anticipated election under applicable sections of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 and Section 3081 of the Housing and Economic Recovery Act of 2008 (as extended by the American Recovery and Reinvestment Act of 2009), allowing corporations to accelerate utilization of certain research and alternative minimum tax (AMT) credit carryforwards in lieu of applicable bonus depreciation on certain qualifying capital investments.

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

In addition to the changes in the valuation allowance from operations described in the table above, the valuation allowance was also impacted by the changes in the components of Accumulated other comprehensive income (loss), described in Note 12 to the consolidated financial statements. The total increase in the valuation allowance was \$120 million, \$126 million, and \$2.3 billion 2010, 2009, and 2008, respectively.

The Company recorded a \$248 million non-cash income tax benefit from continuing operations during the fourth quarter of 2009. Under current accounting rules, the Company is required to consider all items (including items recorded in other comprehensive income) in determining the amount of tax benefit that results from a loss from continuing operations and that should be allocated to continuing operations. As a result, the Company recorded a tax benefit on the loss from continuing operations for the year, which will be exactly offset by income tax expense on other comprehensive income. However, while the income tax benefit from continuing operations is reported on the income statement, the income tax expense on other comprehensive income is recorded directly to Accumulated other comprehensive income, which is a component of stockholders' equity. Because the income tax expense on other comprehensive income is equal to the income tax benefit from continuing operations, the Company's year-end net deferred tax position is not impacted by this tax allocation.

The Company provides a valuation allowance for deferred tax assets when it is more likely than not that some portion, or all of its deferred tax assets, will not be realized. In assessing the realizability of the deferred tax assets, management considers whether it is more likely than not that some portion, or all of the deferred tax assets, will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income (including reversals of deferred tax liabilities) during the periods in which those temporary differences will become deductible.

The components of AMR's deferred tax assets and liabilities were (in millions):

	December 31,	
	2010	2009
<b>Deferred tax assets:</b>		
Postretirement benefits other than pensions	\$ 1,054	\$ 966
Rent expense	265	329
Alternative minimum tax credit carryforwards	518	523
Operating loss carryforwards	2,072	2,057
Pensions	1,860	1,682
Frequent flyer obligation	628	638
Gains from lease transactions	39	57
Other	525	689
Total deferred tax assets	6,961	6,941
Valuation allowance	(3,653)	(3,533)
Net deferred tax assets	3,308	3,408
<b>Deferred tax liabilities:</b>		
Accelerated depreciation and amortization	(3,114)	(3,257)
Other	(169)	(151)
Total deferred tax liabilities	(3,283)	(3,408)
Net deferred tax asset	\$ 25	\$ —

At December 31, 2010, the Company had available for federal income tax purposes an alternative minimum tax credit carryforward of approximately \$518 million, which is available for an indefinite period, and federal net operating losses of approximately \$6.2 billion for regular tax purposes, which will expire, if unused, beginning in

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

2022. These net operating losses include an unrealized benefit of approximately \$666 million related to the implementation of share-based compensation accounting guidance that will be recorded in equity when realized. The Company had available for state income tax purposes net operating losses of \$3 billion, which expire, if unused, in years 2011 through 2027. The amount that will expire in 2011 is \$5 million.

Cash payments (refunds) for income taxes were (\$32) million, \$4 million and \$(11) million for 2010, 2009 and 2008, respectively.

Under special tax rules (the Section 382 Limitation), cumulative stock ownership changes among material shareholders exceeding 50 percent during a 3-year period can potentially limit a company's future use of net operating losses and tax credits (NOLs). The Section 382 Limitation may be increased by certain "built-in gains," as provided by current IRS guidance. Based on available information, the Company believes it is not currently subject to the Section 382 Limitation. If triggered under current conditions, the Section 382 Limitation is not expected to significantly impact the recorded value of deferred taxes or timing of utilization of the Company's NOLs.

#### **9. Share Based Compensation**

AMR grants, or has granted, stock compensation under three plans: the 1998 Long Term Incentive Plan (the 1998 Plan), the 2003 Employee Stock Incentive Plan (the 2003 Plan) and the 2009 Long Term Incentive Plan (the 2009 Plan). Collectively, the 1998 Plan and the 2009 Plan are referred to as the LTIP Plans.

Under the LTIP Plans, officers and key employees of AMR and its subsidiaries may be granted certain types of stock or performance based awards. At December 31, 2010, the Company had stock option awards, stock appreciation right (SAR) awards, performance share awards, deferred share awards and other awards outstanding under these plans. The total number of common shares authorized for distribution under the 1998 Plan and the 2009 Plan is 23,700,000 and 4,000,000 shares, respectively. The 1998 Plan expired by its terms in 2008.

AMR established the 2003 Plan to provide equity awards to employees. Under the 2003 Plan, employees may be granted stock options, restricted stock and deferred stock. At December 31, 2010, the Company had stock options and deferred awards outstanding under this plan. The total number of shares authorized for distribution under the 2003 Plan is 42,680,000 shares.

In 2010, 2009 and 2008 the total charge for share-based compensation expense included in Wages, salaries and benefits expense was \$49 million, \$61 million and \$49 million, respectively. In 2010, 2009 and 2008, the amount of cash used to settle equity instruments granted under share-based compensation plans was \$2 million, \$1 million and \$24 million, respectively.

*Stock Options/SARs* During 2006, the AMR Board of Directors approved an amendment covering all of the outstanding stock options previously granted under the 1998 Plan. The amendment added to each of the outstanding options an additional SAR in tandem with each of the then outstanding stock options. The addition of the SAR did not impact the fair value of the stock options, but simply allowed the Company to settle the exercise of the option by issuing the net number of shares equal to the in-the-money value of the option. This amendment is estimated to make available enough shares to permit the Company to settle all outstanding performance and deferred share awards under the 1998 Plan in stock rather than cash.

Options/SARs granted under the LTIP Plans and the 2003 Plan are awarded with an exercise price equal to the fair market value of the stock on date of grant, become exercisable in equal annual installments over periods ranging from three to five years and expire no later than ten years from the date of grant. Expense for the options is recognized on a straight-line basis. The fair value of each award is estimated on the date of grant using the modified Black-Scholes option valuation model and the assumptions noted in the following table. Expected volatilities are based on implied volatilities from traded options on AMR's stock, historical volatility of AMR's stock, and other factors. The Company uses historical employee exercise data to estimate the expected term of awards granted used

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

in the valuation model. The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant. The dividend yield is assumed to be zero based on AMR's history and expectation of not paying dividends.

	2010	2009	2008
Expected volatility	74.4% to 75.9%	73.6% to 76.7%	53.0% to 55.9%
Expected term (in years)	4.0	4.0	4.0
Risk-free rate	1.18% to 2.58%	2.33% to 2.46%	2.98% to 3.15%
Annual forfeiture rate	10.0%	10.0%	10.0%

A summary of stock option/SARs activity under the LTIP Plans and the 2003 Plan as of December 31, 2010, and changes during the year then ended is presented below:

	LTIP Plans		The 2003 Plan	
	Options/SARs	Weighted Average Exercise Price	Options	Weighted Average Exercise Price
Outstanding at January 1	15,892,528	\$ 19.02	13,526,670	\$ 5.66
Granted	3,165,950	7.07	—	—
Exercised	(100,366)	4.86	(211,575)	5.00
Forfeited or Expired	(3,573,824)	30.51	(106,712)	6.94
Outstanding at December 31	15,384,288	\$ 13.99	13,208,383	\$ 5.66
Exercisable at December 31	7,290,070	\$ 21.32	13,206,599	\$ 5.66
Weighted Average Remaining Contractual Term of Options Outstanding (in years)	6.2		2.4	
Aggregate Intrinsic Value of Options Outstanding	\$ 14,155,359		\$ 32,871,830	

The aggregate intrinsic value of all vested options/SARs is \$35 million and those options have an average remaining contractual life of 2.8 years. The weighted-average grant date fair value of options/SARs granted during 2010, 2009 and 2008 was \$3.97, \$2.54 and \$3.78, respectively. The total intrinsic value of options/SARs exercised during 2010, 2009 and 2008 was \$1 million, less than \$1 million and \$2 million, respectively.

A summary of the status of the Company's non-vested options/SARs under all plans as of December 31, 2010, and changes during the year ended December 31, 2010, is presented below:

	Options/SARs	Weighted Average Grant Date Fair Value
Outstanding at January 1	6,765,581	\$ 4.02
Granted	3,165,950	3.97
Vested	(1,743,271)	4.82
Forfeited	(92,258)	3.82
Outstanding at December 31	8,096,002	\$ 3.83

As of December 31, 2010, there was \$14 million of total unrecognized compensation cost related to non-vested stock options/SARs granted under the LTIP Plans and the 2003 Plan that is expected to be recognized over a weighted-average period of 3.4 years. The total fair value of stock options/SARs vested during the years ended December 31, 2010, 2009 and 2008, was \$10 million, \$9 million and \$9 million, respectively.

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Cash received by the Company from exercise of stock options for the years ended December 31, 2010, 2009 and 2008, was \$1 million for each of those years. No tax benefit was realized as a result of stock options/SARs exercised in 2010 due to the tax valuation allowance discussed in Note 8.

*Performance Share Awards* Performance share awards are granted under the LTIP Plans, generally vest pursuant to a three year measurement period and are settled on the vesting date. The number of awards ultimately issued under performance share awards is contingent on AMR's relative stock price performance compared to certain of its competitors over a three year period and can range from zero to 175 percent of the awards granted. The fair value of performance awards is calculated by multiplying the stock price on the date of grant by the expected payout percentage and the number of shares granted.

Activity during 2010 for performance awards accounted for as equity awards was:

	Awards	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at January 1	7,863,455		
Granted	3,057,630		
Settled	(324,462)		
Forfeited or Expired	(1,306,177)		
Outstanding at December 31	9,290,446	1.3	\$ 72,372,574

The aggregate intrinsic value represents the Company's current estimate of the number of shares (9,290,446 shares at December 31, 2010) that will ultimately be distributed for outstanding awards computed using the market value of AMR's common stock at December 31, 2010. The weighted-average grant date fair value per share of performance share awards granted during 2010, 2009, and 2008 was \$7.01, \$4.53 and \$8.20, respectively. The total fair value of equity awards settled during the year ended December 31, 2010 was \$2 million. As of December 31, 2010, there was \$23 million of total unrecognized compensation cost related to performance share awards that is expected to be recognized over a period of 1.7 years.

*Deferred Share Awards* The distribution of deferred share awards granted under the LTIP Plans is based solely on a requisite service period (generally 36 months). Career equity awards granted to certain employees of the Company vest upon the retirement of those individuals. The fair value of each deferred award is based on AMR's stock price on the measurement date.

Activity during 2010 for deferred awards accounted for as equity awards was:

	Shares	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at January 1	6,887,268		
Granted	2,722,330		
Settled	(628,270)		
Forfeited or Expired	(256,769)		
Outstanding at December 31	8,724,559	2.2	\$ 67,964,316

The weighted-average grant date fair value per share of deferred awards granted during 2010, 2009 and 2008 was \$7.05, \$4.57 and \$8.23, respectively. The total fair value of awards settled during the years ended December 31, 2010, 2009 and 2008 was \$3 million, \$3 million and \$6 million, respectively. As of December 31, 2010, there was \$27 million of total unrecognized compensation cost related to deferred awards that is expected to be recognized over a weighted average period of 2.6 years.

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

*Other Awards* As of December 31, 2010, certain performance share agreements and deferred share award agreements were accounted for as a liability, or as equity, as appropriate, in the consolidated balance sheet as the plans only permit settlement in cash or the awards required that the employee meet certain performance conditions which were not subject to market measurement. As a result, awards under these agreements are marked to current market value. As of December 31, 2010, the aggregate intrinsic value of these awards was \$4 million and the weighted average remaining contractual term of these awards was 2.8 years. The total fair value of awards settled during the years ended December 31, 2010, 2009 and 2008 was \$2 million, \$1 million, and \$24 million respectively. As of December 31, 2010, there was \$2 million of total unrecognized compensation cost related to other awards that is expected to be recognized over a weighted average period of 3.5 years.

**10. Retirement Benefits**

All employees of the Company may participate in pension plans if they meet the plans' eligibility requirements. The defined benefit plans provide benefits for participating employees based on years of service and average compensation for a specified period of time before retirement. The Company uses a December 31 measurement date for all of its defined benefit plans. American's pilots also participate in a defined contribution plan for which Company contributions are determined as a percentage (11 percent) of participant compensation. Certain non-contract employees (including all new non-contract employees) participate in a defined contribution plan in which the Company will match the employees' before-tax contribution on a dollar-for-dollar basis, up to 5.5 percent of their pensionable pay.

In addition to pension benefits, retiree medical and other postretirement benefits, including certain health care and life insurance benefits (which provide secondary coverage to Medicare), are provided to retired employees. The amount of health care benefits is limited to lifetime maximums as outlined in the plan. Certain employees of American and employees of certain other subsidiaries may become eligible for these benefits if they satisfy eligibility requirements during their working lives.

Certain employee groups make contributions toward funding a portion of their retiree health care benefits during their working lives. The Company funds benefits as incurred and makes contributions to match employee prefunding.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

At December 31, 2010 and 2009, pension benefit plan assets of \$264 million and \$145 million, respectively, and retiree medical and other benefit plan assets of \$232 million and \$204 million, respectively, were invested in shares of certain mutual funds.

The following tables provide the components of net periodic benefit cost for the years ended December 31, 2010, 2009 and 2008 (in millions):

	Pension Benefits		
	2010	2009	2008
Components of net periodic benefit cost			
Defined benefit plans:			
Service cost	\$ 366	\$ 333	\$ 324
Interest cost	737	712	684
Expected return on assets	(593)	(566)	(789)
Amortization of:			
Prior service cost	13	13	16
Settlement	—	—	103
Unrecognized net loss	154	145	3
Net periodic benefit cost for defined benefit plans	677	637	341
Defined contribution plans	152	153	156
	<u>\$ 829</u>	<u>\$ 790</u>	<u>\$ 497</u>

	Retiree Medical and Other Benefits		
	2010	2009	2008
Components of net periodic benefit cost			
Service cost	\$ 60	\$ 59	\$ 54
Interest cost	165	179	172
Expected return on assets	(18)	(14)	(20)
Amortization of:			
Prior service cost	(19)	(8)	(13)
Unrecognized net loss (gain)	(10)	(14)	(22)
Net periodic benefit cost	<u>\$ 178</u>	<u>\$ 202</u>	<u>\$ 171</u>

The estimated net loss and prior service cost for the defined benefit pension plans that will be amortized from Accumulated other comprehensive income into net periodic benefit cost over the next fiscal year are \$154 million and \$13 million, respectively. The estimated net gain and prior service credit for the retiree medical and other postretirement plans that will be amortized from Accumulated other comprehensive income into net periodic benefit cost over the next fiscal year are \$9 million and \$29 million, respectively.

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

	Pension Benefits		Retiree Medical and Other Benefits	
	2010	2009	2010	2009
Weighted-average assumptions used to determine net periodic benefit cost for the years ended December 31				
Discount rate	6.10%	6.50%	5.90%	6.50%
Salary scale (ultimate)	3.78	3.78	—	—
Expected return on plan assets	8.50	8.75	8.50	8.75

As of December 31, 2010, the Company's estimate of the long-term rate of return on plan assets was 8.50 percent based on the target asset allocation. Expected returns on longer duration bonds are based on yields to maturity of the bonds held at year-end. Expected returns on other assets are based on a combination of long-term historical returns, actual returns on plan assets achieved over the last ten years, current and expected market conditions, and expected value to be generated through active management, currency overlay and securities lending programs. The Company's annualized ten-year rate of return on plan assets as of December 31, 2010, was approximately 7.74 percent.

The objectives of the Company's investment policies are to: maintain sufficient income and liquidity to pay retirement benefits; produce a long-term rate of return that meets or exceeds the assumed rate of return for plan assets; limit the volatility of asset performance and funded status; and diversify assets among asset classes and investment managers.

Based on these investment objectives, a long-term strategic asset allocation has been established. This strategic allocation seeks to balance the potential benefit of improving funded position with the potential risk that the funded position would decline. The current strategic target asset allocation is as follows:

Asset Class/Sub — Class	Allowed Range
Equity	60% - 70%
Public:	
U.S. Value	18% - 33%
International Value	14% - 24%
Emerging Markets	5% - 11%
Alternative Investments	0% - 18%
Fixed Income	30% - 40%
U.S. Long Duration	30% - 40%
Other	0% - 5%
Cash Equivalents	0% - 5%

Each asset class is actively managed and, historically, the plans' assets have produced returns, net of management fees, in excess of the expected rate of return over the last ten years. Stocks and emerging market bonds are used to provide diversification and are expected to generate higher returns over the long-term than longer duration U.S. bonds. Public stocks are managed using a value investment approach in order to participate in the returns generated by stocks in the long-term, while reducing year-over-year volatility. Longer duration U.S. bonds are used to partially hedge the assets from declines in interest rates. Alternative (private) investments are used to provide expected returns in excess of the public markets over the long-term. Additionally, the Company engages currency overlay managers in an attempt to increase returns by protecting non-U.S. dollar denominated assets from a rise in the relative value of the U.S. dollar. The Company also participates in securities lending programs to generate additional income by loaning plan assets to borrowers on a fully collateralized basis. These programs are subject to market risk.

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Investments in securities traded on recognized securities exchanges are valued at the last reported sales price on the last business day of the year. Securities traded in the over-the-counter market are valued at the last bid price. The money market fund is valued at fair value which represents the net asset value of the shares of such fund as of the close of business at the end of the period. Investments in limited partnerships are carried at estimated net asset value as determined by and reported by the general partners of the partnerships and represent the proportionate share of the estimated fair value of the underlying assets of the limited partnerships. Common/collective trusts are valued at net asset value based on the fair values of the underlying investments of the trusts as determined by the sponsor of the trusts. The 103-12 investment trust is valued at net asset value which is determined by the issuer at the end of each month and is based on the aggregate fair value of trust assets less liabilities, divided by the number of units outstanding. No changes in valuation techniques or inputs occurred during the period.

The fair values of the Company's pension plan assets at December 31, 2010 and 2009, by asset category are as follows:

Asset Category	Fair Value Measurements at December 31, 2010			Total

<b>Total</b>	<b>\$ 4,078</b>	<b>\$ 2,897</b>	<b>\$ 798</b>	<b>\$ 7,773</b>

- (a) Holdings are diversified as follows: 20 percent United Kingdom, 14 percent Japan, 9 percent France, 8 percent Switzerland, 7 percent Germany, 5 percent Netherlands, 11 percent emerging markets and the remaining 26 percent with no concentration greater than 5 percent in any one country.
- (b) There are no significant concentration of holdings by company or industry.
- (c) Includes approximately 82 percent investments in corporate debt with a Standard and Poor's (S&P) rating lower than A and 18 percent investments in corporate debt with an S&P rating A or higher. Holdings include 81 percent U.S. companies, 16 percent international companies and 3 percent emerging market companies.

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

- (d) Includes approximately 87 percent investments in domestic government securities and 13 percent in emerging market government securities. There are no significant foreign currency risks within this classification.
- (e) Includes limited partnerships that invest primarily in U.S. (92%) and European (8%) buyout opportunities of a range of privately held companies. The Master Trust does not have the right to redeem its limited partnership investment at its net asset value. Instead, the Master Trust receives distributions as the underlying assets are liquidated. It is estimated that the underlying assets of these funds will be gradually liquidated over the next 1 to 10 years. Additionally, the Master Trust has future funding commitments of approximately \$389 million over the next 10 years.
- (f) Investment includes 64% in an emerging market 103-12 investment trust with investments in emerging country equity securities, 19% in Canadian segregated balanced value, income growth and diversified pooled funds and 17% in a common/collective trust investing in securities of smaller companies located outside the U.S., including developing markets. Requests for withdrawals must meet specific requirements with advance notice of redemption preferred.
- (g) Includes four interest rate swap agreements with notional value of \$760 million and fair value of (\$75) million representing 99% of the balance.

Ending balance at December 31, 2010	<u>\$ 795</u>	<u>\$ 3</u>

Changes in fair value measurements of Level 3 investments during the year ended December 31, 2009, were as follows:

	Private Equity Partnerships	Insurance Group Annuity Contracts
Beginning balance at December 31, 2008	\$ 613	\$ 3
Actual return on plan assets:		
Relating to assets still held at the reporting date	47	—
Relating to assets sold during the period	1	—
Purchases, sales, settlements (net)	83	—
Ending balance at December 31, 2009	<u>\$ 744</u>	<u>\$ 3</u>

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

The fair values of the Company's other postretirement benefit plan assets at December 31, 2010 by asset category were as follows:

Asset Category	Fair Value Measurements at December 31, 2010			Total
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2) (In millions)	Significant Unobservable Inputs (Level 3)	
Money market fund	\$ 4	\$ —	\$ —	\$ 4
Unitized mutual funds	—	230	—	230
Total	\$ 4	\$ 230	\$ —	\$ 234

The fair values of the Company's other postretirement benefit plan assets at December 31, 2009 by asset category were as follows:

Asset Category	Fair Value Measurements at December 31, 2009			Total
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2) (In millions)	Significant Unobservable Inputs (Level 3)	
Money market fund	\$ 4	\$ —	\$ —	\$ 4
Unitized mutual funds	—	202	—	202
Total	\$ 4	\$ 202	\$ —	\$ 206

Investments in the unitized mutual funds are carried at the per share net asset value and include approximately 27 percent of investments in non-U.S. common stocks in 2010 and approximately 25 percent of investments in non-U.S. common stocks in 2009. Net asset value is based on the fair market value of the funds' underlying assets and liabilities at the date of determination. Investments in the money market fund are valued at fair value which represents the net assets value of the shares of such fund as of the close of business at the end of the period.

	2010	2009
Assumed health care trend rates at December 31		
Health care cost trend rate assumed for next year	8.0%	7.0%
Rate to which the cost trend rate is assumed to decline (the ultimate trend rate)	4.5%	4.5%
Year that the rate reaches the ultimate trend rate	2018	2015

A one percentage point change in the assumed health care cost trend rates would have the following effects (in millions):

	One Percent Increase	One Percent Decrease
Impact on 2010 service and interest cost	22	(22)
Impact on postretirement benefit obligation as of December 31, 2010	235	(231)

The Company is required to make minimum contributions to its defined benefit pension plans under the minimum funding requirements of ERISA, the Pension Funding Equity Act of 2004 and the Pension Protection Act of 2006. The Company estimates its 2011 required contribution to its defined benefit pension plans to be approximately \$520 million under the provisions of these acts which reflects the Preservation of Access to Care for Medical Beneficiaries and Pension Relief Act of 2010 (the Relief Act), H.R. 3962. The Relief Act provides for

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

temporary, targeted funding relief (subject to certain terms and conditions) for single employer and multiemployer pension plans that suffered significant losses in asset value due to the steep market slide in 2008. Under the Relief Act, the Company's 2010 minimum required contribution to its defined benefit pension plans was reduced from \$525 million to approximately \$460 million.

The following benefit payments, which reflect expected future service as appropriate, are expected to be paid:

	<u>Pension</u>	<u>Retiree Medical and Other</u>
2011	574	173
2012	602	170
2013	665	169
2014	729	170
2015	785	173
2016 — 2020	4,959	989

During 2008, AMR recorded a settlement charge totaling \$103 million related to lump sum distributions from the Company's defined benefit pension plans to pilots who retired. Pursuant to U.S. GAAP, the use of settlement accounting is required if, for a given year, the cost of all settlements exceeds, or is expected to exceed, the sum of the service cost and interest cost components of net periodic pension expense for a plan. Under settlement accounting, unrecognized plan gains or losses must be recognized immediately in proportion to the percentage reduction of the plan's projected benefit obligation.

**11. Intangible Assets**

The Company has recorded international slot and route authorities of \$708 million and \$736 million as of December 31, 2010 and 2009, respectively. The Company considers these assets indefinite life assets and as a result, they are not amortized but instead are tested for impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. Such triggering events may include significant changes to the Company's network or capacity, or the implementation of open skies agreements in countries where the Company operates flights.

In the fourth quarter of 2010, the Company performed its annual impairment testing on international slots and routes, at which time the net carrying value was reassessed for recoverability. It was determined through this annual impairment testing that the fair value of certain international routes in Latin America was less than the carrying value. Thus, the Company incurred an impairment charge of \$28 million to write down the values of these and certain other slots and routes.

As there is minimal market activity for the valuation of routes and international slots and landing rights, the Company measures fair value with inputs using the income approach. The income approach uses valuation techniques, such as future cash flows, to convert future amounts to a single present discounted amount. The inputs utilized for these valuations are unobservable and reflect the Company's assumptions about market participants and what they would use to value the routes and accordingly are considered Level 3 in the fair value hierarchy. The Company's unobservable inputs are developed based on the best information available as of December 31, 2010.

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

	Cost	Accumulated Amortization	Net Book Value
<b>Amortized intangible assets:</b>			
Airport operating rights	\$ 447	\$ 271	\$ 176
Gate lease rights	182	122	60
Total	<u>\$ 629</u>	<u>\$ 393</u>	<u>\$ 236</u>

Airport operating and gate lease rights are being amortized on a straight-line basis over 25 years to a zero residual value. The Company recorded amortization expense related to these intangible assets of approximately \$28 million for each of the years ended December 31, 2010, 2009 and 2008, respectively. The Company expects to record annual amortization expense averaging approximately \$24 million in each of the next five years related to these intangible assets.

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

**12. Accumulated Other Comprehensive Income (Loss)**

The components of Accumulated other comprehensive income (loss) are as follows (in millions):

	Pension and Retiree Medical Liability	Unrealized Gain/(Loss) on Investments	Derivative Financial Instruments	Income Tax Benefit/ (Expense)	Total
Balance at January 1, 2008	\$ 288	\$ (2)	\$ 238	\$ 36	\$ 560
Current year change	(2,707)	(7)	—	—	(2,714)
Amortization of actuarial loss and prior service cost	(17)	—	—	—	(17)
Reclassification of derivative financial instruments into earnings	—	—	(378)	—	(378)
Change in fair value of derivative financial instruments	—	—	(738)	—	(738)
Balance at December 31, 2008	\$ (2,436)	\$ (9)	\$ (878)	\$ 36	\$ (3,287)
Current year change	(253)	6	—	—	(247)
Amortization of actuarial loss and prior service cost	136	—	—	—	136
Reclassification of derivative financial instruments into earnings	—	—	662	—	662
Non-cash tax provision	—	—	—	(248)	(248)
Change in fair value of derivative financial instruments	—	—	151	—	151
Balance at December 31, 2009	\$ (2,553)	\$ (3)	\$ (65)	\$ (212)	\$ (2,833)
Current year change	(385)	(1)	—	—	(386)
Amortization of actuarial loss and prior service cost	138	—	—	—	138
Reclassification of derivative financial instruments into earnings	—	—	144	—	144
Change in fair value of derivative financial instruments	—	—	72	—	72
Balance at December 31, 2010	\$ (2,800)	\$ (4)	\$ 151	\$ (212)	\$ (2,865)

As of December 31, 2010, the Company estimates that during the next twelve months it will reclassify from Accumulated other comprehensive loss into earnings approximately \$107 million in net gains (based on prices as of December 31, 2010) related to its fuel derivative hedges.

The difference between Net earnings (loss) and other comprehensive income (loss) for the twelve month periods ended December 31, 2010 and 2009 is due primarily to the accounting for the Company's derivative financial instruments and the actuarial loss on the pension benefit obligation of the Company's pension plans.

Amounts allocated to other comprehensive income for income taxes as further described in Note 8 will remain in Accumulated other comprehensive income until the Company ceases all related activities, such as termination of the pension plan.

**13. Transactions with Related Parties**

American invests funds, including funds of certain affiliates, if any, in a combined short-term investment portfolio and passes through interest income on such funds at the average rate earned on the portfolio. These amounts are classified as Payable to affiliate on the accompanying consolidated balance sheets.

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

American Airlines and AMR Eagle operate under a capacity purchase agreement. The capacity purchase agreement reflects what the Company believes are current market rates received by other regional carriers for similar flying. Amounts paid to AMR Eagle under the capacity purchase agreement are available to pay for various operating expenses of AMR Eagle, such as crew expenses, maintenance and aircraft ownership. As of December 31, 2010, AMR Eagle operated over 1,500 daily departures, offering scheduled passenger service to over 175 destinations in North America, Mexico and the Caribbean. On a separate company basis, AMR Eagle reported \$2.3 billion in revenue in 2010. However, this historical financial information is not indicative of what AMR Eagle's future revenues might be if AMR Eagle were a stand-alone entity.

In 2010 and 2009, American made payments to the AMR Eagle carriers of approximately \$2.2 billion and \$2.0 billion, respectively, related to the capacity purchase agreement. In addition, American incurred costs associated with generating Regional Affiliates revenue for flights on AMR Eagle of \$114 million and \$99 million in 2010 and 2009, respectively, recorded in Commissions, booking fees and credit card expense in the accompanying consolidated statements of operations. American also incurred other costs in connection with its affiliate relationship with AMR Eagle totaling approximately \$183 million and \$252 million in 2010 and 2009, respectively, primarily recorded in Other operating expenses in the accompanying consolidated statements of operations.

In consideration for certain services provided, the AMR Eagle carriers paid American approximately \$18 million in 2010, \$17 million in 2009 and \$17 million in 2008.

American recognizes compensation expense associated with certain AMR common stock-based awards for employees of American (see Note 9). In addition, American incurs pension and postretirement benefit expense for American employees working at affiliates of the Company. American transfers pension and postretirement benefit expense for these employees to its affiliates based on a percentage of salaries and cost per employee, respectively (see Note 10).

As of December 31, 2010, the Company had no receivable classified from its parent against paid-in-capital on the accompanying consolidated balance sheet.

**14. Segment Reporting**

The Company's operations of American and AMR Eagle are treated as an integrated route network and the route scheduling system maximizes the operating results of the Company. The Company's chief operating decision maker makes resource allocation decisions to maximize the Company's consolidated financial results. Based on the way the Company treats the network and the manner in which resource allocation decisions are made, the Company has only one operating segment for financial reporting purposes consisting of the operations of American and AMR Eagle.

American, AMR Eagle and the AmericanConnection® airline serve more than 250 cities in approximately 50 countries with, on average, 3,400 daily flights. The combined network fleet numbers approximately 900 aircraft. American is also one of the largest scheduled air freight carriers in the world, providing a wide range of freight and mail services to shippers throughout its system onboard American's passenger fleet. AMR Eagle owns two regional airlines, which do business as "American Eagle" — American Eagle Airlines, Inc. and Executive Airlines, Inc. The American Eagle® carriers provide service from throughout the U.S., Canada, Mexico and the Caribbean.

Revenues from other segments are below the quantitative threshold for determining reportable segments and consist primarily of revenues from American Beacon Advisors, Inc. (divested in 2008) and Americas Ground Services, Inc. The difference between the financial information of the Company's one reportable segment and the financial information included in the accompanying consolidated statements of operations and balance sheets as a result of these entities is not material.

AMERICAN AIRLINES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

The Company's operating revenues by geographic region (as defined by DOT) are summarized below (in millions):

	Year Ended December 31,		
	2010	2009	2008
DOT Domestic	\$ 13,062	\$ 11,955	\$ 14,065
DOT Latin America	4,619	4,114	4,927
DOT Atlantic	3,365	2,973	3,671
DOT Pacific	1,104	856	1,033
Total consolidated revenues	\$ 22,150	\$ 19,898	\$ 23,696

The Company attributes operating revenues by geographic region based upon the origin and destination of each flight segment. The Company's tangible assets consist primarily of flight equipment, which are mobile across geographic markets and, therefore, have not been allocated.

**15. Quarterly Financial Data (Unaudited)**

Unaudited summarized financial data by quarter for 2010 and 2009 (in millions):

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
<b>2010</b>				
Operating revenues	\$5,063	\$5,669	\$5,838	\$5,581
Operating income (loss)	(322)	160	291	23
Net earnings (loss)	(489)	(7)	129	(102)
<b>2009</b>				
Operating revenues	\$4,834	\$4,885	\$5,122	\$5,057
Operating income (loss)	(227)	(259)	(246)	(431)
Net earnings (loss)	(366)	(388)	(377)	(343)

The first, second and third quarter 2009 results include the impact of approximately \$13 million, \$70 million and \$94 million, respectively, in charges related to the sale leaseback of certain aircraft and the grounding of leased Airbus A300 aircraft prior to lease expiration.

The results for the fourth quarter of 2009 include an impairment charge of approximately \$138 million to write down certain route and slot authorities, primarily in Latin America, and certain Embraer RJ-135 aircraft to their estimated fair values, as well as \$30 million in charges associated with the grounding of the Airbus A300 fleet and the sale leaseback of certain aircraft. Also included in 2009 results is a \$248 million non-cash tax benefit resulting from the allocation of the tax expense to other comprehensive income items recognized during 2009.

The first quarter 2010 results include a loss of \$53 million related to a currency remeasurement due to the devaluation of Venezuelan currency from 2.15 bolivars per U.S. dollar to 4.30 bolivars per U.S. dollar.

The Company's fourth quarter 2010 performance includes an impairment charge of approximately \$28 million to write down certain route and slot authorities in Latin America.

**ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

None.

**ITEM 9A. CONTROLS AND PROCEDURES**

**Management's Evaluation of Disclosure Controls and Procedures**

The term "disclosure controls and procedures" is defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, or the Exchange Act. This term refers to the controls and procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the Securities and Exchange Commission. An evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the Company's disclosure controls and procedures as of December 31, 2010. Based on that evaluation, the Company's management, including the CEO and CFO, concluded that the Company's disclosure controls and procedures were effective as of December 31, 2010. During the quarter ending on December 31, 2010, there was no change in the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

**Management's Report on Internal Control over Financial Reporting**

Management of the Company is responsible for establishing and maintaining effective internal control over financial reporting as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2010 using the criteria set forth in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, management believes that, as of December 31, 2010, the Company's internal control over financial reporting was effective based on those criteria.

The effectiveness of internal control over financial reporting as of December 31, 2010, has been audited by Ernst & Young LLP, the independent registered public accounting firm who also audited the Company's consolidated financial statements. Ernst & Young LLP's attestation report on the effectiveness of the Company's internal control over financial reporting appears below.

**Report of Independent Registered Public Accounting Firm**

The Board of Directors and Shareholders  
American Airlines, Inc

We have audited American Airlines, Inc.'s internal control over financial reporting as of December 31, 2010, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). American Airlines, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying "Management's Report on Internal Control over Financial Reporting." Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based upon the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, American Airlines Inc. in all material respects, effective internal control over financial reporting as of December 31, 2010, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of American Airlines, Inc. as of December 31, 2010 and 2009, and the related consolidated statements of operations, stockholders' equity (deficit) and cash flows for each of the three years in the period ended December 31, 2010 of American Airlines, Inc. and our report dated February 16, 2011 expressed an unqualified opinion thereon.

/s/ Ernst & Young LLP

Dallas, Texas  
February 16, 2011

**PART III**

**ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT**

Omitted under the reduced disclosure format pursuant to General Instruction I(2)(c) of Form 10-K.

**ITEM 11. EXECUTIVE COMPENSATION**

Omitted under the reduced disclosure format pursuant to General Instruction I(2)(c) of Form 10-K.

**ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT**

Omitted under the reduced disclosure format pursuant to General Instruction I(2)(c) of Form 10-K.

**ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS**

Omitted under the reduced disclosure format pursuant to General Instruction I(2)(c) of Form 10-K.

**ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES**

The following table sets forth the aggregate fees paid to Ernst & Young for audit services rendered in connection with the consolidated financial statements and reports for fiscal years 2010 and 2009 and for other services rendered during fiscal years 2010 and 2009 on behalf of the Company and its subsidiaries, as well as all out-of-pocket costs incurred in connection with these services (amounts in thousands):

	<u>2010</u>	<u>2009</u>
Audit Fees	\$2,089	\$2,510
Audit Related Fees	1,043	842
Tax Fees	99	187
Total	<u>\$3,231</u>	<u>\$3,539</u>

*Audit Fees:* Consists of fees billed for professional services rendered for the audit of the Company's consolidated financial statements, the review of the interim condensed consolidated financial statements included in quarterly reports, services that are normally provided by Ernst & Young in connection with statutory and regulatory filings or engagements and attest services, except those not required by statute or regulation. In 2010 and 2009 this includes completion of the internal control audit required by Sarbanes-Oxley Section 404.

*Audit-Related Fees:* Consists of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of the Company's consolidated financial statements and are not reported under "Audit Fees". These services include employee benefit plan audits, accounting consultations and auditing work on proposed transactions, attest services that are not required by statute or regulation, and consultations concerning financial accounting and reporting standards.

*Tax Fees:* Consists of tax compliance/preparation and other tax services. Tax compliance/preparation consists of fees billed for professional services related to federal, state and international tax compliance, assistance with tax audits and appeals, expatriate tax services, and assistance related to the impact of mergers, acquisitions and divestitures on tax return preparation. Other tax services consist of fees billed for other miscellaneous tax consulting and planning.

**Audit Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditors**

The AMR Audit Committee pre-approves all audit and permissible non-audit services provided by Ernst & Young. These services may include audit services, audit-related services, tax services and other services. The Audit Committee has adopted a policy for the pre-approval of services provided by Ernst & Young. Under this policy, pre-approval is generally provided for up to one year and any pre-approval is detailed as to the particular service or category of services and includes an anticipated budget. In addition, the Committee may also pre-approve particular services on a case-by-case basis. The Audit Committee has delegated pre-approval authority to the Chair

of the Committee. Pursuant to this delegation, the Chair must report any pre-approval decision by him to the Committee at its first meeting after the pre-approval was obtained.

**EXECUTIVE TERMINATION BENEFITS AGREEMENT**

THIS EXECUTIVE TERMINATION BENEFITS AGREEMENT (this "Agreement"), dated as of the 25th day of March, 2008, is among AMR CORPORATION, a Delaware corporation, AMERICAN AIRLINES, INC., a Delaware corporation (collectively the "Company"), and ISABELLA D. GOREN (the "Executive").

**WITNESSETH:**

WHEREAS, the Company considers it essential to the best interests of the Company and its stockholders that its management be encouraged to remain with the Company and to continue to devote full attention to the Company's business in the event an effort is made to obtain control of the Company through a tender offer or otherwise;

WHEREAS, the Company recognizes that the possibility of a change in control and the uncertainty and questions which it may raise among management may result in the departure or distraction of management personnel to the detriment of the Company and its stockholders;

WHEREAS, the Company's Board of Directors (the "Board") has determined that appropriate steps should be taken to reinforce and encourage the continued attention and dedication of members of the Company's management to their assigned duties without distraction in the face of the potentially disturbing circumstances arising from the possibility of a change in control of the Company;

WHEREAS, the Executive is a key executive of the Company;

WHEREAS, the Company believes the Executive has made valuable contributions to the productivity and profitability of the Company;

WHEREAS, should the Company receive any proposal from a third person concerning a possible business combination with or acquisition of equity securities of the Company, the Board believes it imperative that the Company and the Board be able to rely upon the Executive to continue in his position, and that the Company be able to receive and rely upon his advice as to the best interests of the Company and its stockholders without concern that he might be distracted by the personal uncertainties and risks created by such a proposal; and

WHEREAS, should the Company receive any such proposals, in addition to the Executive's regular duties, he may be called upon to assist in the assessment of such proposals, advise management and the Board as to whether such proposals would be in the best interests of the Company and its stockholders, and to take such other actions as the Board might determine to be appropriate.

---

NOW, THEREFORE, to assure the Company that it will have the continued undivided attention and services of the Executive and the availability of his advice and counsel notwithstanding the possibility, threat or occurrence of a bid to take over control of the Company, and to induce the Executive to remain in the employ of the Company, and for other good and valuable consideration, the Company and the Executive agree as follows:

1. Change in Control

For purposes of this Agreement, a Change in Control of the Company shall be deemed to have taken place if:

(a) any person as defined in Section 3(a)(9) of the Securities Exchange Act of 1934, as amended from time to time (the "Exchange Act"), and as used in Sections 13(d) and 14(d) thereof, including a "group" as defined in Section 13(d) of the Exchange Act (a "Person"), but excluding the Company, any subsidiary of the Company and any employee benefit plan sponsored or maintained by the Company or any subsidiary of the Company (including any trustee of such plan acting as trustee), directly or indirectly, becomes the "beneficial owner" (as defined in Rule 13(d)-3 under the Exchange Act, as amended from time to time) of securities of the Company representing 15% or more of the combined voting power of the Company's then outstanding securities; or

(b) individuals who, as of the date hereof, constitute the Board (the "Incumbent Board") cease for any reason to constitute at least a majority of the Board; provided, however, that any individual becoming a director subsequent to the date hereof whose election, or nomination for election by the Company's stockholders, was approved by a vote of at least a majority of the directors then comprising the Incumbent Board shall be considered as though such individual were a member of the Incumbent Board, but excluding, for this purpose, any such individual whose initial assumption of office occurs as a result of an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies or consents by or on behalf of a Person other than the Board; or

(c) consummation of a reorganization, merger or consolidation or sale or other disposition of all or substantially all of the assets of the Company or the acquisition of the assets of another corporation (a "Business Combination"), in each case, unless, following such Business Combination, (i) all or substantially all of the individuals and entities who were the beneficial owners, respectively, of the then outstanding shares of common stock of the Company and the combined voting power of the then outstanding voting securities of the Company entitled to vote generally in the election of directors immediately prior to such Business Combination beneficially own, directly or indirectly, more than 60% of, respectively, the then outstanding shares of common stock and the combined voting power of the then outstanding voting securities entitled to vote generally in the election of directors, as the case may be, of the corporation resulting from such Business Combination (including, without limitation, a corporation which as a result of

such transaction owns the Company or all or substantially all of the Company's assets either directly or through one or more subsidiaries), (ii) no Person (excluding any employee benefit plan (or related trust) of the Company or such corporation resulting from such Business Combination) beneficially owns, directly or indirectly, 15% or more of, respectively, the then outstanding shares of common stock of the corporation resulting from such Business Combination or the combined voting power of the then outstanding voting securities of such corporation except to the extent that such ownership existed prior to the Business Combination, and (iii) at least a majority of the members of the board of directors of the corporation resulting from such Business Combination were members of the Incumbent Board at the time of the execution of the initial agreement, or of the action of the Incumbent Board, providing for such Business Combination; or

(d) approval by the stockholders of the Company of a complete liquidation or dissolution of the Company.

## 2. Circumstances Triggering Receipt of Severance Benefits

(a) Subject to Section 2(c), the Company will provide the Executive with the benefits set forth in Section 4 upon any termination of the Executive's employment:

(i) by the Company at any time within the first 24 months after a Change in Control;

(ii) by the Company or the Executive for "Good Reason" (as defined in Section 2(b) below) at any time within the first 24 months after a Change in Control; or

(iii) by the Company or the Executive pursuant to Section 2(d).

(b) In the event of the occurrence of a Change in Control, the Executive may terminate employment with the Company and/or any subsidiary for "Good Reason" with the right to benefits set forth in Section 4 upon the occurrence of one or more of the following events (regardless of whether any other reason, other than Cause as provided below, for such termination exists or has occurred, including without limitation other employment):

(i) Failure to elect or reelect or otherwise to maintain the Executive in the office or the position, or a substantially equivalent office or position, of or with the Company and/or a subsidiary, as the case may be, which the Executive held immediately prior to a Change in Control, or the removal of the Executive as a director of the Company and/or a subsidiary (or any successor thereto) if the Executive shall have been a director of the Company and/or a subsidiary immediately prior to the Change in Control;

(ii) (A) A significant adverse change in the nature or scope of the authorities, powers, functions, responsibilities or duties attached to the position with the Company and/or any subsidiary which the Executive held immediately prior to the Change in Control, (B) a reduction in the aggregate of the Executive's annual base salary rate and annual incentive compensation target to be received from the Company and/or any subsidiary, or (C) the termination or denial of the Executive's rights to Employee Benefits (as defined below) or a reduction in the scope or value thereof, any of which is not remedied by the Company within 10 calendar days after receipt by the Company of written notice from the Executive of such change, reduction or termination, as the case may be;

(iii) A determination by the Executive (which determination will be conclusive and binding upon the parties hereto provided it has been made in good faith and in all events will be presumed to have been made in good faith unless otherwise shown by the Company by clear and convincing evidence) that a change in circumstances has occurred following a Change in Control, including, without limitation, a change in the scope of the business or other activities for which the Executive was responsible immediately prior to the Change in Control, which has rendered the Executive substantially unable to carry out, has substantially hindered Executive's performance of, or has caused the Executive to suffer a substantial reduction in, any of the authorities, powers, functions, responsibilities or duties attached to the position held by the Executive immediately prior to the Change in Control, which situation is not remedied within 10 calendar days after written notice to the Company from the Executive of such determination;

(iv) The liquidation, dissolution, merger, consolidation or reorganization of the Company or transfer of all or substantially all of its business and/or assets, unless the successor or successors (by liquidation, merger, consolidation, reorganization, transfer or otherwise) to which all or substantially all of its business and/or assets have been transferred (directly or by operation of law) assumed all duties and obligations of the Company under this Agreement pursuant to Section 9(a);

(v) The Company relocates its principal executive offices, or requires the Executive to have his principal location of work changed, to any location that is in excess of 50 miles from the location thereof immediately prior to the Change in Control, or requires the Executive to travel away from his office in the course of discharging his responsibilities or duties hereunder at least 20% more (in terms of aggregate days in any calendar year or in any calendar quarter when annualized for purposes of comparison to any prior year) than was required of Executive in any of the three full years immediately prior to the Change in Control without, in either case, his prior written consent; or

(vi) Without limiting the generality or effect of the foregoing, any material breach of this Agreement by the Company or any successor thereto, which breach is not remedied within 10 calendar days after written notice to the Company from the Executive describing the nature of such breach.

(c) Notwithstanding Sections 2(a) and (b) above, no benefits shall be payable by reason of this Agreement in the event of:

(i) Termination of the Executive's employment with the Company and its subsidiaries by reason of the Executive's death or Disability, provided that the Executive has not previously given a valid "Notice of Termination" pursuant to Section 3. For purposes hereof, "Disability" shall be defined as the inability of Executive due to illness, accident or other physical or mental disability to perform his duties for any period of six consecutive months or for any period of eight months out of any 12-month period, as determined by an independent physician selected by the Company and reasonably acceptable to the Executive (or his legal representative), provided that the Executive does not return to work on substantially a full-time basis within 30 days after written notice from the Company, pursuant to Section 3, of an intent to terminate the Executive's employment due to Disability;

(ii) Termination of the Executive's employment with the Company and its subsidiaries on account of the Executive's retirement at or after age 65, pursuant to the Company's Retirement Benefit Plan; or

(iii) Termination of the Executive's employment with the Company and its subsidiaries for Cause. For the purposes hereof, "Cause" shall be defined as a felony conviction of the Executive or the failure of the Executive to contest prosecution for a felony, or the Executive's willful misconduct or dishonesty, any of which is directly and materially harmful to the business or reputation of the Company or any subsidiary or affiliate. Notwithstanding the foregoing, the Executive shall not be deemed to have been terminated for "Cause" hereunder unless and until there shall have been delivered to the Executive a copy of a resolution duly adopted by the affirmative vote of not less than three quarters of the Board then in office at a meeting of the Board called and held for such purpose, after reasonable notice to the Executive and an opportunity for the Executive, together with his counsel (if the Executive chooses to have counsel present at such meeting), to be heard before the Board, finding that, in the good faith opinion of the Board, the Executive had committed an act constituting "Cause" as herein defined and specifying the particulars thereof in detail. Nothing herein will limit the right of the Executive or his beneficiaries to contest the validity or propriety of any such determination.

This Section 2(c) shall not preclude the payment of any amounts otherwise payable to the Executive under any of the Company's employee benefit plans, stock plans, programs and arrangements and/or under any Employment Agreement.

(d) Any termination of employment of the Executive, including a termination for "Good Reason," but excluding a termination for "Cause," or the removal of the Executive from the office or position in the Company or any subsidiary that occurs (i) not more than 180 days prior to the date on which a Change in Control occurs and (ii) following the commencement of any discussion with a third person that ultimately results in a Change in Control shall be deemed to be a termination or removal of the Executive after a Change in Control for purposes of this Agreement.

3. Notice of Termination

Any termination of the Executive's employment with the Company and its subsidiaries as contemplated by Section 2 shall be communicated by written "Notice of Termination" to the other party hereto. Any "Notice of Termination" shall indicate the effective date of termination which shall not be less than 30 days or more than 60 days after the date the Notice of Termination is delivered (the "Termination Date"), the specific provision in this Agreement relied upon, and will set forth in reasonable detail the facts and circumstances claimed to provide a basis for such termination including, if applicable, the failure after provision of written notice by the Executive to effect a remedy pursuant to the final clause of Section 2(b)(ii), 2(b)(iii) or 2(b)(vi).

4. Termination Benefits

Subject to the conditions set forth in Section 2, the following benefits shall be paid or provided to the Executive:

(a) Compensation

The Company shall pay to the Executive two times the sum of (i) "Base Pay", which shall be an amount equal to the greater of (A) the Executive's effective annual base salary at the Termination Date or (B) the Executive's effective annual base salary immediately prior to the Change in Control, plus (ii) "Incentive Pay" equal to the greater of (x) the target annual bonus payable to the Executive under the Company's Incentive Compensation Plan or any other annual bonus plan for the fiscal year of the Company in which the Change in Control occurred or (y) the highest annual bonus earned by the Executive under the Company's Incentive Compensation Plan or any other annual bonus plan (whether paid currently or on a deferred basis) with respect to any 12 consecutive month period during the three fiscal years of the Company immediately preceding the fiscal year of the Company in which the Change in Control occurred.

(b) Welfare Benefits

For a period of 24 months following the Termination Date (the "Continuation Period"), the Company shall arrange to provide the Executive with benefits, including travel accident, major medical, dental, vision care and other welfare benefit programs in effect immediately prior to the Change in Control ("Employee Benefits") substantially similar to those that the Executive was receiving or entitled to receive immediately prior to the Termination Date (or, if greater, immediately prior to the reduction, termination, or denial described in Section 2(b)(ii)(C)). If and to the extent that any benefit described in this Section 4(b) is not or cannot be paid or provided under any policy, plan, program or arrangement of the Company or any subsidiary, as the case may be, then the Company will itself pay or provide for the payment to the Executive, his dependents and beneficiaries, of such Employee Benefits along with, in the case of any benefit which is subject to tax because it is not or cannot be paid or provided under any such policy, plan, program or arrangement of the Company or any subsidiary, an additional amount such that after payment by the Executive, or his dependents or beneficiaries, as the case may be, of all taxes so imposed, the recipient retains an amount equal to such taxes. Employee Benefits otherwise receivable by the Executive pursuant to this Section 4(b) will be reduced to the extent comparable welfare benefits are actually received by the Executive from another employer during the Continuation Period, and any such benefits actually received by the Executive shall be reported by the Executive to the Company.

(c) Retirement Benefits

The Executive shall be deemed to be completely vested in Executive's currently accrued benefits under the Company's Retirement Benefit Plan and Supplemental Executive Retirement Plan ("SERP") in effect as of the date of Change in Control (collectively, the "Plans"), regardless of his actual vesting service credit thereunder. In addition, the Executive shall be deemed to earn service credit for benefit calculation purposes thereunder for the Continuation Period. Benefits under the Plans will become payable at any time designated by the Executive following termination of the Executive's employment with the Company and its subsidiaries after the Executive reaches age 55, subject to the terms of the Plans regarding the actuarial adjustment of benefit payments commencing prior to normal retirement age. The benefits to be paid pursuant to the Plans shall be calculated as though the Executive's compensation rate for each of the five years immediately preceding his retirement equaled the sum of Base Pay plus Incentive Pay. Any benefits payable pursuant to this Section 4(c) that are not payable out of the Plans for any reason (including but not limited to any applicable benefit limitations under the Employee Retirement Income Security Act of 1974, as amended, or any restrictions relating to the qualification of the Company's Retirement Benefit Plan under Section 401(a) of the Internal Revenue Code of 1986, as amended (the "Code")) shall be paid directly by the Company out of its general assets.

(d) Relocation Benefits

If the Executive moves his residence in order to pursue other business or employment opportunities during the Continuation Period and requests in writing that the Company provide relocation services, he will be reimbursed for any expenses incurred in that initial relocation (including taxes payable on the reimbursement) which are not reimbursed by another employer. Benefits under this provision will include assistance in selling the Executive's home and all other assistance and benefits which were customarily provided by the Company to transferred executives prior to the Change in Control.

(e) Executive Outplacement Counseling

At the request of the Executive made in writing during the Continuation Period, the Company shall engage an outplacement counseling service of national reputation to assist the Executive in obtaining employment.

(f) Stock Based Compensation Plans

(i) Any issued and outstanding Stock Options (to the extent they have not already become exercisable) shall become exercisable as of the date on which the Change in Control occurs, unless otherwise specifically provided at the time such options are granted.

(ii) The Company's right to rescind any award of stock to the Executive under the Company's 1988 Long Term Incentive Plan or the Company's 1998 Long Term Incentive Plan (or any successor plan) shall terminate upon a Change in Control, and all restrictions on the sale, pledge, hypothecation or other disposition of shares of stock awarded pursuant to such plan shall be removed at the Termination Date, unless otherwise specifically provided at the time such award(s) are made.

(iii) The Executive's rights under any other stock based compensation plan shall vest (to the extent they have not already vested) and any performance criteria shall be deemed met at target as of the date on which a Change in Control occurs, unless otherwise specifically provided at the time such right(s) are granted.

(g) Split Dollar Life Insurance

The Company shall pay to the Executive a lump sum equal to the cost on the Termination Date of purchasing, at standard independent insurance premium rates, an individual paid up insurance policy providing benefits equal to the benefits provided by the Company's Split Dollar Life Insurance coverage immediately prior to the date of the Change in Control.

(h) Other Benefits

(i) The Executive shall have all flight privileges provided by the Company to Directors as of the date of Change in Control until the Executive reaches age 55, at which time he shall have all flight privileges provided by the Company to its retirees who held the same or similar position as the Executive immediately prior to the Change in Control.

(ii) The Executive, at the Executive's option, shall be entitled to continue the use of the Executive's Company-provided automobile during the Continuation Period under the same terms that applied to the automobile immediately prior to the Change in Control, or to purchase the automobile at its book value as of the Termination Date.

(iii) The Company shall pay to the Executive an amount equal to the cost to the Company of providing any other perquisites and benefits of the Company in effect immediately prior to the Change in Control, calculated as if such benefits were continued during the Continuation Period.

(i) Accrued Amounts

The Company shall pay to the Executive all other amounts accrued or earned by the Executive through the Termination Date and amounts otherwise owing under the then existing plans and policies of the Company, including but not limited to all amounts of compensation previously deferred by the Executive (together with any accrued interest thereon) and not yet paid by the Company, and any accrued vacation pay not yet paid by the Company.

(j) The Company shall pay to the Executive the amounts due pursuant to Sections 4(a), 4(g) and 4(h)(iii) in a lump sum on the first business day of the month following the Termination Date. The Company shall pay to the Executive the amounts due pursuant to Section 4(i) in accordance with the terms and conditions of the existing plans and policies of the Company.

5. No Mitigation Obligation

The Company hereby acknowledges that it will be difficult and may be impossible for the Executive to find reasonably comparable employment following the Termination Date. Accordingly, the payment of the severance compensation by the Company to the Executive in accordance with the terms of this Agreement is hereby acknowledged by the Company to be reasonable, and the Executive will not be required to mitigate the amount of any payment provided for in this Agreement by seeking other employment or otherwise, nor will any profits, income, earnings or other benefits from

any source whatsoever create any mitigation, offset, reduction or any other obligation on the part of the Executive hereunder or otherwise, except as expressly provided in the last sentence of Section 4(b).

**6. Legal Fees and Expenses**

(a) It is the intent of the Company that the Executive not be required to incur legal fees and the related expenses associated with the interpretation, enforcement or defense of Executive's rights under this Agreement by litigation or otherwise because the cost and expense thereof would substantially detract from the benefits intended to be extended to the Executive hereunder. Accordingly, if it should appear to the Executive that the Company has failed to comply with any of its obligations under this Agreement or in the event that the Company or any other person takes or threatens to take any action to declare this Agreement void or unenforceable, or institutes any litigation or other action or proceeding designed to deny, or to recover from, the Executive any or all of the benefits provided or intended to be provided to the Executive hereunder, the Company irrevocably authorizes the Executive from time to time to retain counsel of Executive's choice, at the expense of the Company as hereafter provided, to advise and represent the Executive in connection with any such interpretation, enforcement or defense, including without limitation the initiation or defense of any litigation or other legal action, whether by or against the Company or any director, officer, stockholder or other person affiliated with the Company, in any jurisdiction. Notwithstanding any existing or prior attorney-client relationship between the Company and such counsel, the Company irrevocably consents to the Executive's entering into an attorney-client relationship with such counsel, and in that connection the Company and the Executive agree that a confidential relationship shall exist between the Executive and such counsel. Without respect to whether the Executive prevails, in whole or in part, in connection with any of the foregoing, the Company will pay and be solely financially responsible for any and all reasonable attorneys' and related fees and expenses incurred by the Executive in connection with any of the foregoing.

(b) Without limiting the obligations of the Company pursuant to Section 6(a) hereof, in the event a Change in Control occurs, the performance of the Company's obligations under this Section 6 shall be secured by amounts deposited or to be deposited in trust pursuant to certain trust agreements to which the Company shall be a party, which amounts deposited shall in the aggregate be not less than \$2,000,000, providing that the reasonable fees and expenses of counsel selected from time to time by the Executive pursuant to Section 6(a) shall be paid, or reimbursed to the Executive if paid by the Executive, either in accordance with the terms of such trust agreements, or, if not so provided, on a regular, periodic basis upon presentation by the Executive to the trustee of a statement or statements prepared by such counsel in accordance with its customary practices. Any failure by the Company to satisfy any of its obligations under this Section 6(b) shall not limit the rights of the Executive hereunder. Subject to the foregoing, the Executive shall have the status of a general unsecured creditor of the

Company and shall have no right to, or security interest in, any assets of the Company or any subsidiary.

7. Continuing Obligations

(a) The Executive hereby agrees that all documents, records, techniques, business secrets and other information which have come into his possession from time to time during his employment with the Company shall be deemed to be confidential and proprietary to the Company and, except for personal documents and records of the Executive, shall be returned to the Company. The Executive further agrees to retain in confidence any confidential information known to him concerning the Company and its subsidiaries and their respective businesses so long as such information is not publicly disclosed, except that Executive may disclose any such information required to be disclosed in the normal course of his employment with the Company or pursuant to any court order or other legal process.

(b) The Executive hereby agrees that during the Continuation Period, he will not directly or indirectly solicit any employee of the Company or any of its subsidiaries or affiliated companies to join the employ of any entity that competes with the Company or any of its subsidiaries or affiliated companies.

8. Successors

(a) The Company shall require any successor (whether direct or indirect, by purchase, merger, consolidation or otherwise) to all or substantially all of the business and/or assets of the Company, by agreement in form and substance satisfactory to the Executive to expressly assume and agree to perform this Agreement in the same manner and to the same extent that the Company would be required to perform it if no such succession had taken place. Failure of such successor entity to enter into such agreement prior to the effective date of any such succession (or, if later, within three business days after first receiving a written request for such agreement) shall constitute a breach of this Agreement and shall entitle the Executive to terminate his employment pursuant to Section 2(a)(ii) and to receive the payments and benefits provided under Section 4. As used in this Agreement, "Company" shall mean the Company as hereinbefore defined and any successor to its business and/or assets as aforesaid which executes and delivers the Agreement provided for in this Section 8 or which otherwise becomes bound by all the terms and provisions of this Agreement by operation of law.

(b) This Agreement shall inure to the benefit of and be enforceable by the Executive's personal or legal representatives, executors, administrators, successors, heirs, distributees, devisees and legatees. If the Executive dies while any amounts are payable to him hereunder, all such amounts, unless otherwise provided herein, shall be

paid in accordance with the terms of this Agreement to his devisee, legatee or other designee or, if there is no such designee, to his estate.

9. Notices

For all purposes of this Agreement, all communications, including without limitation notices, consents, requests or approvals, required or permitted to be given hereunder will be in writing and will be deemed to have been duly given when hand delivered or dispatched by electronic facsimile transmission (with receipt thereof orally confirmed), or five business days after having been mailed by United States registered or certified mail, return receipt requested, postage prepaid, or three business days after having been sent by a nationally recognized overnight courier service addressed to the Company (to the attention of the Secretary of the Company, with a copy to the General Counsel of the Company) at its principal executive office and to the Executive at his principal residence, or to such other address as any party may have furnished to the other in writing and in accordance herewith, except that notices of changes of address shall be effective only upon receipt.

10. Governing Law

THE VALIDITY, INTERPRETATION, CONSTRUCTION AND PERFORMANCE OF THIS AGREEMENT SHALL BE GOVERNED BY THE LAWS OF THE STATE OF DELAWARE.

11. Miscellaneous

No provisions of this Agreement may be modified, waived or discharged unless such waiver, modification or discharge is agreed to in writing signed by the Executive and the Company. No waiver by either party hereto at any time of any breach by the other party hereto of, or compliance with, any condition or provision of this Agreement to be performed by such other party shall be deemed a waiver of similar or dissimilar provisions or conditions at the same or any prior or subsequent time. No agreements or representations, oral or otherwise, express or implied, with respect to the subject matter hereof have been made by either party which are not set forth expressly in this Agreement (or in any employment or other written agreement relating to the Executive). Notwithstanding any provision of this Agreement to the contrary, the parties' respective rights and obligations under Sections 4 and 6 will survive any termination or expiration of this Agreement or the termination of the Executive's employment following a Change in Control for any reason whatsoever. Nothing expressed or implied in this Agreement will create any right or duty on the part of the Company or the Executive to have the Executive remain in the employment of the Company or any subsidiary prior to or following any Change in Control. The Company may withhold from any amounts payable under this Agreement all federal, state, city or other taxes as the Company is required to withhold pursuant to any law or government regulation or ruling. In the event

that the Company refuses or otherwise fails to make a payment when due and it is ultimately decided that the Executive is entitled to such payment, such payment shall be increased to reflect an interest factor, compounded annually, equal to the prime rate in effect as of the date the payment was first due plus two points. For this purpose, the prime rate shall be based on the rate identified by Chase Manhattan Bank as its prime rate.

12. Separability

The invalidity or unenforceability of any provisions of this Agreement shall not affect the validity or enforceability of any other provision of this Agreement, which shall remain in full force and effect.

13. Non-assignability

This Agreement is personal in nature and neither of the parties hereto shall, without the consent of the other, assign or transfer this Agreement or any rights or obligations hereunder, except as provided in Section 8. Without limiting the foregoing, the Executive's right to receive payments hereunder shall not be assignable or transferable, whether by pledge, creation of a security interest or otherwise, other than a transfer by his will or by the laws of descent or distribution, and in the event of any attempted assignment or transfer by Executive contrary to this Section 13 the Company shall have no liability to pay any amount so attempted to be assigned or transferred to any person other than the Executive or, in the event of his death, his designated beneficiary or, in the absence of an effective beneficiary designation, the Executive's estate.

14. Effectiveness; Term

This Agreement will be effective and binding as of the date first above written immediately upon its execution, but, anything in this Agreement to the contrary notwithstanding, this Agreement will not be operative unless and until a Change in Control occurs. Upon the occurrence of a Change in Control at any time during the Term (as defined below), without further action, this Agreement shall become immediately operative. For purposes of this Agreement, "Term" means the period commencing as of the date first above written and expiring as of the later of (i) the fifth anniversary of the date first above written or (ii) the second anniversary of the first occurrence of a Change in Control; provided, however, that (A) commencing on the fifth anniversary of the date first above written and each fifth anniversary date thereafter, the Term of this Agreement will automatically be extended for an additional five years unless, not later than 180 days preceding each such fifth anniversary date, the Company or the Executive shall have given notice that it or the Executive, as the case may be, does not wish to have the Term extended and (B) subject to Section 2(d), if, prior to a Change in Control, the Executive ceases for any reason to be an employee of the Company and any subsidiary, thereupon without further action the Term shall be deemed to have expired and this Agreement will immediately terminate and be of no further effect. For purposes of this Section 14, the

Executive shall not be deemed to have ceased to be an employee of the Company and any subsidiary by reason of the transfer of Executive's employment between the Company and any subsidiary, or among any subsidiaries.

15. Counterparts

This Agreement may be executed in one or more counterparts, each of which shall be deemed to be an original but all of which together will constitute one and the same agreement.

16. Prior Agreement

This Agreement supersedes and terminates any and all prior Executive Termination Benefits Agreements by and among Company and the Executive.

IN WITNESS WHEREOF, the parties have caused this Agreement to be executed and delivered as of the day and year first above set forth, thereby mutually and voluntarily agreeing that this Agreement supersedes and replaces any prior similar agreements for such termination benefits.

AMENDMENT TO  
EXECUTIVE TERMINATION BENEFITS AGREEMENT

THIS AMENDMENT TO EXECUTIVE TERMINATION BENEFITS AGREEMENT (the "Amendment"), dated as of the 17th day of November, 2008, is by and between AMR CORPORATION, a Delaware corporation, AMERICAN AIRLINES, INC., a Delaware corporation (collectively, and either of, the "Company"), and Isabella D. Goren (the "Executive").

W I T N E S S E T H:

WHEREAS, the Company and the Executive have heretofore entered into an Executive Termination Benefits Agreement (the "Agreement"), addressing issues related to possible Change in Control; and

WHEREAS, certain provisions of section 409A of the Internal Revenue Code of 1986, as amended (the "Code"), apply to the Agreement and require amendment of the Agreement, which is intended to be accomplished through the execution of this Amendment, which is effective as of the date of original execution of the Agreement;

NOW THEREFORE, the Company and the Executive agree that the Agreement is hereby amended as follows:

1. Section 1 of the Agreement is hereby amended by the addition of the following language, at the end thereof:

Notwithstanding the above, a Change in Control shall be deemed to have occurred only if the event is also a change in ownership of the Company, or change in effective control of the Company, or change in ownership of a substantial portion of the Company's assets, in each case as defined in Treasury Regulation 1.409A-3(i)(5) or successor guidance thereto. For such purpose the specified percentages in Treasury Regulation 1.409A-3(i)(5)(v), (vi) and (vii) or successor guidance thereto shall be utilized, rather than any elective percentage.

2. Section 3 of the Agreement is hereby amended by the addition of the following sentence, at the end thereof:

"No termination of employment shall be deemed to have occurred under this Agreement unless and until such termination of employment or separation from employment constitutes a "separation from service" under Treasury Regulation 1.409A-1(h) or successor guidance thereto."

3. Section 4(a) of the Agreement is hereby amended by the addition of the following sentence, at the end thereof:

---

“This payment is subject to section 409A of the Code and to the payment delay provision of Section 4(j), with respect to a “specified employee” as described in section 409A(a)(2)(B)(i) of the Code and Treasury Regulation 1.409A-1(i) or successor guidance thereto.”

4. Section 4(b) of the Agreement is hereby amended by the deletion of all language following the first sentence thereof and substituting in lieu thereof the following language:

“The Employee Benefits subject to this Section 4(b) are governed by terms of the applicable Employee Benefit plans not in conflict with this Section 4(b), may not be liquidated or exchanged for any other benefit, and the amount of any such benefits provided in one taxable year of the Executive shall not affect the amount payable in any subsequent taxable year of the Executive. The Company will pay the cost of such Employee Benefits, some portion or all of which may be taxable to the Executive, together with an additional amount such that after payment by the Executive, or his dependents or beneficiaries, as the case may be, of all taxes that may be imposed on the recipient of such Employee Benefits, the recipient retains an amount equal to such taxes. Any amount paid as a cash reimbursement shall be paid not later than the last day of the taxable year of the Executive following the taxable year of the Executive in which the expense was incurred. Any tax reimbursement under this Section 4(b) must be paid not later than the end of the taxable year of the Executive following the taxable year of the Executive in which the Executive paid the relevant taxes. The benefits or cost thereof payable under the applicable Employee Benefit plans will be reduced to the extent comparable welfare benefits are actually received by the Executive from another employer during the Continuation Period (i.e. Company coverage shall be “secondary”) and any such benefits actually received by the Executive shall be reported by the Executive to the Company.”

5. Section 4(c) of the Agreement is hereby amended and restated in the entirety, to provide as follows:

“Retirement Benefits

If the Executive is not completely vested in the Executive’s currently accrued benefits under the Company’s applicable Retirement Benefit Plan and Supplemental Executive Retirement Plan (“SERP”) in effect as of the date of Change in Control (collectively, the “Plans”), regardless of the Executive’s actual vesting service credit thereunder, an amount shall be payable under this Section 4(c). In addition to such amount, the Executive shall be deemed to earn service credit for benefit calculation purposes under the SERP for the Continuation Period described in Section 4(b). The benefits to be paid pursuant to the SERP shall be calculated as though the Executive’s compensation rate for each of the 5

years immediately preceding his retirement equaled the sum of Base Pay plus Incentive Pay. Any benefits payable pursuant to this Section 4(c) that are not payable out of the Plans for any reason (including but not limited to any applicable benefit limitations under the Employee Retirement Income Security Act of 1974, as amended, or any restrictions relating to the qualification of the Company's applicable Retirement Benefit Plan under section 401(a) of the Code), shall be paid directly by the Company out of its general assets. Any amount payable under this Section 4(c) that is not paid under the Plans due to the fact the Participant is not fully vested will be calculated as required under the SERP for payment of SERP benefits (including calculation, time and form of payment). If the Executive is a "specified employee", as defined in Treasury Regulation 1.409A-1(i) or successor guidance thereto, on the date of the Executive's separation from employment, payment of the amount described in this Section 4(c) shall be subject to Section 4(j)."

6. Section 4(d) of the Agreement is hereby amended by the by the addition of the following two sentences, at the end thereof:

"Payment under this Section 4(d) for expenses shall be made not later than the last day of the taxable year of the Executive following the taxable year of the Executive in which the expenses were incurred. Payments for tax reimbursement shall be made not later than the end of the first taxable year of the Executive following the year in which the tax payment was made."

7. Section 4(e) of the Agreement is hereby amended by the addition of the following sentence, at the end thereof:

"Payment for such services will be made not later than the end of the taxable year of the Executive following the taxable year of the Executive in which the expenses were incurred."

8. Section 4(f)(ii) of the Agreement is hereby amended by the insertion of the words "or the Company's 2003 Employee Stock Incentive Plan (or any successor plan)" following the reference to the "Company's 1998 Long-Term Incentive Plan (or any successor plan)."

9. Section 4(h)(i) is hereby amended by the addition of the following language, at the end thereof:

"The flight privileges subject to this Section 4(h)(i) are governed by the terms of the applicable flight privilege rules of the Company not in conflict with this Section 4(h)(i), may not be liquidated or exchanged for any other benefit, and the amount of any such benefits provided in one taxable year of the Executive shall not affect the amount payable in any subsequent taxable year of the Executive. Any amount paid as a cash reimbursement shall be paid not later than the last day of the taxable year of the Executive following the taxable year of the Executive in which the expense was incurred."

10. Section 4(h)(iii) is amended by the addition of the following sentence, at the end thereof:

“Such payment shall be made within 75 days of the date of employment separation, subject to Section 4(j) to the extent applicable.”

11. Section 4(i) of the Agreement is amended by the addition of the following sentence, at the end thereof:

“Payments under this Section 4(i) must be made within 75 days of the end of the calendar year in which the Executive’s termination of employment occurred, subject to Section 4(j) to the extent applicable; provided that this Section 4(i) shall not be effective to the extent it would result in impermissible acceleration of any amounts subject to section 409A of the Code.”

12. Section 4(j) is hereby amended and restated in the entirety, to provide as follows:

“(j) Time of Payment of Certain Benefits.

Payment of amounts under Sections 4(a), 4(c), 4(h)(iii), and 4(i) shall be made in a single lump sum within 75 days following the Executive’s separation from employment, and in any event not later than 75 days after the end of the taxable year of the Executive in which the separation from employment shall occur; provided that if the Executive is a “specified employee”, as defined in Treasury Regulation 1.409A-1(i) or successor guidance thereto, as of the date of termination from employment, any such payments, to the extent subject to section 409A(a)(2)(B)(i) of the Code, shall not be made until the first business day following the date of the 6-month anniversary of the Executive’s separation from employment.”

13. Section 6(b) of the Agreement is hereby amended by the addition of the following language, at the end thereof:

“In the event the Executive’s employment is terminated, any payment by the Company or any such trust shall be made pursuant to this Section 6(b) within 75 days following the date of the Executive’s separation from employment. No such transfer to a trust shall be made to the extent it shall trigger the excise tax under section 409A(b)(3) or (4) of the Code.”

14. Section 7 of the Agreement is amended by the addition of new Section 7(c), at the end thereof:

“(c) The Executive and the Company shall cooperate to assure that payments made under this Agreement do not trigger the excise tax penalties of section 409A of the Code, and, notwithstanding anything to the contrary in this Agreement, if any payment under this Agreement to a “specified employee”, as

described in Treasury Regulation 1.409A-1(k) or successor guidance thereto shall constitute “deferred compensation” as defined in Treasury Regulation 1.409A-1(b) or successor guidance thereto, as determined by counsel to the Company, such payment shall be deferred until the first day after the 6 month anniversary of the date of the Executive’s separation from employment, except for payments described in Section 4(b), 4(d), 4(e) and 4(h)(i).”

15. Section 14 of the Agreement is hereby amended by the addition of the following sentence, at the end thereof:

“The provisions of this Agreement specifying payment dates that differ from applicable dates in the Agreement prior to its amendment shall be deemed to constitute a change in time of payment and/or method of payment as permitted under Internal Revenue Service 2006-79 as revised by Internal Revenue Service Notice 2007-86 and shall be interpreted consistently with such guidance, including the requirement that it is not applicable to a payment due in the current taxable year of such change.”

16. Except as amended hereby, the Agreement shall remain in full force and effect. This Amendment is effective as of the original effective date of the Agreement.

IN WITNESS WHEREOF, the parties have caused this Amendment be executed and delivered as of the day and year first above set forth.

Supplemental Agreement No. 20

to

Purchase Agreement No. 1980

between

The Boeing Company

and

AMERICAN AIRLINES, INC

Relating to Boeing Model 777-223IGW Aircraft

THIS SUPPLEMENTAL AGREEMENT, entered into as of \_\_\_\_\_, 2011, (SA-20) by and between THE BOEING COMPANY, a Delaware corporation with offices in Seattle, Washington, (**Boeing**) and American Airlines, Inc. (**Customer**);

RECITALS:

WHEREAS, Boeing and Customer entered into Purchase Agreement No. 1980 dated as of October 31, 1997, as amended and supplemented (capitalized terms used herein without definition shall have the meanings specified therefor in such Purchase Agreement) relating to Boeing Model 777-223IGW aircraft (the **Purchase Agreement**); and

WHEREAS, Boeing and Customer entered into Purchase Agreement No. 3219 dated as of October 15, 2008, relating to Boeing Model 787-923 aircraft (the 787 Purchase Agreement) and further agreed pursuant to Letter Agreement No. 6-1162-CLO-1032R1 to the 787 Purchase Agreement (**787 Letter Agreement**), among other things, [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT]; and

WHEREAS, Customer and Boeing agreed pursuant to Letter Agreement No. 6-1162-AKP-110R2 entitled "Aircraft Purchase Rights and Substitution Rights" (**777 Aircraft Purchase & Substitution Rights Letter**), among other things, [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] in Attachments B and C to the 777 Aircraft Purchase & Substitution Rights Letter as required by the 787 Letter Agreement; and

WHEREAS, on or about June 22, 2009, Boeing provided Customer with a [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT]

P.A. No. 1980

i

SA-20

**BOEING PROPRIETARY**

---

and did so in the form of Supplemental Agreement No. 1 to the 787 Purchase Agreement (**787 SA-1**) ; however, 787 SA-1 was never executed by Customer and Boeing. Supplemental Agreement No. 2 to the 787 Purchase Agreement (**787 SA-2**) was the first supplement to the 787 Purchase Agreement mutually executed by the parties and the [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] as set forth in 787 SA-2; and as a result of entering the 787 SA-2, the parties agreed to revise Letter Agreement No. 6-1162-CLO-1032 to the 787 Purchase Agreement and did so in the form of Letter Agreement No. 6-1162-CLO-1032R1 (**Revised 787 Letter Agreement**) in which, among other things, Customer and Boeing agreed to further [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT]; and

WHEREAS, Customer and Boeing agree to a [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] for the purpose of [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] in Attachments B and C to the [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] Letter as required by the Revised 787 Letter Agreement; and

WHEREAS, Customer has provided a [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT], respectively and has done so [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT]; and

WHEREAS, Boeing has confirmed it [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

**NOW THEREFORE**, In consideration of the mutual covenants herein contained, the parties agree to amend the Purchase Agreement as follows:

1. **Table of Contents:**

The "**Table of Contents**" to the Purchase Agreement is deleted in its entirety and the new "**Table of Contents**" attached hereto and identified with an "SA-20" legend is substituted in lieu thereof to reflect the changes made by this SA-20.

2. **Basic Articles:**

P.A. No. 1980

The basic articles are deleted in their entirety and new basic articles, attached hereto, are substituted in lieu thereof to:

- 1) Redefine the term "Aircraft" to mean a 777 aircraft, and
- 2) Make reference to Tables 2 and 3, and
- 3) Redefine the term "Engine Escalation Variables" to mean the Supplemental Exhibit EE1, which is applicable to the Engines, and
- 4) Make other minor changes required to make the Purchase Agreement applicable to both 777-200ER and 777-300ER aircraft.

3. Table 1-7:

Table 1-7 entitled SA-20 777-300ER [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] Delivery, Description, Price and [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

4. Exhibit A1:

Exhibit A1 entitled Aircraft Configuration is added to set forth the configuration of the 777-300ER aircraft.

5. Exhibit B:

Exhibit B entitled Aircraft Delivery Requirements and Responsibilities relating to Boeing Model 777 Aircraft is deleted in its entirety and a new Exhibit B, attached hereto, is substituted in lieu thereof to remove the "-223IGW" minor model designation from the title.

6. Exhibit C:

Exhibit C entitled Purchase Agreement Definitions is deleted in its entirety and a new Exhibit C, attached hereto, is substituted in lieu thereof to:

- 1) Remove the "-223IGW" minor model designation from the title.
- 2) Redefine the term "Aircraft" to include any 777 aircraft that Customer purchases and is set forth in a Table 1, 2, or 3.

- 3) Redefine the term "Engine" to include the engines installed on any 777 aircraft that Customer purchases and is set forth in a Table 1, 2, or 3.

7. Supplemental Exhibit AE1:

Supplemental Exhibit AE1 entitled Escalation Adjustment Airframe and Optional Features relating to 777-323ER Aircraft has been added to set forth the escalation adjustment formula for the 777-323ER aircraft.

8. Supplemental Exhibit BFE1-2:

Supplemental Exhibit BFE1-2 entitled Buyer Furnished Equipment Variables relating to Boeing Model 777-323ER Aircraft has been added to set forth the buyer furnished equipment supplier selection and on-dock dates for buyer furnished equipment for the 777-323ER aircraft with deliveries scheduled for [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] 2012.

9. Supplemental Exhibit CS1-2:

Supplemental Exhibit CS1-2 entitled Customer Support Variables relating to Boeing Model 777-323ER Aircraft has been added to set forth the differences training Boeing will provide to Customer in support of the 777-323ER aircraft.

10. Supplemental Exhibit EE1-2:

Supplemental Exhibit EE1-2 entitled Engine Escalation, Engine Warranty, and Patent Indemnity relating to 777-323ER aircraft has been added to set forth the engine escalation and engine warranty and product support plan. For the 777-323ER aircraft, there is no separate engine escalation methodology, and the engine warranty and product support plan will be provided directly to Customer by General Electric Company.

11. Letter Agreement No. 6-1162-AKP-072R2:

Letter Agreement No. 6-1162-AKP-072R2 entitled [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] is deleted in its entirety and revised Letter Agreement No. 6-1162-AKP-072R3, attached hereto, is substituted in lieu thereof to:

- 1) Remove the references to letter agreement revisions to simplify future revisions, and

- 2) [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

12. Letter Agreement No. 6-1162-AKP-109R2:

Letter Agreement No. 6-1162-AKP-109R2 entitled [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] is deleted in its entirety and revised Letter Agreement No. 6-1162-AKP-109R3, attached hereto, is substituted in lieu thereof to:

- 1) Set forth the [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT], and
- 2) Revise the defined terms for the various 777 aircraft minor models to eliminate confusion.

13. Letter Agreement No. 6-1162-AKP-110R2:

Letter Agreement No. 6-1162-AKP-110R2 entitled [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] is deleted in its entirety and revised Letter Agreement No. 6-1162-AKP-110R3, attached hereto, is substituted in lieu thereof to:

- 1) Set forth models 777-223LR and 777-323ER in lieu of 777-200X and 777-300X, and
- 2) Clarify the [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] in paragraph 6.3.1 to be used for the Aircraft, and
- 3) Set forth in paragraphs 8.2 and 8.3 that the form of purchase agreement may be a supplemental agreement, and
- 4) Revise Attachment A and Attachments A-1 through A-7 to set forth the correct Airframe Price, [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] for the various models.

- 5) Show the [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT], and
- 6) [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] in Attachments B and C to the [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] Letter Agreement. In the event that the [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] in Attachment F to the [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] Letter Agreement.

14. Letter Agreement No. AAL-PA-1980-LA-1003346:

Letter Agreement No. AAL-PA-1980-LA-1003346 entitled Aircraft Performance Guarantees — 777-323ER is added to set forth the performance guarantees for the two 777-323ER aircraft with deliveries scheduled for [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] 2012.

15. Letter Agreement No. AAL-PA-1980-LA-1003493:

Letter Agreement No. AAL-PA-1980-LA-1003493 entitled Installation of Cabin Systems Equipment — 777-323ER is added to set forth the responsibilities of Boeing and Customer related to the installation of cabin systems equipment on 777-232ER aircraft.

16. Letter Agreement No. 6-1162-AKP-118R1:

Letter Agreement No. 6-1162-AKP-118R1 entitled Confidentiality is deleted in its entirety and revised Letter Agreement No. 6-1162-AKP-118R2, attached hereto, is substituted in lieu thereof to remove letter agreement references to make future revisions easier.

17. Letter Agreement No. AAL-PA-1980-LA-1003344:

Letter Agreement No. AAL-PA-1980-LA-1003344 entitled Open Configuration Matters — 777-323ER is added to set forth the timing and process for defining the configuration of the 777-323ER aircraft.

18. Letter Agreement No. AAL-PA-1980-1003536:

Letter Agreement No. AAL-PA-1980-1003536 entitled [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] is an Order to Customer Services General Terms Agreement No. 23-1 as defined therein and is executed simultaneously with this SA-20 and sets forth the terms and conditions for [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

The Purchase Agreement will be deemed to be amended to the extent provided herein and as so amended will continue in full force and effect. In the event of any inconsistency between the above provisions and the provisions contained in the referenced exhibits to this Supplemental Agreement, the terms of the exhibits will control.

EXECUTED IN DUPLICATE as of the day and year first above written.

## Purchase Agreement No. 1980

between

The Boeing Company

and

American Airlines, Inc.

This Purchase Agreement No. 1980 dated as of October 31, 1997 between The Boeing Company and American Airlines, Inc. relating to the purchase and sale of Model 777 Aircraft hereby expressly incorporates by reference all of the terms and conditions of the AGTA.

Article 1. Quantity, Model and Description.

Boeing will manufacture and sell to Customer, and Customer will purchase, the Aircraft conforming to the Detail Specification, all in accordance with the terms of this Purchase Agreement. The quantity of Aircraft is specified in the applicable Table 1, 2, or 3 attached hereto and made a part hereof for all purposes.

Article 2. Delivery Schedule.

The Scheduled Delivery Months of the Aircraft are as listed in the attached Tables 1, 2, or 3.

Article 3. Price.

3.1 Basic Price. The Aircraft Basic Price (subject to escalation in accordance with the applicable provisions of the Purchase Agreement) for each Aircraft is listed in the applicable Table 1, 2, or 3.

3.2 Advance Payment Base Price. The Advance Payment Base Price for each Aircraft is listed in the applicable Table 1, 2, or 3.

3.3 Aircraft and Advance Payment Price Components. The components of the Aircraft Basic Price and the calculation of the Advance Payment Base Prices for the Aircraft are listed in the applicable Table 1, 2, or 3.

P.A. No. 1980

SA 20

Article 4. Payment.

4.1 Deposit. Boeing acknowledges receipt of a Deposit or Proposal Deposit as applicable for each Aircraft.

4.2 Advance Payments. Customer will make Advance Payments to Boeing in the amount of 35% of the Advance Payment Base Price of each Aircraft in accordance with the payment schedule set forth in the attached applicable Table 1, 2, or 3, beginning with a payment of 1%, less the Deposit, on the date of full execution of this Purchase Agreement. Additional Advance Payments for each Aircraft are due on the first business day of the months and in the amounts listed in the attached applicable Table 1, 2, or 3.

4.3 Advance Payments Due. For any Aircraft whose Scheduled Delivery Month is less than 24 months from the date of this Purchase Agreement, the total amount of Advance Payments due upon the date of full execution of this Purchase Agreement will include all Advance Payments which are or were due on or before that date in accordance with the Advance Payment schedule set forth in the attached applicable Table 1, 2, or 3.

4.4 Payment of Balance. Customer will pay the balance of the Aircraft Price of each Aircraft, less the total amount of Advance Payments and Deposits received by Boeing for such Aircraft, at delivery in accordance with the terms and conditions of the Purchase Agreement.

Article 5. Miscellaneous.

5.1 Aircraft Information Table. Tables 1, 2, and 3 contain and consolidate information contained in Articles 1, 2 and 3 of this Purchase Agreement with respect to (i) quantity of Aircraft, (ii) applicable Detail Specification, (iii) Scheduled Delivery Months, (iv) Aircraft Basic Price, (v) applicable escalation factors, (vi) Advance Payment Base Prices, and (vii) Advance Payments and their schedules.

5.2 Aircraft Configuration. The applicable Exhibit A to this Purchase Agreement contains the configuration information for the Aircraft including the Detail Specification and Optional Features.

5.3 Aircraft Delivery Requirements and Responsibilities. Exhibit B to this Purchase Agreement contains certain documentation and approval responsibilities of Customer and Boeing.

5.4 Defined Terms. Exhibit C to this Purchase Agreement contains certain defined terms used in the AGTA or elsewhere in this Purchase Agreement. All capitalized terms used in this Purchase Agreement but not otherwise defined shall have the meaning set forth in Exhibit C to this Purchase Agreement or elsewhere in this Purchase Agreement.

5.5 BFE Variables. The applicable Supplemental Exhibit BFE1 to this Purchase Agreement contains vendor selection dates, on-dock dates and other variables applicable to the Aircraft pursuant to the BFE Provisions Document.

5.6 Customer Support Variables. The applicable Supplemental Exhibit CS1 to this Purchase Agreement contains the variable information applicable to goods and services furnished by Boeing in support of the Aircraft pursuant to the Customer Support Document.

5.7 SLP Components. Supplemental Exhibit SLP1 to this Purchase Agreement lists the airframe, landing gear and other components covered by the Service Life Policy for the Aircraft as defined in Part 3 of the Product Assurance Document.

5.8 Engine Escalation Variables. The applicable Supplemental Exhibits EE1 to this Purchase Agreement contain the applicable escalation formula, warranty, and patent indemnity for the Engines.

5.9 Negotiated Agreement; Entire Agreement. This Purchase Agreement including, without limitation, the provisions of Article 8 of the AGTA relating to indemnification and insurance, and Section 11 of Part 2 of the Product Assurance Document relating to DISCLAIMER AND RELEASE and EXCLUSION OF CONSEQUENTIAL AND OTHER DAMAGES has been the subject of discussion and negotiation and is understood by the parties. The Aircraft Price and other agreements of the parties stated in this Purchase Agreement were arrived at in consideration of such provisions. This Purchase Agreement contains the entire agreement between the parties and supersedes all previous proposals, understandings, commitments or representations whatsoever, oral or written, and may be changed only in writing signed by authorized representatives of the parties.

AIRCRAFT DELIVERY REQUIREMENTS AND RESPONSIBILITIES

relating to

BOEING MODEL 777 AIRCRAFT

Both Boeing and Customer have certain documentation and approval responsibilities at various times during the construction cycle of Customer's Aircraft that are critical to making the delivery of each Aircraft a positive experience for both parties. This Exhibit B documents those responsibilities and indicates recommended completion deadlines for the actions to be accomplished.

1. GOVERNMENT DOCUMENTATION REQUIREMENTS.

Certain actions are required to be taken by Customer in advance of the Scheduled Delivery Month of each Aircraft with respect to obtaining certain government issued documentation.

1.1 Registration Documents.

Not later than 6 months prior to delivery of each Aircraft, Customer will notify Boeing of the registration number to be painted on the side of the Aircraft. In addition, and not later than 3 months prior to delivery of each Aircraft, Customer will, by letter to the regulatory authority having jurisdiction, authorize the temporary use of such registration number by Boeing during the pre-delivery testing of the Aircraft. Customer is responsible for furnishing any temporary or permanent registration certificates required by any Governmental Authority having jurisdiction to be displayed aboard the Aircraft after delivery.

1.2 Certificate of Sanitary Construction.

Boeing will obtain from the United States Public Health Service prior to delivery of each Aircraft a United States Certificate of Sanitary Construction for the Aircraft being delivered. The certificate will be delivered to Customer at delivery of each Aircraft, and Customer will display such certificate (or a written statement of the location of the original certificate) aboard each Aircraft after delivery to Customer.

2. INSURANCE CERTIFICATES.

Insurance certificate requirements are defined in Article 8 of the AGTA.

3. FLYAWAY CONFIGURATION AND FERRY FLIGHT INFORMATION.

3.1 Flyaway Configuration Notice.

Not later than 14 days prior to delivery of the Aircraft, Customer will provide to Boeing a configuration letter stating the requested flyaway configuration of the Aircraft for its ferry flight. This configuration letter should include:

- (i) the name of the company which is to furnish fuel for the ferry flight and any scheduled post-delivery flight training, the method of payment for such fuel, and fuel load for the ferry flight;
- (ii) the cargo to be loaded and where it is to be stowed on board the Aircraft and address where cargo is to be shipped after flyaway; and
- (iii) any BFE equipment to be removed prior to flyaway and returned to Boeing BFE stores for installation on Customer's subsequent Aircraft.

The information contained in such configuration letter may be changed from time to time by the mutual consent of Boeing and Customer.

3.2 Ferry Flight Information.

Customer will provide to Boeing at least 24 hours prior to delivery of each Aircraft:

- (i) a complete list of names and citizenship of each crew member and non-revenue passenger who will be aboard the ferry flight; and
- (ii) a complete ferry flight itinerary.

4. DELIVERY ACTIONS BY BOEING.

4.1 Schedule of Inspections. Subsequent to the Boeing production flight test, all FAA, Boeing, Customer and, if required, U.S. Customs Bureau inspections will be scheduled by Boeing for completion prior to delivery of the Aircraft. Customer will be informed of such schedules with as much advance notice as practicable.

4.2 Schedule of Demonstration Flights. All FAA and Customer demonstration flights will be scheduled by Boeing for completion prior to delivery of the Aircraft. Boeing will provide to Customer at least 14 days prior written notice of the date, time, and location of such flight. Boeing will notify Customer in writing of any changes to such date, time, and location.

4.3 Schedule for Customer's Flight Crew. Boeing will inform Customer of the date that a flight crew is required for acceptance routines associated with delivery of the Aircraft.

4.4 Fuel Provided by Boeing. Boeing will provide to Customer, without charge, 3,000 U.S. gallons of fuel and full capacity of engine oil at the time of delivery or prior to the ferry flight of the Aircraft.

4.5 Flight Crew and Passenger Consumables. Boeing will provide a sufficient supply of food, potable water, coat hangers, towels, toilet tissue, garbage bags, drinking cups and soap for the first segment of the ferry flight for the Aircraft.

4.6 Delivery Papers, Documents and Data. Boeing will have available at the time of delivery of the Aircraft all delivery papers, documents and data for execution and delivery. Boeing will pre-position in Oklahoma City, Oklahoma, for filing with the FAA at the time of delivery of the Aircraft an executed original Form 8050-2, Aircraft Bill of Sale, for the sale to Customer and any additional executed forms of such bill of sale for any transfers of title to the Aircraft from any of Boeing's sales subsidiary so that following recordation of such bill(s) of sale, Customer will have good and marketable title to the Aircraft.

4.7 Delegation of Authority. Boeing will present a certified copy of a Resolution of Boeing's Board of Directors, designating and authorizing certain persons to act on its behalf in connection with delivery of the Aircraft including the person executing the transfer of title documents.

4.8 Standard Airworthiness Certificate. Boeing will provide at delivery of each Aircraft the Standard Airworthiness Certificate in accordance with Article 3 of the AGTA.

5. DELIVERY ACTIONS BY CUSTOMER.

5.1 Aircraft Radio Station License. At delivery Customer will provide a copy of its Aircraft Radio Station License (or a written statement of the location of the original license) to be placed on board the Aircraft following delivery.

5.2 Aircraft Flight Log. At delivery Customer will provide the Aircraft Flight Log for the Aircraft.

5.3 Delegation of Authority. Customer will present to Boeing at delivery of the Aircraft an original or certified copy of Customer's Delegation of Authority designating and authorizing certain persons to act on its behalf in connection with delivery of the specified Aircraft.

PURCHASE AGREEMENT DEFINITIONS

Dated October 31, 1997

relating to

BOEING MODEL 777 AIRCRAFT

I. Definitions.

The following terms, when used in capitalized form in this Purchase Agreement, including the AGTA and any exhibits, schedules, attachments, supplements, amendments and letter agreements to this Purchase Agreement, have the following meanings:

“Advance Payments” means the payments made by Customer in advance of delivery with respect of an Aircraft pursuant to Section 4.2 of the Purchase Agreement.

“Advance Payment Base Price” has the meaning set forth in Section 2.1.6 of the AGTA.

“Affiliate”, with respect to a specified Person, means any other Person directly or indirectly controlling or controlled by or under direct or indirect common control with such Person. For the purposes of this definition, “control” when used with respect to any specified Person, means the power to direct the management and policies of such Person, directly or indirectly, whether through the ownership of voting securities, by contract or otherwise, and the terms “controlling” and “controlled” have meanings correlative to the foregoing.

“AGTA” has the meaning set forth in the recital of the Aircraft General Terms Agreement of even date herewith between Boeing and Customer.

“Aircraft” means any or all, as the context requires, of the Boeing Model 777 aircraft described in the applicable Table 1, 2, or 3 to the Purchase Agreement, together with the Engines and Parts that are incorporated or installed in or attached to such aircraft.

“Aircraft Basic Price” has the meaning set forth in Section 2.1.4 of the AGTA.

“Aircraft Software” has the meaning set forth in Part 1 of the Product Assurance Document.

“Aircraft Price” has the meaning set forth in Section 2.1.7 of the AGTA.

“Airframe Escalation Adjustment Document” has the meaning set forth in Section 2.1.5 of the AGTA.

“Airframe Price” has the meaning set forth in Section 2.1.1 of the AGTA.

“ATA” has the meaning set forth in Section 1 to Part 3 of the Customer Support Document.

“Authorized Agent” has the meaning set forth in Part 1 of the Product Assurance Document.

“Average Direct Hourly Labor Rate” has the meaning set forth in Part 1 of the Product Assurance Document.

“BFE Provisions Document” means the Buyer Furnished Equipment Provisions Document attached to the AGTA as Exhibit A.

“Boeing” has the meaning set forth in the recital of the AGTA.

“Boeing Product” has the meaning set forth in Part 1 of the Product Assurance Document.

“Buyer Furnished Equipment” or “BFE” has the meaning set forth in Section 1.2 of the AGTA.

“Correct” or “Correction” has the meaning set forth in Part 1 of the Product Assurance Document.

“Corrected Boeing Product” has the meaning set forth in Part 1 of the Product Assurance Document.

“Customer” has the meaning set forth in the recital of the AGTA.

“Customer Support Document” means the Customer Support Document attached to the AGTA as Exhibit B.

“Deposit” means the deposit made by Customer in respect of an Aircraft pursuant to Section 4.1 of the Purchase Agreement.

“Detail Specification” means the Detail Specification identified in the applicable Exhibit A to the Purchase Agreement, as the same is amended from time to time by Boeing and Customer pursuant to Article 4 of the AGTA.

“Development Changes” has the meaning set forth in Section 4.2 of the AGTA.

“Direct Labor” has the meaning set forth in Part 1 of the Product Assurance Document.

“Direct Materials” has the meaning set forth in Part 1 of the Product Assurance Document.

“Documents” has the meaning set forth in Section 4.6 of Part 3 to the Customer Support Document.

“Engine” means each of the two engines installed on the Aircraft and identified in the applicable (subject to Customer selection) Table 1, 2, or 3 to the Purchase Agreement, together with any and all Parts incorporated or installed in or attached to each such engine.

“Engine Price” has the meaning set forth in Section 2.1.3 of the AGTA.

“Engine Price Adjustment” means the adjustment to the Engine Price determined in accordance with the formula set forth in Supplemental Exhibit EE1 to the Purchase Agreement.

“Engine Supplier” means the manufacturer of the Engine.

“Escalation Adjustment” has the meaning set forth in Section 2.1.5 of the AGTA.

“Excusable Delay” has the meaning set forth in Section 7.1 of the AGTA.

“FAA” means the Federal Aviation Administration of the United States of America and any agency or instrumentality of the United States government succeeding to its functions.

“Failed Component” has the meaning set forth in Section 1 of Part 3 to the Product Assurance Document.

“Failure” has the meaning set forth in Section 1 of Part 3 to the Product Assurance Document.

“Federal Aviation Regulations” means the regulations promulgated by the FAA from time to time and any official interpretations thereof.

“Field Services” has the meaning set forth in Section 1 of Part 2 to the Customer Support Document.

“Governmental Authority” means any federal, state, county, local or foreign governmental entity or municipality or subdivision thereof or any authority, arbitrator, department, commission, board, bureau, body, agency, court or other agency or instrumentality thereof.

“Governmental Regulations” means: (1) the Type Certificate for the Aircraft; (2) any other certification, license or approval issued or required for the Aircraft by the FAA or any other Governmental Authority having jurisdiction over Boeing or the Aircraft; (3) any other law, rule, order or regulation of the United States Government or any agency or instrumentality thereof, having jurisdiction over the Aircraft or Boeing; (4) all regulations and official interpretations of the certification, license, or approval requirements described in (1), (2) and (3) above; and (5) all airworthiness directives issued by the FAA.

“Interface Problem” has the meaning set forth in Section 1 of Part 5 of the Product Assurance Document.

“Manufacturer Change” has the meaning set forth in Section 3.2.1 of the AGTA.

“Operator Changes” has the meaning set forth in Section 3.3.1 of the AGTA.

“Optional Features” means those Parts identified as optional features in the Detail Specification.

“Optional Features Prices” has the meaning set forth in Section 2.1.2 of the AGTA.

“Parts” means any and all appliances, parts, instruments, appurtenances, accessories, furnishings, and other equipment or property of whatever nature incorporated or installed in or attached to an Aircraft upon delivery or otherwise pursuant to the Purchase Agreement.

“Performance Guarantees” has the meaning set forth in Section 5.4 of the AGTA.

“Person” means an individual, partnership, corporation, business trust, joint stock company, trust, unincorporated association, joint venture, Governmental Authority or other entity of whatever nature.

“Policy” has the meaning set forth in Section 1 of Part 3 of the Product Assurance Document.

“Product Assurance Document” means the Product Assurance Document attached to the AGTA as Exhibit C.

“Proprietary Information” has the meaning set forth in Section 1 of Part 5 to the Customer Support Document.

“Proprietary Materials” has the meaning set forth in Section 1 of Part 5 to the Customer Support Document.

“Purchase Agreement” means Purchase Agreement No. 1980, of even date herewith, between Boeing and Customer for the purchase of the Aircraft, including, without limitation, the AGTA and any exhibits, schedules, attachments, supplements, amendments and letter agreements to such Purchase Agreement.

“Scheduled Delivery Month” means, with respect to an Aircraft, the scheduled month and year of delivery for such Aircraft as set forth in Section 2 of the Purchase Agreement.

“Seller Furnished Equipment” or “SFE” means those Parts incorporated or installed in, or attached to, the Aircraft by Boeing and designated as “seller furnished equipment.”

“Seller Purchased Equipment” or “SPE” means those Parts incorporated or installed in, or attached to, the Aircraft by Boeing and designated as “seller purchased equipment.”

“SLP Component” has the meaning set forth in Section 1 of Part 3 of Product Assurance Document.

“Standard Airworthiness Certificate” means a standard airworthiness certificate for transport category aircraft applicable to an Aircraft issued by the FAA pursuant to Part 21 of the Federal Aviation Regulations (or any successor regulations).

“Stipulated Rate” has the meaning set forth in Section 1.3 of Letter Agreement No. 6-1162-AKP-070 or as may be subsequently amended.

“Supplier Product” has the meaning set forth in Part 1 of the Product Assurance Document.

“Suppliers” has the meaning set forth in Section 1 of Part 4 of the Product Assurance Document.

“Taxes” has the meaning set forth in Section 2.2 of the AGTA.

“Type Certificate” means a type certificate for transport category aircraft issued by the FAA pursuant to Part 21 of the Federal Aviation Regulations or any successor regulation.

“Warranty Inspections” has the meaning set forth in Part 1 of the Product Assurance Document.

II. Interpretive Provisions.

When reference is made to an article, section, attachment, exhibit, schedule or supplement of the “AGTA” or a “Purchase Agreement” without further reference to a particular letter agreement, attachment, exhibit, schedule or supplement thereto, such reference shall be deemed to be a reference to the main text of the AGTA or such Purchase Agreement, respectively.

**CUSTOMER SUPPORT VARIABLES**

**relating to**

**BOEING MODEL 777-323ER AIRCRAFT**

Customer currently operates an aircraft of the same major model as the 777-323ER (Aircraft). Upon Customer's request, Boeing will develop and schedule a customized Customer Support Program to be furnished in support of the Aircraft. The customized program will be based upon and equivalent to the entitlements summarized below.

**1. Maintenance Training.**

1.1 Maintenance Training Minor Model Differences Course, if required, covering operational, structural or systems differences between Customer's newly-purchased Aircraft and an aircraft of the same model currently operated by Customer; one (1) class of fifteen (15) students;

1.2 Training materials, if applicable, will be provided to each student. In addition, one set of training materials as used in Boeing's training program, including visual aids, text and graphics will be provided for use in Customer's own training program.

**2. Flight Training.**

Boeing will provide, if required in Customer's sole discretion, one classroom course to acquaint up to fifteen (15) students with operational, systems and performance differences between Customer's newly-purchased Aircraft and an aircraft of the same model currently operated by Customer.

Any training materials used in Flight Training, if so required, will be provided for use in Customer's own training program.

**3. Planning Assistance.**

3.1 Maintenance Engineering. Notwithstanding anything in Exhibit B to the AGTA seemingly to the contrary, Boeing will provide the following Maintenance Engineering support:

3.1.1 Maintenance Planning Assistance. Upon request, Boeing will provide assistance in identifying the impact to Customer's maintenance program resulting from minor model differences between the Aircraft and an aircraft of the same model currently operated by the Customer.

3.1.2 ETOPS Maintenance Planning Assistance. Upon request, Boeing will provide assistance in identifying the impact to Customer's ETOPS maintenance program resulting from minor model differences between the Aircraft and an aircraft of the same model currently operated by the Customer.

3.1.3 GSE/Shops/Tooling Consulting. Upon request, Boeing will provide assistance to Customer in identifying the impact to Customer's maintenance tools and

ground support equipment resulting from the minor model differences between the Aircraft and an aircraft of the same model currently operated by Customer.

3.2 Spares. Boeing will revise, as applicable, the customized Recommended Spares Parts List (**RSPL**) and Illustrated Parts Catalog (**IPC**).

4. Technical Data and Documents.

Boeing will revise, as applicable, technical data and documents provided with previously delivered aircraft of the same major model.

American Airlines, Inc.  
P.O. Box 619616  
Dallas-Fort Worth Airport, Texas 75261-9616

Subject: [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT]

Reference: Purchase Agreement Nos. 1977, 1978, 1979, 1980, and 3219 (the Purchase Agreements) between The Boeing Company and American Airlines, Inc. relating to Model 737, 757, 767, 777 and 787 aircraft, respectively

This letter agreement (Letter Agreement) is entered into on the date below and amends and supplements the Purchase Agreements referenced above. All capitalized terms used herein but not otherwise defined in this Letter Agreement shall have the same meanings assigned thereto in Exhibit C to the applicable Purchase Agreement or elsewhere in such Purchase Agreement. This Letter Agreement supercedes and replaces in its entirety any and all version of Letter Agreement 6-1162-AKP-072 .

1. Definitions.

Terms used herein and not defined in this Letter Agreement have the meanings set forth in the Purchase Agreements. The following terms, when used in capitalized form, have the following meanings:

“AA Aircraft” means, as the context requires, (i) a Firm Aircraft, (ii) a Rights Aircraft, (iii) a Substitute Aircraft or (iv) any aircraft described in Section 2.2 of this Letter Agreement once price terms have been established for such aircraft pursuant to Section 8 of this Letter Agreement. The first three categories of aircraft in the preceding sentence are defined in Letter Agreements 6-1162-AKP-075, 6-1162-AKP-089, 6-1162-AKP-100, 6-1162-AKP-110 and 6-1162-TRW-0664 or as may be subsequently amended.

“AA Auditor” shall have the meaning set forth in Section 7.2.3 hereto.

“Adjustment” shall have the meaning set forth in Section 3.2 hereto.

P.A. Nos. 1977, 1978, 1979, 1980, and 3219

SA20 to PA 1980

“Affiliate” shall have the meaning set forth in Exhibit C to the Purchase Agreement.

“[CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

“[CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

“Boeing” for the purposes of this Letter Agreement, means The Boeing Company and each of its direct and indirect wholly-owned subsidiaries.

“Boeing Affiliate Aircraft” has the meaning set forth in Letter Agreement 6-1162-AKP-071 or as may be subsequently amended and includes Existing MDC Aircraft.

“Boeing Auditor” shall have the meaning set forth in Section 7.2.1 hereto.

“Business Day” shall mean any day other than a Saturday, Sunday, or a day that commercial banks are authorized or required by law, regulation or executive order to be closed in Seattle, Washington or Fort Worth, Texas.

Reference: Purchase Agreement No. PA-1980 (**Purchase Agreement**) between The Boeing Company (**Boeing**) and American Airlines, Inc. (**Customer**) relating to Model 777-323ER aircraft (**Aircraft**)

This letter agreement (**Letter Agreement**) amends and supplements the Purchase Agreement. All terms used but not defined in this Letter Agreement shall have the same meaning as in the Purchase Agreement.

For the Aircraft set forth in Table 1-7, at the time of execution of this Letter Agreement, Boeing agrees to provide Customer with the guarantees set forth on Attachment A hereto. These guarantees are exclusive and will expire upon delivery of the Aircraft to Customer.

**1 AIRCRAFT MODEL APPLICABILITY**

The guarantees contained in this Attachment (the "Performance Guarantees") are applicable to [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

**2 FLIGHT PERFORMANCE**

**2.1 Takeoff**

The FAA approved takeoff field length at a gross weight at the start of the ground roll of 775,000 pounds, at a temperature of 30°C, at a sea level altitude, with an alternate forward center of gravity limit of 20 percent of the mean aerodynamic chord, and using maximum takeoff thrust, shall not be more than the following guarantee value:

[CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT]

**2.2 Landing**

The FAA approved landing field length at a gross weight of 554,000 pounds and at a sea level altitude, shall not be more than the following guarantee value:

[CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT]

**2.3 Mission**

**2.3.1 Mission Payload**

The payload for a stage length of 7,458 nautical miles in still air (representative of a Chicago to Hong Kong route) using the conditions and operating rules defined below, shall not be less than the following guarantee value:

[CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT]

Conditions and operating rules:

Stage Length:

The stage length is defined as the sum of the distances for the climbout maneuver, climb, cruise, and descent.

Takeoff:

[CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

The takeoff gross weight is not limited by the airport conditions.

Maximum takeoff thrust is used for the takeoff.

The takeoff gross weight shall conform to FAA Regulations.

Climbout Maneuver:

Following the takeoff to 35 feet, the Aircraft accelerates to 262 KCAS while climbing to 1,500 feet above the departure airport altitude and retracting flaps and landing gear.

Climb:

The Aircraft climbs from 1,500 feet above the departure airport altitude to 10,000 feet altitude at 262 KCAS.

The Aircraft then accelerates at a rate of climb of 500 feet per minute to the recommended climb speed for minimum block fuel.

The climb continues at the recommended climb speed for minimum block fuel to the initial cruise altitude.

The temperature is standard day during climb.

Maximum climb thrust is used during climb.

Cruise:

The Aircraft cruises at 0.84 Mach number.

The initial cruise altitude is 28,000 feet.

A step climb or multiple step climbs of 2,000 feet altitude may be used when beneficial to minimize fuel burn.

The temperature is standard day during cruise.

The cruise thrust is not to exceed maximum cruise thrust except during a step climb when maximum climb thrust may be used.

Descent:

The Aircraft descends from the final cruise altitude at 250 KCAS to an altitude of 1,500 feet above the destination airport altitude.

Throughout the descent, the cabin pressure will be controlled to a maximum rate of descent equivalent to 300 feet per minute at sea level.

The temperature is standard day during descent.

Approach and Landing Maneuver:

The Aircraft decelerates to the final approach speed while extending landing gear and flaps, then descends and lands.

The destination airport altitude is 28 feet.

Fixed Allowances:

For the purpose of this guarantee and for the purpose of establishing compliance with this guarantee, the following shall be used as fixed quantities and allowances:

Taxi-Out:

[CONFIDENTIAL PORTION OMITTED AND FILED  
SEPARATELY WITH THE COMMISSION PURSUANT TO A  
REQUEST FOR CONFIDENTIAL TREATMENT]

Takeoff and Climbout Maneuver:  
[CONFIDENTIAL PORTION OMITTED AND FILED  
SEPARATELY WITH THE COMMISSION PURSUANT TO A  
REQUEST FOR CONFIDENTIAL TREATMENT]

Approach and Landing Maneuver:  
[CONFIDENTIAL PORTION OMITTED AND FILED  
SEPARATELY WITH THE COMMISSION PURSUANT TO A  
REQUEST FOR CONFIDENTIAL TREATMENT]

Taxi-In (shall be consumed from the reserve  
[CONFIDENTIAL PORTION OMITTED AND FILED  
SEPARATELY WITH THE COMMISSION PURSUANT TO A  
REQUEST FOR CONFIDENTIAL TREATMENT])

Usable reserve fuel remaining upon completion of the approach and landing maneuver:  
[CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL  
TREATMENT]

[CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL  
TREATMENT].

### 2.3.2 Mission Block Fuel

The block fuel for a stage length of 7,458 nautical miles in still air (representative of a Chicago to Hong Kong route) with a 70,920 pound payload using the conditions and operating rules defined below, shall not be more than the following guarantee value:

NOMINAL: [CONFIDENTIAL PORTION

TOLERANCE: OMITTED AND FILED

GUARANTEE: SEPARATELY WITH THE

COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT]

Conditions and operating rules are the same as Paragraph 2.3.1 except as follows:

Block Fuel: The block fuel is defined as the sum of the fuel used for taxi-out, takeoff and climbout maneuver, climb, cruise, descent, approach and landing maneuver, and taxi-in.

Takeoff: [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

The takeoff gross weight is not limited by the airport conditions.

Climb: The Aircraft climbs from 1,500 feet above the departure airport altitude to 10,000 feet altitude at 262 KCAS.

The Aircraft then accelerates at a rate of climb of 500 feet per minute to the recommended climb speed for minimum block fuel.

The climb continues at the recommended climb speed for minimum block fuel to the initial cruise altitude.

Cruise: The initial cruise altitude is 30,000 feet.

A step climb or multiple step climbs of 2,000 feet altitude may be used when beneficial to minimize fuel burn.

Fixed Allowances: For the purpose of this guarantee and for the purpose of establishing compliance with this guarantee, the following shall be used as fixed quantities and allowances:

**Operational Items Allowance**

- Crew and Crew Baggage
  - Flight Crew (Inc. Baggage)
  - Cabin Crew (Inc. Baggage)
  - Flight Crew Briefcase
- Catering Allowance: Pacific Meal Service
  - First Class
  - Business Class
  - Economy Class
- Passenger Service Equipment
- Potable Water -
- Waste Tank Disinfectant
- Emergency Equipment (Incl. Overwater Equip.)
  - Slide Rafts
  - Life Vests
  - Locator Transmitter
- Cargo System
  - Containers

**Total Standard and Operational Items Allowance**

**3 MANUFACTURER'S EMPTY WEIGHT**

The Manufacturer's Empty Weight (MEW) is guaranteed not to exceed the value in Section 03-60-00 of Detail Specification TBD plus one percent.

**4 SOUND LEVELS**

**4.1 Community Sound Levels**

**4.1.1 Certification**

The Aircraft shall be certified in accordance with the requirements of 14CFR Part 36, Stage 4 and ICAO Annex 16, Volume 1, Chapter 4.

**4.2 Interior Sound Levels in Flight**

[CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT]

**4.3 Ramp Sound Levels**

[CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT]

**5 AIRCRAFT CONFIGURATION**

5.1 The guarantees contained in this Attachment are based on the Aircraft configuration as defined in the original release of Detail Specification TBD (hereinafter referred to as the Detail Specification). Appropriate adjustment shall be made for changes in such Detail Specification approved by the Customer and Boeing or otherwise allowed by the Purchase Agreement which cause changes to the flight performance, sound levels, and/or weight and balance of the Aircraft. Such adjustment shall be accounted for by Boeing in its evidence of compliance with the guarantees.

5.2 The guarantee payload of Paragraph 2.3.1 will be adjusted by Boeing for the effect of the following on OEW and the Manufacturer's Empty Weight guarantee of Section 3 will be adjusted by Boeing for the following in its evidence of compliance with the guarantees:

- (1) Changes to the Detail Specification or any other changes mutually agreed upon between the Customer and Boeing or otherwise allowed by the Purchase Agreement.
- (2) The difference between the component weight allowances given in Appendix IV of the Detail Specification and the actual weights.

**6 GUARANTEE CONDITIONS**

6.1 All guaranteed performance data are based on the International Standard Atmosphere (ISA) and specified variations therefrom; altitudes are pressure altitudes.

6.2 The Federal Aviation Administration (FAA) regulations referred to in this Attachment are, unless otherwise specified, the 777-300ER Certification Basis regulations specified in the Type Certificate Data Sheet T00001SE, dated March 16, 2004.

6.3 In the event a change is made to any law, governmental regulation or requirement, or in the interpretation of any such law,

governmental regulation or requirement that affects the certification basis for the Aircraft as described in Paragraphs 4.1 or 6.2, and as a result thereof, a change is made to the configuration and/or the performance of the Aircraft in order to obtain certification, the guarantees set forth in this Attachment shall be appropriately modified to reflect any such change.

- 6.4 The takeoff and landing guarantees, and the takeoff portion of the mission guarantee are based on hard surface, level and dry runways with no wind or obstacles, no clearway or stopway, 235 mph tires, with anti-skid operative, and with the Aircraft center of gravity at the most forward limit unless otherwise specified. The takeoff performance is based on no engine bleed for air conditioning or thermal anti-icing and the Auxiliary Power Unit (APU) turned off unless otherwise specified. Unbalanced field length calculations and the improved climb performance procedure will be used for takeoff as required. The landing performance is based on the use of automatic spoilers.
- 6.5 The climb, cruise and descent portions of the mission guarantee include allowances for normal power extraction and engine bleed for normal operation of the air conditioning system. Normal electrical power extraction shall be defined as not less than a 212 kilowatts total electrical load. Normal operation of the air conditioning system shall be defined as pack switches in the "Auto" position, the temperature control switches in the "Auto" position that results in a nominal cabin temperature of 75°F, and all air conditioning systems operating normally. This operation allows a maximum cabin pressure differential of 8.6 pounds per square inch at higher altitudes, with a nominal Aircraft cabin ventilation rate of 10,300 cubic feet per minute including passenger cabin recirculation (nominal recirculation is 50 percent). The APU is turned off unless otherwise specified.
- 6.6 The climb, cruise and descent portions of the mission guarantee are based on an Aircraft center of gravity location of 30 percent of the mean aerodynamic chord.
- 6.7 Performance, where applicable, is based on a fuel Lower Heating Value (LHV) of 18,580 BTU per pound and a fuel density of 6.7 pounds per U.S. gallon.
- 6.8 Sound pressure levels are measured in decibels (dB) referred to the standard reference pressure of 20 micro Pascals per ISO 1683-

1983 (E). Noise data shall be acquired and reduced at preferred one-third octave band frequencies given in ISO 266-1997(E), for the 24 bands with center frequencies of 50 Hz to 10,000 Hz, inclusively. Octave band sound pressure levels (OBSPL) at the eight center band frequencies defined in ISO 266-1997(E) from 63 Hz to 8,000 Hz, inclusively, are determined from the appropriate one-third octave band sound pressure levels per section 6 of ISO 5129-20001(E). A-weighted (dBA) sound levels are defined in Section 6 of ISO 5129-2001(E). The one-third octave band sound pressure levels are weighted per Section 5.4 of IEC 61672-1 to represent typical human ear response.

6.9 The guarantee for interior sound levels in flight pertains to normal operation of an Aircraft in cruise during straight and level flight at an altitude of 35,000 feet and 0.84 Mach number. The Aircraft shall have a complete interior installation including standard thermal/acoustic insulation, all lining and partition panels, a full ship set of fabric upholstered seats and floor covering in the passenger cabin and flight deck consisting of a carpet. All BFE operable equipment, including in-flight entertainment systems, shall be turned off. All operable galley equipment shall be turned off. The interior configuration is defined in LOPA B7712788. The pilot's inboard ear is defined as the captain's (flight deck left seat) inboard ear. The procedures used for the measurement of sound levels shall be equivalent to those in ISO 5129.

**BOEING PROPRIETARY**

---

**6.10** The guarantee for ramp sound levels pertains to a parked Aircraft during in-service turn around with the APU (with optional APU exhaust muffler installed), all environmental control system packs, environmental control system recirculation fans, electronic equipment cooling fans and vent fans operating, and with the main propulsion engines and BFE equipment not operating. The guarantee for ramp sound levels on the 20-meter perimeter pertains to sound levels measured on a rectangular perimeter 20 meters on either side of the Aircraft centerline, 20 meters forward of the nose of the fuselage and 20 meters aft of the tail of the fuselage. The guarantees pertain to APU and environmental control system pack operation at an outside ambient temperature of 25°C(77°F). The procedures used for the measurement of ramp sound levels shall be equivalent to those in ICAO Annex 16.

**7 GUARANTEE COMPLIANCE**

- 7.1** Compliance with the guarantees of Sections 2, 3 and 4 shall be based on the conditions specified in those sections, the Aircraft configuration of Section 5 and the guarantee conditions of Section 6.
- 7.2** Compliance with the takeoff and landing guarantees, the takeoff portion of the mission guarantee, and the community sound level guarantees shall be based on the FAA approved Airplane Flight Manual for the Model 777-300ER.
- 7.3** Compliance with the takeoff guarantee and the takeoff portion of the mission guarantee shall be shown using an alternate forward center of gravity limit of 20 percent of the mean aerodynamic chord.
- 7.4** Compliance with the climb, cruise and descent portions of the mission guarantee shall be established by calculations based on flight test data obtained from an aircraft in a configuration similar to that defined by the Detail Specification.
- 7.5** The OEW used for compliance with the mission payload guarantee shall be the actual MEW plus the Standard and Operational Items Allowance in Paragraph 03-60-00 of the Detail Specification.
- 7.6** Compliance with the Manufacturer's Empty Weight guarantee shall be based on information in the "Weight and Balance Control and Loading Manual — Aircraft Report."

- 7.7 The data derived from tests shall be adjusted as required by conventional methods of correction, interpolation or extrapolation in accordance with established engineering practices to show compliance with these guarantees.
- 7.8 Compliance with the guarantee for interior sound levels in flight shall be demonstrated by Boeing Document D047W263-01. This compliance documentation is based on sound level surveys on production 777-300ER aircraft acoustically similar to the Buyer's Aircraft. Compliance with the guarantee for ramp sound levels shall be demonstrated by Boeing Document D047W227. This compliance documentation is based on a sound level survey on production 777 aircraft acoustically similar to the Buyer's Aircraft. The measured data may be adjusted for sound level increases resulting from Buyer Furnished Equipment, Boeing Purchased Equipment, and from changes to the Detail Specification approved by the Customer and Boeing or otherwise allowed by the Purchase Agreement.
- 7.9 Compliance shall be based on the performance of the airframe and engines in combination, and shall not be contingent on the engine meeting its manufacturer's performance specification.

**8 EXCLUSIVE GUARANTEES**

The only performance guarantees applicable to the Aircraft are those set forth in this Attachment.

AAL-PA-1980-LA-1003493

American Airlines, Inc.  
P.O. Box 619616  
Dallas-Fort Worth Airport, Texas 75261-9616

Subject: Installation of Cabin Systems Equipment

Reference: Purchase Agreement No. 1980 between The Boeing Company and American Airlines, Inc. relating to Model 777-323ER aircraft (**Aircraft**)

This letter agreement (Letter Agreement) is entered into on the date below and amends and supplements the Purchase Agreement referenced above. All capitalized terms used herein but not otherwise defined in this Letter Agreement shall have the same meanings assigned thereto in Exhibit C to the Purchase Agreement or elsewhere in such Purchase Agreement.

Customer desires Boeing to install in the Aircraft the inflight entertainment and cabin communications systems (IFE/CCS) described in Attachment A to this Letter Agreement.

Because of the complexity of the IFE/CCS, special attention and additional resources will be required during the development, integration, certification, and manufacture of the Aircraft to achieve proper operation of the IFE/CCS at the time of delivery of the Aircraft. To assist Customer, Boeing will perform the functions of project manager (the Project Manager) as set forth in Attachment B.

1. Responsibilities.

1.1 Customer's responsibilities:

1.1.1 Provide Customer's IFE/CCS system requirements to Boeing;

1.1.2 Select the IFE/CCS suppliers (Vendors) from among those suppliers identified in the Change Requests listed in Attachment A to this Letter Agreement (Customer has selected such Vendors as of the date of this Letter Agreement);

P.A. No. 1980

SA-20

---

- 1.1.3 Promptly after selecting Vendors, participate with Boeing in meetings with Vendors to ensure that Vendor's functional system specifications meet Customer's and Boeing's respective requirements;
  - 1.1.4 Select Vendor part numbers and provide such part numbers to Boeing by as soon as reasonably possible following Vendor selection (Customer has selected such part numbers as of the date of this Letter Agreement);
  - 1.1.5 Negotiate and obtain agreements on product assurance, product support following Aircraft delivery (including spares support), and any other terms desirable to Customer in its own discretion directly with Vendors;
  - 1.1.6 Provide pricing information for part numbers selected above to Boeing by a mutually selected date;
  - 1.1.7 Negotiate and obtain agreements with any required service providers; and
  - 1.1.8 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] include in Customer's contract with any seat supplier a condition obligating such seat supplier to enter into and comply with a Boeing approved bonded stores agreement. This bonded stores agreement (in form and substance reasonably satisfactory to Boeing) will set forth the procedures concerning the use, handling and storage for the Boeing owned IFE/CCS equipment during the time such equipment is under the seat supplier's control.
- 1.2 Boeing will in a timely manner:
- 1.2.1 Responsibly perform the functions of Project Manager in accordance with the terms of this Letter Agreement and Attachment B;
  - 1.2.2 Provide Aircraft interface requirements to Vendors as specified in Boeing Document D6-36440, "Standard Cabin Systems Requirements Document" (SCSRD) and as specified in Section 3.A of Attachment B;
  - 1.2.3 Assist Vendors in the development of their IFE/CCS system specifications and approve such specifications;

1.2.4 Negotiate terms and conditions (except for price, product assurance, product support following Aircraft delivery and any other terms desirable to Customer in its own discretion) and enter into contracts with Vendors and manage such contracts for the IFE/CCS;

1.2.5 Coordinate the resolution of technical issues with Vendors;

1.2.6 Ensure that at time of Aircraft delivery the IFE/CCS configuration and functionality meets the requirements of the Detail Specification including all Change Requests contained in Attachment A to this Letter Agreement as such Attachment A may be amended from time to time;

1.2.7 Prior to or at delivery of the applicable Aircraft, obtain FAA certification of the Aircraft with the IFE/CCS installed therein, including the Systems Software identified in Section 2.1 of this Letter Agreement; and

1.2.8 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

## 2. Software

IFE/CCS systems may contain software of the following two types:

2.1 The software required to operate and certify the IFE/CCS systems on the Aircraft is the Systems Software and it is considered a part of the IFE/CCS for purposes of this Letter Agreement.

2.2 The software accessible to the Aircraft passengers and cabin crews which controls Customer's specified optional features is Customer's Software and it is not a part of the IFE/CCS for purposes of this Letter Agreement.

2.2.1 Customer is solely responsible for specifying Customer's Software functional and performance requirements and ensuring that Customer's Software meets such requirements. Customer and Customer's Software supplier will have total responsibility for the writing, certification, modification, revision, or correction of any of Customer's Software. Boeing will not perform the functions and obligations described in Section 1.2 above, nor the Project Manager's functions described in Attachment B, for Customer's Software.

2.2.2 The omission of any Customer's Software or the lack of any functionality of Customer's Software will not be a valid condition for Customer's rejection of the Aircraft at the time of Aircraft delivery.

2.2.3 Boeing has no obligation to approve any documentation to support Customer's Software certification. Notwithstanding the preceding sentence, Boeing will, however, only review and operate Customer's Software if in Boeing's reasonable opinion such review and operation is necessary to certify the IFE/CCS system on the Aircraft.

2.2.4 Boeing will not be responsible for obtaining FAA certification for Customer's Software.

3. Changes.

3.1 After Boeing and Vendor have entered into a contract for the purchase of the IFE/CCS, changes to such contract may only be made by Boeing; provided, however, that such changes will be made with the prior consent of Customer. Notwithstanding the foregoing, Customer may request changes at any time. Any such Customer request for changes to the IFE/CCS specification after the Boeing/Vendor contract has been signed must be made in writing directly to Boeing. Boeing shall respond to such request by Customer in a timely manner. If such change is technically feasible and Boeing has the resources and time to incorporate such change, then Boeing shall negotiate with the Vendor to incorporate such change into the contract for the IFE/CCS. Any Vendor price increase resulting from such a change will be negotiated between Customer and Vendor.

3.2 Boeing and Customer recognize that the developmental nature of the IFE/CCS may require changes to the IFE/CCS or the Aircraft in order to ensure (i) compatibility of the IFE/CCS with the Aircraft and all other Aircraft systems, and (ii) FAA certification of the Aircraft with the IFE/CCS installed therein. In such event Boeing will notify Customer and recommend to Customer the most practical means for incorporating any such change. If within 15 days (or such longer period of time as may be mutually agreed in writing) after such notification Customer and Boeing through negotiations cannot mutually agree on the incorporation of any such change or alternate course of action, then the remedies available to Boeing in Section 5 shall apply.

3.3 The incorporation into the Aircraft of any mutually agreed change to the IFE/CCS may result in Boeing adjusting the price of the Change Request contained in Attachment A to this Letter Agreement.

3.4 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

3.5 Boeing's obligation to obtain FAA certification of the Aircraft with the IFE/CCS installed is limited to the IFE/CCS as described in Attachment A, as Attachment A may be amended from time to time.

3.6 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT];

3.6.1 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

3.6.2 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

4. Exhibits B and C to the AGTA.

IFE/CCS is deemed to be BFE for the purposes of the Product Assurance Document and the Customer Support Document.

5. Remedies.

5.1 If Customer does not comply with any of its material obligations set forth herein, Boeing will provide to Customer written notice of such non-compliance and in the event Customer has not cured such non-compliance by the date of compliance (which shall be a reasonable period of time in Boeing's reasonable judgment) provided in such notice, then Boeing may:

5.1.1 to the extent that such delay is attributable to such non-compliance, take the following steps:

5.1.1.1 delay delivery of the Aircraft pursuant to the provisions of Article 7, "Excusable Delay", of the AGTA; or

5.1.1.2 deliver the Aircraft without part or all of the IFE/CCS installed, or with part or all of the IFE/CCS inoperative (notwithstanding the provisions of Section 3.1 of the AGTA and even though such IFE/CCS is required in order to obtain certification of such Aircraft in accordance with such provisions), in either event Boeing shall be relieved of all obligations to install or certify such IFE/CCS; and

5.1.2 also increase the Aircraft Price by the amount of Boeing's additional costs to the extent attributable to such noncompliance (except such cost increase shall not include any such costs Boeing has recovered from any Vendors involved), provided, however, Boeing will use best reasonable efforts to mitigate such costs. Notwithstanding the preceding sentence, Boeing has no obligation to recover costs from Vendors.

5.2 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

6. Advance Payments.

6.1 An estimated price for the IFE/CCS purchased by Boeing will be included in the Aircraft Advance Payment Base Price to establish the Advance Payments for each Aircraft.

6.2 The Aircraft Price will include the actual IFE/CCS prices and any associated transportation costs charged Boeing by Vendors.

7. [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

7.1 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT]".

7.2 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

7.3 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

7.4 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

8. Customer's Indemnification of Boeing.

- 8.1 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT];  
“[CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].”
- 8.2 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].
- 8.3 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

9. Confidential Treatment.

Customer and Boeing understand that certain commercial and financial information contained in this Letter Agreement are considered by Boeing and Customer as confidential. Customer and Boeing agree that each will treat this Letter Agreement and the information contained herein as confidential and will not, without the prior written consent of the other, disclose this Letter Agreement or any information contained herein to any other person or entity, except as provided in this Letter Agreement or in the Purchase Agreement.

[CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

[CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT];

**Attachment B**  
**Project Manager**

This Attachment B describes the functions that Boeing will perform as Project Manager to support (i) the development and integration of the IFE/CCS and (ii) the FAA certification of the IFE/CCS when installed on the Aircraft.

1. **Project Management.**

Boeing will perform the following functions for the IFE/CCS. Boeing will have authority to make day-to-day management decisions, and decisions on technical details which in Boeing's reasonable opinion do not significantly affect form, fit, function, cost or aesthetics. Boeing will be responsible for:

- A. Managing the development of all program schedules;
- B. Evaluating and approving Vendor's program management and developmental plans;
- C. Defining program metrics and status requirements;
- D. Scheduling and conducting (including notifying Customer of) (i) program status reviews and (ii) meetings to discuss any changes, at intervals mutually agreed to by Boeing and Customer. Customer will have the right to attend such status meetings between Boeing and Vendor regarding the Aircraft;
- E. Scheduling and conducting design and schedule reviews with Customer and Vendors;
- F. Monitoring compliance with schedules;
- G. Evaluating and approving any recovery plans or plan revisions which may be required of either Vendors or Customer;
- H. Leading the development of a joint IFE/CCS project management plan (the Program Plan) and;
- I. Managing the joint development of the System Specification.

2. System Integration.

Boeing's performance as Project Manager will include the functions of systems integrator (Systems Integrator). As Systems Integrator Boeing will perform the following functions:

- A. As required, assist Vendors in defining their system specifications for the IFE/CCS, approve such specifications and develop an overall system functional specification;
- B. Coordinate Boeing, Customer and Vendor teams to ensure sufficient Vendor and Vendor sub system testing and an overall cabin system acceptance test are included in the Program Plan; and
- C. Organize and conduct technical coordination meetings with Customer and Vendors to review responsibilities, functionality, Aircraft installation requirements and overall program schedule, direction and progress.

3. Seat Integration.

- A. Boeing will coordinate the interface requirements between seat suppliers and Vendors. Interface requirements are defined in Boeing Document Nos. D6-36230, "Passenger Seat Design and Installation"; D6-36238, "Passenger Seat Structural Design and Interface Criteria"; D222W232,; and D222W013-4, "Seat Assembly Functional Test Plan".
- B. The Vendors will be required to coordinate integration testing and provide seat assembly functional test procedures for seat electronic parts to seat suppliers and Boeing, as determined by Boeing.
- C. The Vendors will assist the seat suppliers in the preparation of seat assembly functional test plans.

Subject: Confidentiality

Reference: Purchase Agreement No. 1980 between The Boeing Company and American Airlines, Inc. relating to Model 777-223IGW Aircraft

This letter agreement ("Letter Agreement") is entered into on the date below and amends and supplements the Purchase Agreement referenced above. All capitalized terms used herein but not otherwise defined in this Letter Agreement shall have the same meanings assigned thereto in Exhibit C to the Purchase Agreement or elsewhere in such Purchase Agreement. This Letter Agreement supersedes and replaces in its entirety any and all previous versions of Letter Agreement 6-1162-AKP-118 dated as of October 31, 1997.

1. Confidentiality Obligation.

1.1 Except as otherwise provided in this Letter Agreement, each party shall, and shall ensure that its directors, officers, employees, Affiliates, agents, suppliers, subcontractors and professional advisors (collectively, Representatives), at all times, maintain strict confidence and secrecy in respect of all Confidential Information (as defined below). Each party agrees to disclose Confidential Information only to such of its Representatives as is required for the purpose of implementing and administering the Purchase Agreement, and shall inform such Representatives of the confidential nature of the Confidential Information and instruct (and use best reasonable efforts to cause) such Representatives to treat such Confidential Information in a manner consistent with this Section 1.

1.2 Neither party shall use the Confidential Information for any purpose (including any competitive or commercial purpose) other than in connection with the Purchase Agreement and for purposes of consummating the transactions contemplated thereby.

PA No. 1980

SA No. 20

---

2. Definition of Confidential Information.

2.1 Subject to the provisions of Section 2.2, "Confidential Information" means:

2.1.1 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT];

2.1.2 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT];

[CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT];

- a)
- b)
- c)
- d)
- e)
- f)
- g)
- h)
- i)
- j)
- k)

2.1.3 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT];

- a)
- b)
- c)
- d)
- e)
- f)
- g)
- h)
- i)
- j)

2.2 The following shall not constitute "Confidential Information" for purposes of this Letter Agreement:

2.2.1 Information (other than the terms and conditions of the Pre-Closing Letters and the Business Letters) already in a party's possession prior to its disclosure by the other party as evidenced by the written or electronic records of such party;

2.2.2 Information obtained from a third person or entity that is not prohibited from disclosing such information to the receiving party as a result of a contractual, legal or fiduciary obligation to the party whose information is being disclosed;

2.2.3 Information that is or becomes generally available to the public, other than as a result of disclosure by a party in violation of this Letter Agreement; or

2.2.4 Information that has been or is independently developed by a party or its Affiliates, without violating such party's obligations under this Letter Agreement.

2.3 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

3. Disclosure.

3.1.1 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT]:

(a) [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT]:

(A) [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT];

(B) [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT];

(C) [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT]

(D) [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

(b) [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

3.1.3 Either party may disclose Confidential Information without the consent of the other party when and to the extent required by any law applicable to such party or by a Governmental Authority. If a party (the "Disclosing Party") is requested to disclose any Confidential Information of the other party (the "Affected Party") under the terms of a subpoena or order issued by a Governmental Authority, it shall (i) notify the Affected Party immediately of the existence, terms and circumstances surrounding such request, (ii) consult with the Affected Party on the advisability of taking legally available steps to resist or narrow such request, and (iii) if any disclosure of Confidential Information is required to prevent the Disclosing Party from being held in contempt or subject to other legal penalty, furnish only such portion of the Confidential Information as it is legally compelled to disclose and, at the request of the Affected Party, use commercially reasonable efforts to assist the Affected Party in obtaining an order or other reliable assurance that confidential treatment shall be accorded to the disclosed Confidential Information; and

3.2 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

3.3 In addition to disclosures of Confidential Information permitted by this Letter Agreement, either party may disclose Confidential Information as and to the extent explicitly provided for in the Purchase Agreement.

#### 4. Remedies.

[CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT]

#### 5. Conflicts.

PA No. 1980

SA No. 20

---

Subject to Section 2.3, to the extent of any conflict or inconsistency between the provisions of this Letter Agreement and any provisions regarding confidentiality of information set forth in the Purchase Agreements, the provisions of this Letter Agreement shall, to the extent of such conflict or inconsistency, control.

PA No. 1980

Subject: Open Configuration Matters — 777-323ER

Reference: Purchase Agreement No. PA-1980 (**Purchase Agreement**) between The Boeing Company (**Boeing**) and American Airlines, Inc. (**Customer**) relating to Model 777-323ER aircraft (**Aircraft**)

This letter agreement (**Letter Agreement**) amends and supplements the Purchase Agreement. All terms used but not defined in this Letter Agreement shall have the same meaning as in the Purchase Agreement.

1. Aircraft Configuration.

1.1 Initial Configuration. The initial configuration of Customer's Model 777-323ER Aircraft has been defined by Boeing Model 777-200/200ER/-200LR/-300/-300ER Configuration Specification D019W005, Rev G. Final configuration of the Aircraft will be completed as described in this Letter Agreement. [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

1.2 Final Configuration Schedule. Customer and Boeing hereby agree to complete the configuration of the Aircraft using the then-current Boeing configuration documentation in accordance with the following schedule:

1.2.1 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

1.2.2 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

1.2.3 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

2. Amendment of the Purchase Agreement. Within [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT] days following Customer's Accept/Reject Decision, Boeing and Customer will execute a written amendment to the Purchase Agreement, which will reflect the following:

2.1 Changes applicable to the basic Model 777-300ER aircraft, which are developed by Boeing between the date of signing of the Purchase Agreement and date of [final configuration.

2.2 Incorporation into Exhibit A of the Purchase Agreement, by written amendment, those optional features which have been agreed to by Customer and Boeing pursuant to Article 1.2 above (**Customer Configuration Changes**);

2.3 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT];

2.4 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT]; and

2.5 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

3. Other Letter Agreements.

Boeing and Customer acknowledge that as the configuration of the Aircraft progresses, there may be a need to execute letter agreements addressing one or more of the following subjects:

3.1 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

3.2 [CONFIDENTIAL PORTION OMITTED AND FILED SEPARATELY WITH THE COMMISSION PURSUANT TO A REQUEST FOR CONFIDENTIAL TREATMENT].

Dallas, Texas  
February 16, 2011

I, Gerard J. Arpey, certify that:

1. I have reviewed this annual report on Form 10-K of American Airlines, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
