

Note: The following is a post made on AMR Corporation's intranet on February 27, 2013.

What is going to happen to the TWA captains that have been captains for more than 15 years, but have a seniority number of about 6,000 and a hire date of 1988?

A: Prior to any seniority integration with US Airways, the Company and APA will conclude an interest arbitration under LOA 12-05, dealing with the termination of fence provisions under Supplement CC. The arbitration will determine substitute contractual protections for the former TWA pilots as a result of the termination of Supp CC, including whether former TW pilots are guaranteed certain CA positions on American. The seniority integration process with US Airways will be subject to the outcome of the LOA 12-05 interest arbitration.

American cannot speculate on the outcome of the seniority integration process with US Airways. The MOU provides that, if the merger is approved, the new company and committees representing the interests of the pilots will conduct a seniority integration process that complies with the federal McCaskill-Bond legislation. That process would begin with negotiations, but if the parties are unable to achieve a single seniority list through those discussions, the matter would be submitted to arbitration as outlined in the legislation. For more information on the anticipated timeline for seniority integration and other processes, please refer to Merger 101 on new Jetnet.
